Erdman was discharged from jail here on the 29th of last October, after serving a six months term

STIRRING SCHEMES IN COUNCIL.-Last Monday morning at 10 o'clock the old council met and finished up what business was before it before its final dissolution.

There was a full attendance and after the minutes of the previous meeting had all the work for \$1100 per annum. been read and adopted a message from burhis veto of the cow ordinance passed at a THINGS ABOUT TOWN AND COUNTY gess took up the several sections of the or- held this matter over. dinance, showing their weakness, in fact their illegality, and after reading his opinion of solicitor Dale's application of the law there is little wonder that the new council selected a new solicitor, as one of its first acts.

licitor either ran short of law or that he changes will not be so numerous. It and the furniture dealing undertaker seems almost certain that there will be at ought to change jobs at once.

Sufficient provision has not been made for expenses that will be incurred by the pound-master in certain cases that will arise under master in certain cases that will arise under this ordinance. Suppose that an animal has been impounded by the pound master, fed by him and advertised, and the owner then ap-pears and, at the hearing provided for in Sec. 4th, proves that he did not "voluntarily per-mit" the animal to roam at large and is mit" the animal to roam at large and is therefore released from the fine, who is to pay the costs of feeding and advertising? If the poundmaster must pay this, besides los-ing his labor, it will not be long until no one will accept the office and the ordinance become a dead letter. This ordinance makes no provision for this and other cases where the poundmaster has been at expense and the poundmaster has been at expense and the owner eventually secures the release of his stock without paying the fine, nor does it, in the opinion of the burgess, give such compensation to the poundmaster as to make it an incentive to activity in his duty. His compensation for impounding, advertising and selling is one-half the penalty, viz, \$1.00, besides the "fees allowed by law." "The fees allowed by law" for stray animals as at present allowed by law are to constables and township clerks and can only be collected by them. The borough council has no authority to direct that fees due an officer, created shall be paid to an officer of their own crea

The burgess is to be commended for his good sense in having vetoed such a flimsy ordinance. Bellefonte has already thrown enough money away for the advertising of such inoperative measures that crowd the borough statute book, dead letters. What is needed on the cow question is a specific prohibition, without loopholes of any sort and everyone will be pleased.

The veto was generally discussed by the members then it was moved to leave action on it for a future meeting. \$2,000 was voted into the sinking fund, the following bills were approved and the old council ad-

THE NEW BODY ORGANIZED.

Immediately after the adjournment of the old council the new members, Messrs. Gerberich and Tripple from the West, Walkey from the South, and Derstine from the North were sworn in by justice Keichline. Clerk Isaac Mitchell called the meeting to order and upon motion of Mr. Wetzell C. T. Gerberich was chosen president, there being no other nominations. The election of a clerk followed, with the names of Isaac Mitchell and H. B. Pontius before the body. When Mr. Mitchell had started in to call the roll and had called Gherrity, who voted for Pontius, Mr. Houser, from the South, objected and insisted on a secret ballot. The solicitor said that there was no precedent in law for such a course, but Mr. Houser prevailed and then Mr. Mitchell, in a few well chosen words, explained that he did not want his position or past relations with the body to embarrass the members in their action, whereupon Mr. Gherrity changed his vote from Pontius to Mitchell. The secret ballot was taken, however, and the vote stood 5 to 4 in Pontius' favor.

The evening meeting was called to order by president Gerberich with a full representation present. Several petitions and requests were read, among them one for a street connecting east High and Bishop, which was referred to the Street committee; another for an arc light near Henry Tibbens' home on east Bishop street; this

request being granted. The bonds of poor over-seer Trafford and high constable Foulk were presented for approval, then the committees were an-

-Monday morning one of the most exciting runaways that has occurred in this place for years made things lively on west High street for awhile. George H. Waite, who farms on one of Col. Reynolds' farms in Benner township, was at the freight station on Thomas street loading a car load of baled hay. One of the wagons to which a team of spirited horses was hitched was about unloaded, when a puffing engine came along and away the frightened animals flew. They sped up Thomas street to High, where they struck the delivery wagon owned by John Meese and twisted the axle considerably. In making the turn into High street the rear end of the wagon slid around, the right rear wheel striking a post in front of Dr. Kirk's house and smashing it in addition to breaking the tongue off in the middle. With the front part of the tongue dropped out of the neck yoke, the wagon swaying from side to side and the one wheel smashed down to the hub, the team continued their wild children, down to the Bush house, where it looked as though they were going to run into the entrance of the hotel. They ran between a horse's head and the post to which it was tied, snapping the rope and pushing both horse and buggy clear into the street, but injuring neither. Some man to serve out his term, because he is an excaught them in front of the Harris' hardware store. It is almost a miracle that any breach of the postal laws and regulaboth horses were not terribly injured by the jagged end of the broken tongue that ing known what Philipsburg business men swung between them, but they were not were doing with the large quantities of even scratched.

THE UNDINE HOUSE WARMING.-An event of more than ordinary interest will occur in Bellefonte next Thursday evening, Samuel Rine and Charles Taylor, the latter March 16th. The Undine engine company a great time among the local firemen is certain to occur. All the organizations in the Central Pennsylvania district firemen's association have been invited and while none have accepted as organizations there will be delegations from many of them here that night.

The ceremony will begin at 8 o'clock. when a parade will form at the old engine house on Logan street and with all of the company's paraphernalia move over the principal streets of the town, halting at the new home of the firemen. The balance of

on Friday the public reception will be held. From 1 o'clock p. m. until 6 p. m. the building will be open and a committee will be in attendance to show all visitors through it. Especially are the ladies of the town invited to call during the day. Friday night there will be speeches by a number eason's circus will be forty of Roosevelt's of the local orators and that will conclude the ceremony of dedication.

The new building is of Clearfield buff brick, with terra cotta trimmings and is 60x50 feet, two stories high with a hose tower 60 feet high at the rear. On the first floor there is a library room with a glass workshop, and a large engine room. On day morning. the second floor are four rooms and a large hall; one large meeting room, nicely carpeted and papered with green tinted paper, band room, billiard room, bath room and storage room. > PHILIPSBURG'S POST OFFICE MUDDLE. -Philipsburg is naturally very much excited over a rumor that post master Walton is to be removed and, unfortunately for that gentleman, it appears as if the rumor is to be confirmed by the action of the post office department at Washington.

> On Saturday, February 25th, an inspector visited Philipsburg to investigate the condition of the office. Everything was possible," but the work of some despicable character directed the attention of the inspector to the large sales of stamps in bulk. He soon discovered that stamps had been sold from the Philipsburg office to outside places with the hope of increasing the receipts sufficiently to insure free delivery there. One sale, alone, had been for more than \$1,500 worth to Hood, Fulkrod & Co., in Philadelphia. While post master Walton had no personal connection with such transactions he had a knowledge of it and that has been deemed sufficient ground for his removal. In fact, postmaster General Smith has already declared that Mr. Walton will have to go.

Already there are five applicants for the place. They are H. C. Warfel, John Gowland, John T. Hoover, I. V. Gray and A. L. Bolger. Mr. Walton has been serving since July, 1896, having been appointed just at the close of the Cleveland administration. He has made an excellent official and the citizens of Philipsburg have sent a numerously signed petition to Washington praying that he be permitted to serve out his term. His offense, if such it can be called, was of such a disinterested, impersonal nature and so entirely for the benefit of the Philipsburg public that it seems impossible that there could have been one mean enough to report it against him. If it was a Philipsburger then the informer knows no gratitude, for Mr. Walton only did as he did do to promote the chances for free delivery in that town. Twice severe is the wound when the knife is barbed with ingratitude.

Among the applicants for the place John Gowland will probably be the choice of Gen. Hastings and his influence with the Postmaster General will be of some benefit. It will be remembered that the General undertook to have Walton's appointment held up in the Senate, so that it would go over and leave a better chance for Gowland, whom he was pushing at that time. But the plan failed and Walton was confirmed. Now if Mr. Walton should be removed it is but natural to suppose that flight, almost running over several small the Hastings man will be the winner, since neither Arnold nor Quay are in office to fight it and the Postmaster General and Gen. Hastings are supposed to be very close together.

By rights no change at all should be made. Mr. Walton should be permitted cellent official, and has not been a party to tions. He was merely unfortunate in havstamps they were buying.
