A Hard Working Goat. He Gets No Salary, But the Best of Care, and Is Worth Five Men at the Work of Loading Sheep. A

The Inter-national & Great Northern railroad has a trained goat in its employment. The goat receives no salary for his services, but he receives the best of treatment, and seems to fully appreciate the important position which he holds with the railroad corneration. This goat is used the railroad corporation. This goat is used to load sheep on cars, and is well-known to all the shippers along the line of the road. He was raised in Mexico, near the town of Lampazos, on the line of the Mexi-can National railroad. To all outward appearances he was only an ordinary goat, and great was the surprise of his owner about a year ago when the goat of his own Lampazos, where a shipment of goats was being loaded, and led a big flock of

months ago a large shipment of sheep was to be made from Laredo, Tex., on the line of the Inter-national & Great Northern road. "Billy Railroad" was sent for, and he handled the big flock of sheep better than a force of 20 men could have done. The sheep seemed to at once recognize him as their leader. The large herd was found on a vacant piece of ground a short distance from town, and on the morning when the loading was to begin the shipper indicated to "Billy Railroad," by means of signs, what was wanted of him.

"Billy" grasped the meaning of the signs shipping pens. The sheep fell over each other in following him, and they were soon all in the pens. One car after another was all in the pens. One car after another was smoking, dining, sleeping and observation shoved up to the mouth of the chute, and cars exhibited at the World's Fair, Chicago,

time of at least five men was saved. his value is appreciated to such an extent that a large price was offered for him by the Southern Pacific company a few weeks ago. He is now owned jointly by the Meximula (Manuelle, Santa Cruz, Mount Hamilton, Menlo Park, San Francisco, Salt Lake City, Company of the Southern Pacific C can National and the Inter-national & Great Northern roads. A short time ago, during a temporary lull in the sheep and goat shipping business on these two roads, he was rented to the Southern Pacific to to San Antonio, transferred to the Southern Pacific depot in a hack and placed in a bag-gage car of a west-bound passenger train. He was treated like a prince during the trip, and had a great reception by the people of Spofford Junction upon his arrival there. The sheep were driven in by a large force of herders on the following day, and "Billy" was taken out and placed among them. He lost no time in assuming the leadership of the herd. He lead all of them into the shipping pens, and the cars were loaded in a jiffy, and at great saving of time and expense.

### Constables' Fees.

Supreme Court Decision as to Their Payment.

The decision of the supreme court a few days ago upon a test case from Lancaster county means thousands of dollars increase in the cost to counties of the state, and at the same time greater revenues for the con-

stabulary.
Constable Price, of Lancaster county, claimed fifty cents in fees for each witness subpænæd and ten cents for every mile he traveled. The commissioners refused to pay the bill, and in a suit to recover, Judge Livingston of the lower court decided that the constable was entitled to but fifty cents no matter how many names were in the constable was entitled to be a second in mileage. the subprena, and in mileage was entiled to each and every mile necessary traveled in the writ. The commissioners appealed to the superior court, which reversed the lower court as to the subpœna, gave the constable fifty cents for each and every witness on his subpoena, and held that the constable was only entitled to ten cents per mile traveled one way. The commissioners next appealed to the supreme court, which has just affirmed the decision of the su-perior court. Those familiar with the quarter sessions cases know that there are many witnesses in each trial, and that the cost for criminal cases will now be largely augmented. Prior to the change in the law making fifty cents the legal fee for subpœnaing witnesses the fee was fifteen cents, which was considered fair compensa-

### Absolute Indifference.

A woman who has been a victim of indigestion and is kept to dyspeptics' diet most of the time was recently invited to a dinner, which she was anxious to attend. She went to her telephone and, trusting to a somewhat unreliable memory, she asked to be connected by the ever obliging "Central" with telephone 2394. When the connection had been made she began her plainting energy without any profession. her plaintive query, without any prefatory,

'Is that you, doctor?" "I want very much to go to a little din-ner to-morrow night," she began rapidly, "and do you think it would hurt me if I ate just a taste of soup, and perhaps a little fish, or the least trifle of game and a bit of salad or ice? I really think my stomach"— Here she was interrupted by a voice from the other end of the wire.

"Madam," it said, coldly, "eat whatever you please. This is the Meteor Rubber company."

### Dead at an Advanced Age.

Miss Sophia Dallas, daughter of George M. Dallas, who was vice president of the United States under President Polk, is dead in her 76th year. Miss Dallas had been suffering for some time from heart trouble and her death occurred at the residence of her widowed sister, Mrs. Carl Morrell, of Philadelphia, who is now the only surviving member of the former vice President's family.
