-It will be remembered that Lewis' lecture on the "Passion Play," last winter, was by far the best of the popular course and one of the most enjoyable and instructive entertainments ever heard in this town. On Thursday evening, the 16th, Dr. Lewis comes again to give his illustrated lecture "Through the Canadian Rockies" and from the many comments of competent papers it will be equally as good as the "Passion Play" and the stay at homes will miss a

A meeting was held at Pittsburg last Thursday and representatives of all the big plants between New York and Chicago were there. of Washington's birth the colored Odd Fellows of Bellefonte have arranged for their second annual ball and cake walk. The latter feature is being especially prepared for the entertainment of the public and will undoubtedly be the best of its kind ever given in the town. We have been informed that some very elaborate costumes are being made for it and if you want to enjoy something real warm the cake walk will be the place to go that night.

-On last Friday Mrs. Louisa Bush received a letter from her son Harry, who started for the Klondike more than a year ago and from whom she had not heard since last June. He had just arrived at Seattle, by boat from Skaguay, and had come overland from Circle City with the first dog train this season. Harry evidently has prospects, although he did not mention them, for he is going back on the 20th. Not one of his home letters ever reached him, but he has been well posted on our news and events by Seattle friends.

----Wednesday was the fourth anniversary of the big snow blizzard which blocked public roads and railroads in some places in this section for almost one week. The blizzard that prevailed this year on that day wasn't nearly as disastrous to traffic, but it was quite severe enough, for it has held out. Yesterday was the coldest day Bellefonte has had for years, that is, an all day cold. At no time did the thermometer register more than 2° above 0 and early yesterday morning it was 16° below. COUNCIL HAS MADE A LIGHT CONcouncil present at the meeting, Monday Hall has arrived and been installed. evening, but they tackled the light question and settled it for a year at least.

The first business transacted by the body was to hear the report of H. C. Quigley, secretary to the board of health. He re ported that the board had acted on thirty nuisances and five cases of scarlet fever during the year just closed, consuming \$90.50 of the appropriation of \$100. After stating that the term of Dr. R. G. H. Hayes expired on Dec. 31st he asked that the appropriation for the new year be made

The report of the Finance committee showed a balance of \$4,543.40 due the

ing of eight plugs since the last meeting and the pumps at the works running twen-

ty-fours a day. With this done the light question was taken up again and finally disposed of. A by council, at \$80 per light for one year; the company reserving the right to continue the contract to a five year's term. This clause was incorporated in the contract because Mr. Williams, the superintendent of the contract for a period of five years. Upon motion of Mr. Tripple the proposition over yet. was accepted. Messrs. Lowery, Tripple, Houser and Valentine voted for it. Messrs. Gherrity and Wetzel against the measure.

Under the old contract there were 27 arcs at \$105 each and 53 incandescents at William Grauer, her sister, arranged the \$20, aggregating a total lighting cost of surprise and the evening was delightfully \$3,895. The 45 arcs under the new contract will cost \$3,600. While they will give the town far more light than it has there will still be necessity for a number of incandescent lights which will probably run the cost to about where it was formerly.

that the people of Bellefonte look well to the fitness of the men they elect to council on the 21st. While the present body has done things that must certainly meet with own. Only last week the Street committee so far failed in its duty as to permit the erection of two monster telephone poles, one at either corner of the front of the court house park and both materially marring the beauty of the "Diamond," the one place in town that pride naturally centres. We do not pretend to say that the Street committee has been partial to the Commercial company, but it is certainly glaringly evident that its members have been willful derelicts. The same franchises for pole The night following the anniversary | rights on the streets of Bellefonte have been granted to the Edison electric company, the Central Pennsylvania telephone company and the Commercial company. The Edison company once had a line of poles along the north side of the park, but the Street committee then urged the advisability of keeping poles off the streets as much as possible and out of respect to their wishes Sup't. Williams re-arranged his system of wiring and removed the line. The Central Pennsylvania company never undertook to run any pole line into that quarter. The Commercial, however, has done it and all there remains is to put another line up the south side of the park and our town's beauty spot will be as completely fenced in as any chicken coop in the

> The Street committee is responsible to the people of Bellefonte for having permitted the erection of poles in the Diamond, the one place of all in town that should have been kept free from such unsightly obstructions.
