W. H. MILLER,

42-38 Allegheny St. BELLEFONTE, PA.

Democratic Watchman

Bellefonte, Pa., Jan. 6, 1899.

DIED SUDDENLY AT THE SUPPER TABLE.—William Irwin, one of the best known and most venerable men in Nittany valley, suddenly expired while seated at the supper table in his fine country home near Jacksonville, last Thursday evening. The entire family and several guests, besides, were at the table when the honored father and host carried his hand to his head, as if to wave off something, and died.

Death was probably caused by heart failure, precipitated by the kick of a horse which he had suffered about a week previous.

Deceased was born at the old Irwin homestead in Jacksonville, October 31st, 1828, and died in the same house in which he was born, Dec. 29th, 1898. Early in life he engaged in the occupation of farming which he followed many years. He did not always live in Jacksonville, having for a number of years been a resident of the west, and also farmed at Buffalo Run, 3 miles west of Bellefonte.

In 1862 he married Miss Susan J. Allison, who preceded him to the grave several years ago. The following named children survive to mourn the loss of a kind and indulgent father: Gertrude D. Allison, Eleanor, Susan, Lulu, of Jacksonville; Mrs. J. Will Mayes, of Howard; and Mrs. Samuel Allen, of Pittsburg. A son, William, Jr., died about eighteen years ago.

Mr. Irwin had the confidence and esteem of a large circle of friends and acquaintances over the country who sincerely regret his death. He was the last of the older generation of the Irwin family, a conscientious Christian gentleman and an elder in the Lick Run Presbyterian church. He was an uncle of Robert Irwin, of this place.

The funeral took place Monday, January 2nd, at 11 a. m. Interment at Jacksonville.

ERNEST KITSON'S WORK ABROAD.—Many Bellefonters will be interested in the work that Mr. Ernest Kitson, a former resident of this place, is interested in in England. He is located in London as manager of the Kitson Hydro-Carbon heating and incandescent lighting company, which is introducing the recent invention of Mr. Arthur Kitson for lighting and heating.

In commenting on an exhibit of the light at Ripon, Wales, recently, the Ripon Gazette speaks thus complementarily of it: "Special interest attached to the proceedings at the Mayor of Ripon's reception last week, because the members of the corporation were notified that at 8 p. m., Mr. Ernest Kitson, of London, would show a new incandescent lamp, which, according to all accounts, bids fair to revolutionize the general system of lighting, both public and private. The members of the Ripon corporations are particularly interested in lighting at the present time, because of the money being spent on the improvements at their gasworks recently obtained—the transition state of the works needing constant vigilance on the part of the manager to keep up with the increasing requirements of the city, which can be amply dealt with when all is completed. Meanwhile anything in the nature of an illuminant is regarded with interest and with an open mind. The Kitson light favorably impressed the members of the council, as seen in the town hall, its softness and brilliancy contrasting favorably with the gas lights. When seen, however, in open spaces, the superiority of the lamp over ordinary incandescent gas lights is at once apparent, and its steadiness and softness it certainly surpasses the electric light. The stolid British mind is apt to regard with suspicion American inventions, but the Kitson light is such an obvious success that the most biased Britisher must admit its great advantage.

THEIR FINEST BALL.—The 29th annual dance of the Logan engine company, last Friday night, proved the finest social function ever given by that organization. The armory was fairly crowded when the grand march began at 9 o'clock and so attractive was the dance made that most of those present remained until "auf wieder sehen" was played at two.

They had fine music and the best of order at all times. The Logans were on their nettle and everything moved as smooth as if they were all professional dance managers. While the entire organization comes in for the honor of such a well ordered affair, the committee, Messrs R. H. Montgomery, John T. Laurie, Jas. Harris, George Cunningham and George Knisely deserve special credit for their tactful work in managing it.

Charles Edward Rine was married to Miss May Homer, at the bride's home near Centre Hall, on last Friday. "Tod," as he is more familiarly known had kept his approaching nuptials so much of a secret that his own parents did not know of it until after the happy affair had been consummated. The bride is a bright, pretty girl, accomplished in domestic duties and will make a good wife. The groom is a fireman at the water works, and is a sober, industrious boy, who deserves the best that's going.

John Stoyer, of Philipsburg, who is a brakeman on the Moshannon branch of the T. and C. R. R. went to Houtzdale on Christmas day. He undertook to jump off the train before it had stopped at the station, the result being that he slipped and was thrown under the wheels. His left leg was so badly crushed that amputation was necessary. He is lying in the Philipsburg hospital now and his wife and four little children are deploring the calamity that has befallen them.

The new 600lb. fire bell has been hung in the tower of the Undine engine house. It has a very sharp tone, cast especially for fire alarm purposes and is rung by electricity. The bell has no clapper. It is rung by a hammer that is controlled by a great spring and is released by electricity.

You ought to take the WATCHMAN.

POINTS OF INTEREST FOR OUR GRANGER READERS.—At the fourth quarterly meeting of Centre county Pomona grange, held in the hall of Bald Eagle grange, at Milesburg, last month, the question of lightning rods was discussed.

It was called up by the report of James A. Keller, secretary of the grange fire insurance company, after showing a gain in risks of \$110,000 for the quarter Mr. Keller asked whether lightning rods were a protection from electric discharges, and if so, why do not insurance companies offer some inducement to have buildings rodded? If no protection, why incur the expense? He said it was a singular fact that in 1896 not a single fire had occurred and only slight damage by lightning to buildings insured in the Patrons insurance company, while in 1897 fire had ensued in nearly every case. Dr. H. T. Fernald, state economic zoologist, who was present, said he questioned whether "rodding" paid. He had made it considerable of a study and had arrived at the conclusion that he would take the risk rather than employ the ordinary rod. Certainly it were better to have none than poor conductors, or rods not kept in good repair. Mr. Beck, of Halfmoon; John S. Dale, of Logan, and others followed, and the trend of the remarks were not favorable to the interests of the "lightning rod man." If rods are desirable the state grange should make some arrangement by which they can be obtained at a reasonable rate.

The report of the granger's picnic committee was not presented as final for the reason that several items had not been settled. Though enough was known to warrant the assertion that the last picnic was a financial success.

Dr. Fernald was the lecturer present and talked on insects. He said he was not prepared to make a speech, but was willing to say something in relation to the insects and animals that destroy our crops, interfere with our interests and diminish our margins. The average loss from these pests, he said, was 10 per cent. some years as much as 30 per cent. We fail to realize the extent from the fact we have never had a year that has been free from their ravages. The past year reports showed a loss of 60 per cent. on plums, 80 per cent. on apples, and in Montgomery county 85 per cent. of wheat. Fifteen or twenty different insects affect the wheat, either in growth or barn or bin or mill, and most of which can be either mitigated or prevented; and that he would be glad to do all in his power through the department to disseminate information that will lead on as far as possible to a riddance of these pests.

The first meeting for 1899 is to be held in the hall of Walker grange, at Hurlersburg, on Friday, January 20th. There are to be two sessions, morning and afternoon, all 4th degree members are cordially invited to be present, as there will be important business relating to the future work of the organization considered and passed upon. Patrons, turn out; the work of the grange has but fairly commenced and all loyal members should manifest their interest by their presence at the first regular meeting of the new year.

- PROGRAM. 1. Opening in regular form. 2. Roll call of officers and directors of Insurance company. 3. Reading of minutes of last meeting. 4. Address of welcome—Walker grange. 5. Response by worthy master George Dale. 6. Song. 7. Select reading or reciting by W. W. Rupert, of Zion grange. 8. Reports of committees. 1:15 p. m. 9. Reports of deputies. 10. Report of picnic committee. 11. Reports from representatives of subordinate granges. 12. Song. 13. Recitation by Progress grange. 14. What can be done to secure greater interest in Grange work during the winter, to be opened by Logan grange. 15. Song. 16. Conferring the 5th degree, if desired. 17. Selection of next place of meeting. 18. The good of the order. 19. Closing.

At the last regular meeting of the county grange it was decided to hold a series of meetings with the various sub-ordinate granges, with a view to encouraging the minor organizations and promoting a general co-operation in the work. The meetings will all be open to the public, unless otherwise specially requested. They will be held as follows: ZION—Tuesday, Jan. 31st, 1 p. m. MARION—Wednesday, Feb. 1st, 10 a. m. and 1:30 p. m. HOWARD—Thursday, Feb. 2nd, 10 a. m. and 1:30 p. m. LOGAN—Friday, Feb. 3rd, 10 a. m. and 1:30 p. m. UNION—Friday, Feb. 3rd, 10 a. m. and 1:30 p. m. VICTOR—Tuesday, Feb. 7th, 10 a. m. and 1:30 p. m. WASHINGTON—Wednesday, Feb. 8th, 10 a. m. and 1:30 p. m. HENNER—Thursday, Feb. 9th, 10 a. m. and 1:30 p. m. LEBANON—Friday, Feb. 10th, 1 p. m. MANSION—Tuesday, Feb. 14th, 9:30 a. m. MILLS—Tuesday, Feb. 14th, 1:30 p. m. PROVIDENCE—Wednesday, Feb. 15th, 10 a. m. and 1:30 p. m. GOOD WILL—Wednesday, Feb. 15th; 7:50 p. m. SPRING MILLS—Thursday, Feb. 16th, 1:30 p. m. FAIRVIEW—Friday, Feb. 17th, 1:30 p. m.

At the last meeting of the state grange, held at Williamsport, Miss Florence Rhone, of Centre Hall, was elected "Flora" of the grange. Hon. Leonard Rhone was made chairman of the executive committee.

Joseph M. Linn, of Beech Creek, has been granted a pension of \$6 per month.

LOOKING TO THE REORGANIZATION OF THE FIFTH.—The reorganization of the Fifth regiment, N. G. P. is fast assuming a perfected state and it will not be long until the organization has again taken its place in the Guard of the State. Most of the companies have been mustered into the service already and on last Thursday the reorganization of the field and staff was begun at Altoona.

The following commissioned officers reported to colonel Birchfield: Lieutenant colonel Rufus C. Elder, of Lewistown; adjutant John S. Fair, of Altoona; quartermaster Charles W. Bathurst, of Huntington, and major A. S. Stayer, of Altoona. A number of others have not yet reported. These non-commissioned officers were mustered in Thursday night: Regimental sergeant major Joseph H. Butler, quartermaster sergeant Herbert E. Birchfield, color sergeant Lyman S. Price and battalion sergeant major Harry L. Johnston. Several of the non-commissioned staff are yet to be mustered. There will be several vacancies among the commissioned officers. Major John P. Kennedy's commission expired during the summer, leaving that place vacant, and the positions of assistant surgeon, chaplain and battalion adjutant are also vacant.

On Friday evening, December 24th, Co. B, the old military organization in this place was reorganized. It had been mustered out of the state service last April to enter the U. S. service. Adj. John S. Fair, of Altoona, was here to look after the work and about two hundred spectators witnessed it. Fifty-five of the old men re-enlisted under their old officers, viz: Capt. Hugh S. Taylor; 1st Lieut. Geo. L. Jackson, and 2nd Lieut. Charles J. Taylor.

A MOVEMENT TO DIVIDE RUSH TOWNSHIP.—Samuel Wilkinson is at the head of a number of citizens of the southern end of Rush township, who want to have the township further divided. They have already petitioned court for another division and it is possible that the question will be put before the people at the February election, if a special election is not ordered for the purpose. As it stands Rush township is 30 miles long and 10 miles wide and some of the people out there insist that it is too large to be properly looked after by one set of township officers. Especially have the roads extended beyond their capacity to keep them in shape and it was largely on this account that the movement for a division was inaugurated.

Here are some changes in railroad circles that were made on the first of the year that will interest Bellefonters who are acquainted with the officials concerned. Assistant engineer C. P. McArthur, of the Tyrone division, becomes assistant engineer of the middle division. He will be stationed at Harrisburg. General superintendent Sheppard removes from Altoona to Newark, N. J. and becomes general superintendent of the united railroads of New Jersey. J. M. Wallis, now general superintendent of the Philadelphia and Erie road, goes to Altoona as superintendent of the Pennsylvania division.

Miss Jennie Pletcher, of Howard, was married to P. A. Louney, of Lock Haven, on Thursday of last week. The ceremony was performed at the home of the groom's father and was a very quiet affair. Rev. McCarthy officiated. Miss Susie C. Louney, a sister of the groom, was the maid, while George Boardman acted as groomsmen. The groom is favorably known in Lock Haven, where for years he has been employed in the Queens Run fire brick works.

The farm barn in Sugar valley, owned by John Kirby, was totally destroyed by fire early Saturday morning. When Mr. Kirby was awakened by the glare of the flames the roof was falling in, so that he had time to save nothing. All the crops, two horses, three cows, three calves and the implements were burned. His loss is estimated at \$1,000, on which he had insurance to the amount of \$375.

An alarm of fire frightened the people of Bellefonte, Tuesday evening of last week, but it proved to be an indifferent blaze in what is known as the "red school house," mid-way between Bellefonte and Milesburg. The stove pipe had set fire to the ceiling through which it passed, but some boys who were skating outside discovered the flames and they were put out before more than \$10 worth of damage was done.

The "Bachelor's Honeymoon," the comedy that was presented at Garman's last Saturday night, was by far the best thing that has been seen in Bellefonte this season. The company played to poor business, too. They left here for Johnstown on Sunday afternoon; having had a special train sent from Tyrone to carry their thither.

The firm of Denlinger Bros., oil brokers of Philipsburg, has been changed to the Denlinger Bros. oil company, an incorporated body, in which all of the stock is held by W. H. and S. J. Denlinger.

Mrs. Henry Hoover, of Bald Eagle, who has been suffering with a tumor for some time, has been removed to the home of her sister, Mrs. J. C. Hoover, at Julian.

Barber Wm. C. Storm spent Christmas day, and a few before and after, in bed nursing an attack of grip.

Joseph M. Linn, of Beech Creek, has been granted a pension of \$6 per month.

A New Republican Thomas.

From the York Gazette.

Andrew Carnegie recently said: "I begin to grow doubtful about the President having convictions upon any subject."

It is more than probable that Andrew made that spiteful remark because he could not bring the President around to agreeing with his views regarding the annexation of the Philippines. But the causes that prompted the remark do not lessen the truth therein.

What a Lie Is.

From the New York Sun.

Dr. Lyman Abbott is telling a story about a Sunday school child under his jurisdiction of whom the teacher asked in the course of the lesson, "What is a lie?" "A lie," responded the infant, with deliberation, "is—is an abomination to the Lord an' a very present help in trouble."

So far as we can judge, one sex has no edge over the other. Many a \$60 school teacher has married a \$25 man. On the other hand, many a \$90 man has chafed off after a \$50 political job.

STORY OF A SLAVE.—To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is good to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by F. Potts Green, Druggist.

The late Calvin S. Brice, during the hard times of 1893-94, frequently distributed among the poor of Lima, O., 500 tons of flour or coal a day.

Pure blood is absolutely necessary for perfect health. Hood's Sarsaparilla is the true blood purifier, and great health giver.

He called me a lobster," said the man with the short hair and the hard face. "What did you do?" said the man with the cigarette fingers. "I made him crawl-fish."—Cincinnati Tquirer.

Medical.

BETTER HEALTH
