Robbers broke into the Jones hardware store in Phillipsburg, on Monday, and took a lot of revolvers and high grade knives, leaving the cheap ones undisturbed. They broke open the cash register, but secured nothing from it.

Yesterday was Methodist day at Lakemont near Altoona. An effort was made to interest Bellefonte Methodists in the event, but they could not be enticed into traveling to that resort to spend the day with their Altoona brethren.

A. C. Thompson, who had been elected principal of the Chester Hill schools near Phillipsburg, has resigned to accept his old place as principal at Snow Shoe and has made a great success of the schools there, hence the increased salary they offered to get him back.

Lock Haven is considerably stirred up over the possibility of securing a water-tube boiler works for that place. The promoter offers to put up a sum of money equivalent to any amount raised by the people of that place to secure the industry and offers them stock for every dollar subscribed.

The members of the Union Sunday school at "the red school house" are trying to raise money to build themselves a little chapel. T. A. Shoemaker has donated a lot and A. G. Morris has offered the stone for the foundation so that all that remains to be done is to buy the lumber and erect the building.

Jacob Oakly a partly demented man left the farm of F. J. Raborn, in Pine Creek township, Clinton county, on Sunday, July 16th, and has not returned since, neither has anything been seen of him since the Wednesday following his departure when another man met him in the mountains and tried to persuade him to return with him. Mrs. John Meyers, a widow residing at Mill Hill, caught herself on a fish hook, Monday evening, in a rather peculiar way. She was walking along the fence, dragging her hand on the rail, when she felt something pricking her. The lady gave a quick jerk with the result that a fish hook attached to a pole and line ran clear through her finger. It was extracted only after she had suffered intense pain.

A lawn mower will be needed on the P. R. R. tracks about Bellefonte before long. The grass and weeds have grown to such a height that the tracks make first rate pasture for the cows that escape the pound master. It is too bad that such is the case, but we infer that the augmented business of the company has made it impossible for them to clean up and get things in the shipshape condition they usually are along Pennsylvania railroad tracks, wherever they are to be found.

FOSTER'S WEATHER IDEAS.—My last bulletin gave forecasts of the storm wave to cross the continent from the 24th to the 28th, and the next will reach the Pacific coast about the 28th, cross the west of Rockies country by the close of the 29th, the great central valleys from the 30th to Aug. 1st, and eastern States Aug. 2nd.

A warm wave will cross west of the Rockies country about the 28th, great central valleys the 30th, and the eastern States Aug. 1st. A cool wave will cross the west of the Rockies country about July 31st, great central valleys Aug. 2nd and the eastern States Aug. 4th.

The coming winter will be one of great extremes. A three weeks' early winter will be particularly severe. Following will be three or four weeks of moderate weather. A second winter wave will be longer than the first, and will be noted for its blizzards and zoro weather. A third will follow, thus keeping the unweatherwise guessing and suffering by not better understanding the faithful and never changing laws of nature.

In his prognostication for the weather this month Rev. I. Hicks has this to say: "August will be ushered in with storms and rain from 1st to 4th, cooler weather will follow. About the 7th look for very warm weather with electrical storms changing to cooler, and storm period about 15th with a hot wave. The moon being at extreme south declination on the 16th, wind currents should naturally flow from north to south bringing marked changes to cooler weather and a hot wave about 21st. The moon's passage of the equator on the 22nd, a very generally perturbed state is likely to exist. From 23rd to 27th should cyclones develop in the West Indies look for unseasonable cold weather in North Atlantic regions. The month will end quite warm with local summer storms in transit from west to east."

Resolved, in the death of our brother Bald Eagle Lodge 410 I. O. O. F. has sustained the loss of one of its esteemed and devoted members, who when it was possible for him to be present was always found at his post in the lodge room, cheerfully and efficiently discharging every duty assigned him, and in his actions and labors exemplifying the beauties of "brotherly love" one of the grand principles of our beloved order, and by his example and precept gently influenced his brothers in the lodge to its full observance.

Resolved, The members of his lodge extend to his bereaved wife and sorrowing parents and friends, their sympathy and condolence, but can rejoice with them in the comfort the knowledge affords, that his consistent Christian life will be rewarded by a "crown of rejoicing" in the life eternal.

home of Wm. Gates, at Rock Springs, after a brief illness of about two hours, produced by an overdose of apples. Undertaker Heberling prepared the body for burial and took it to the home of her brother, Wm. Sweeney, at Spruce town next day, from where the funeral took place the day following at the Spruce town cemetery.

Ex-postmaster Wm. Close, of Oak Hill, is making locomotion go on a pair of crutches, from an attack of sciatica. During the recent illness and death of his brother-in-law, Wm. J. Benner, he did not find himself in bed for thirty nights giving his personal attention to Mr. Benner, until death relieved him of his suffering which was caused by an abscess on the liver coupled with stomach trouble. Mr. Benner was a grandson of General Philip Benner and was born at Rock Forge sixty-two years ago. He is survived by one sister, Mrs. Wm. Close at whose home he took sick and died, and three brothers, M. W., Harvey and Philip, of Rock Forge. His wife died two years ago. He died on the 19th and was buried on the 21st at Rock Forge.

Squire John Dauberman is about having a registered short-horn bull shipped to him from Ohio. Dauberman knows the value of short-horn stock, being a butcher and handling all breeds.

Isaiah Fleisher, of Philadelphia, and Jared Fleisher, of Jamestown, N. Y., attended the funeral of their father the beginning of this week. These gentlemen are men of both wealth and influence in the communities in which they live.

Mrs. J. W. McCormick, of Charleston, S. C., daughter of Mr. and Mrs. D. J. Meyer, of this place, is here for the summer. Her husband will come up in the fall. Miriam Meyer, a little niece, accompanied Mrs. McCormick, from Millersburg, this State.

The festival held by the Methodist church Saturday evening on the lawn of Wm. Lohr was well patronized. The lawn was lighted with Japanese lanterns and looked very pretty. It might be remarked that the creams, etc., sold at festivals herabouts are always excellent. The proverbial festival ice cream is a back number.

Hastings on the fight, but he is not as popular a man to-day in Centre Hall as he was before the contest. Some of the Republicans discovered that there was soup to be dished out, and refused to vote until the mess was divided. The pap was handled and ladled out with rather dirty hands, but he boys took their share and voted accordingly. It appears that not all the Republicans in the borough could be bought, although asked to set their own prices, and these in the future will hold the reins and guide the actions of the Republican party in Centre Hall. Mark these words.

On Tuesday water commissioner Samuel Snyder shut Fred Kurtz Sr., off of the borough water mains on the ground that water was purposely wasted. A fine of ten dollars was imposed. Was it a coincidence that the next day and to this writing everybody connected with the borough water plant had sufficient water for all purposes—domestic and mechanical? F. A. Foreman, who lives on the highest point within the borough, had a supply, and the reservoir showed more water in it Wednesday evening than for sometime before. These are facts, and the cause may be guessed.

At a meeting of the Potter township school board some time ago the following teachers were elected for the coming school term: Egg Hill, J. R. Bible; Centre Hill, J. B. Strohm; Potters Mills, high school; D. R. Foreman; primary, Bertha O. Duck; Cold Spring, M. A. Sankey; Rock Grove, John B. Fortney; Pine Grove, H. B. Spangler; Loop, Thos. F. Farmer; Fleisher's Gap, J. D. Smith; Tusseyville, R. D. Foreman; Tussey Sink, Korman Spicher; Pine Stump, Thos. L. Moore; Early Town, Andrew Gregg; Plum Grove, D. R. Keller. The township school board some few years ago adopted and still puts in force a fixed grade for school teachers employed in the district. The average of the certificate of applicants must be not more than two, and but one two and one half is permitted in any branch. This grading gives Potter township very fair teachers, in fact, above the average. It will also be noticed that but one female teacher is employed.

In the list given above there are a number of teachers holding permanent and professional certificates. The average of these pedagogues' certificates, would, without doubt, be higher in efficiency than most districts.

### NOT AN ORDINARY SCHOOL

When Williamsport Dickinson Seminary was founded money making was the last thought of its promoters. To give the young men and women thorough intellectual instruction and careful moral training at the lowest possible cost was the paramount aim. It still remains its paramount aim. New buildings have been added, the equipment has been enlarged, the faculty broadened step by step, but

**WILLIAMSPORT DICKINSON SEMINARY**  
still remains true to its first principles. It is a Home and Christian School, but not sectarian. It provides for health and social culture as carefully as for intellectual and moral training, taking a personal interest in each pupil and adjusting methods to needs, believing that true education seeks to develop the highest type of manhood and womanhood. Athletics directed by a trained athlete make ball-field and gymnasium of real value. Nine regular courses, with elective studies, if desired, offer wide selection, while 17 skilled teachers classify and instruct, making school work other than drudgery. Music, Art, Elocution may be studied with other branches or alone under teachers with best European and home training.
