Island of Porto Rico Was Devastated from End to End and People are Starving.-Frantic Appeals for Aid are Being Sent to this Country.-Two Hundred Bodies Recovered.-Fifteen Ships Wrecked in Ponce Because, It is Said, No Warning of Storm Was Sent.

About the worst storm ever experienced struck Ponce, Porto Rico, Tuesday morn-ing at nine o'clock, and lasted two hours. It came from the northeast. Ponce was flooded at midnight, and at least 300 per-sons were drowned. Two hundred bodies, mostly those of poor people, and including many children, have been recovered.

All the buildings are damaged, and hun-dreds have been destroyed. The soldiers and firemen worked all night heroically, saving many lives. There is no drinking water, gas, or electric light. The commis-sary stores at Playa were deseroyed, the city is short of food, and the army officers

lives at Ponce, Porto Rico, during the hurricane. Terrible distress prevails there.

All the wells and cisterns in the city and surrounding country are filled with salt water, which was swept in from the ocean when the storm was at its height. To add to the horrors of the situation a stench is arising from the bodies which were left in the fields by the receding waters, and an epidemic of disease is feared.

troyed. Sixteen lives were lost there and the town is still submerged in water. At Guayamo the houses are still standing. Seven persons were killed there. A num-ber of houses were pillaged, squads of soldiers were unable to maintain order and starvation threatens the population. The water supply of San Juan has been stopped. The Coamo springs hotel has been wrecked. It belonged to the Porto Rico company of Philadelphia.

A mob of 1,000 persons threatened the alcalde, Porrata Doria, but they were dispersed by the Fifth cavalry. The alcalde has been deposed on account of negligence. Maj. Myers, of the Eleventh infantry, is acting as alcade in response to popular de-mand. The sum of \$5,000 will be needed to clean the streets. The sanitary condition is serious and assistance is needed. All the crops are totally ruined, the wires are all down and little news is obtainable from the interior. Abonita, including the bar-racks, has been destroyed, but no lives were lost there. Juan Diaz has been devastated. Forty-six lives were lost there. Arroya, Salinas and San Isabel are reported to have been totally demolished. The railroad between Ponce and Yauco has been destroyed and the military road is impassable. The river is flowing over the road for two miles. Mayaguez escaped serious injury. Bananas are the sole food here.

in Porto Rico. Steps were taken to send supplies and the transport McPherson was ordered put in readiness to sail from New York on Monday next. She will carry rations and necessaries. . Secretary of War Root sent the following appeal to the may-ors of all cities of more than 150,000 population :

lute destitution, without homes or food. Unless immediate and effective relief is given these unfortunate people will perish of famine. Under these conditions the President deems that an appeal should be made to the humanity of the American people. It is an appeal to their patriotism also, for the inhabitants of Porto Rico have freely and gladly submitted themselves to the guardianship of the United States, and have voluntarily surrendered the protection of Spain, to which they were formerly entitled, confidently relying upon more generous and beneficient treatment at our hands. The highest considerations of honor and good faith unite with the promptings of humanity to require from the United States a generous response to the demand of Porto Rican distress.

"This department has directed the immediate distribution of rations to the sufferers by the army in Porto Rico, so far as it is within the power of the executive, but in the absence of any appropriation we must rely largely upon private contributions. I beg that you will call upon the public-spirited and humane people of your city to take active and immediate measures in this exigency. The government transport McPherson will be sent directly from the port of New York to Porto Rico on Monday, the 14th inst., to carry all supplies of food which can be obtained. Further transports will be sent at future dates, of which public notice will be given. Any committee charged with the raising of funds will receive full information and advice upon communicating with this depart-ment."
