General MacArthur is of the opinion that Aguinaldo is preparing to make a desperate attempt to retake San Fernando. Reinforcements in large numbers have joined him the last few days, until now he has a force from 6,000 to 8,000 men. The Americans are prepared for the attack. The rebels have learned that the Ameri-

The outposts of the Washington regiment yesterday captured General Del Pilar's brass band of eighty-two pieces, the mem-bers of which became seperated from the rebel army and came near the American lines without having the means of resistance. Some Chinamen, of Manila, have filed a claim against the instruments which

were leased by the musicians. Four of the wounded of the Fourth regi-ment's recent fight with the rebels have died in the hospital.
