

THE SEVENTH ANNUAL CHRISTIAN ENDEAVOR CONVENTION AT UNIONVILLE.—The seventh annual convention of the Christian Endeavor societies of Centre county met at Unionville on Saturday and Sunday under the most auspicious circumstances that have ever attended such a gathering in this county. It was held in the Presbyterian church and every session was largely attended.

The convention was called to order promptly at 2 o'clock Saturday afternoon, by the county president, James A. Pratt. He introduced the first speaker of the day, George Spotts, of Unionville, who spoke on "If ye shall ask anything in my name I will do it." Miss Nannie Fisher, of Unionville, made the address of welcome, which was also very well responded to by G. H. Lichtenthaler, of Philipsburg. A very beautiful piece entitled "The Banner of the Cross" was then sung, after which Miss Lulu Griest, of Huntingdon, read a report on "Ideal Committee Work" which was certainly appreciated. After the following committees were appointed the afternoon session was brought to a close.

Committee on nominations was composed of W. B. Thomas, of Milesburg; Mr. Ebbs, of Loveville, and Miss Carrie Weaver, of Bellefonte.

Committee on resolutions, G. H. Lichtenthaler, of Philipsburg; Miss Rose Levy, of Milesburg, and Mrs. M. B. Holtzworth, of Unionville.

The evening services began at 7:15 with a lively song and praise service. At 7:35 Rev. J. T. Scott, pastor of the Presbyterian church at that place but whose home is in Bellefonte, made an excellent address on the subject of "Stir up the gift that is within you." A hymn entitled "He is Near" was then sung after which a number of short sententious prayers were offered. Rev. Newett, pastor of the United Brethren church of Port Matilda, was introduced and made an able address. After Mr. Newett had spoken a business session was held. Reports from different county officers and superintendents were then heard.

The election of officers for the ensuing year resulted as follows: President, J. A. Pratt, Unionville; vice president, H. B. Heylman, Bellefonte; recording secretary, Miss Nannie Fisher, Unionville; treasurer, Miss Rose Levy, Milesburg.

After the evening session the visiting Endeavorers were charmingly entertained by the local society.

SUNDAY'S PROGRAM.
Probably the best and most interesting meeting during the convention was the "Sun Rise Prayer Meeting" held on Sunday morning at 6 o'clock, led by Miss M. B. Holtzworth. She used for her subject "The Supreme Gift." This meeting seemed to be filled so full of the power of God that during the whole day the Endeavorers were overflowing with the Holy Spirit, that precious gift from on high.

At 9:00 o'clock the quiet hour service was held and led by G. H. Lichtenthaler, of Philipsburg. At 10:05 the convention sermon was preached by Rev. Elmer C. Williams. His subject was "The Attractiveness of Jesus Christ." The afternoon meetings were deeply interesting, especially the excellent talks on the "Junior Work," and the "Tenth Legion Work." Rev. Dr. Campbell, of Mt. Union, gave an interesting discourse on the subject of "Christian Endeavorers and the Mid-week Service."

At 7:00 o'clock a lively praise service was led by Miss Nannie Fisher, after which two excellent addresses were made by Rev. C. E. Eberman, of Lancaster, and Rev. Luther DeYoe, of Harrisburg. The consecration service followed. This meeting was led by Samuel Taylor, of Bellefonte, and it was one of the most interesting meetings during the convention.

Next year the convention will be held in Bellefonte.

The following resolutions were read and adopted:

1st. That we urge upon the members of all the societies in this county to join the Tenth Legion or adopt some other way of systematic giving.

2nd. That we look with alarm upon the indifference shown by the members of the most of the societies to the mid-week services held in their churches and urge upon them to attend the same.

3rd. That we fully appreciate the work among the juniors and urge upon each society to try to awaken an interest in this important branch of the C. E. work.

4th. That we urge upon all the societies in the county to do all they can and to use all honorable means for the overthrow of the drink traffic in the county, it being one of the greatest foes if not the very greatest foe that the C. E. army has yet to conquer, and is today the greatest menace to the final triumph of the true principles of Christian Endeavor.

5th. That the true and heartfelt thanks of the members of this convention are hereby extended to all who have in any way aided to make this convention so enjoyable, interesting and successful. We are deeply grateful to all the good people of this place who have kindly opened their homes for the entertainment of delegates. Especially do we thank the officers of the convention for the untiring zeal that they have exhibited for the success of this convention.

MARGARET B. HOLTZWORTH,
ROSE B. LEVY,
G. H. LICHTENTHALER,
Committee.

FOR W. C. T. U. WORKERS.—The 16th annual county convention of the Woman's Christian Temperance Union will be held Monday afternoon and Tuesday, Sept. 11th and 12th, in the W. C. T. U. rooms, Bellefonte. Miss Jessie Ackerman, who has spoken in every land and organized societies in many of them, will speak on Monday evening and be present at Tuesday morning's session.

White ribbons and all friends of the cause of temperance in the county are cordially invited. Entertainment will be provided if notified in time. Address Mrs. J. P. HARRIS, Pres.

FOSTER TALKING WEATHER.—My last bulletin gave forecasts of the storm wave to cross the continent from the 22nd to the 26th, and the next will reach the Pacific coast about the 26th, cross the west of the Rockies by close of 27th, great central valleys 28th to 30th eastern States 31st.

Warm wave will cross the west of Rockies country about the 26th, great central valleys 28th, eastern States 30th. Cool wave will cross the west of Rockies country about the 29th, great central valleys 31st, eastern States Sept. 2nd.

Temperature of the week ending 8 a. m. Sept. 4th, will average about normal. Rain-fall for the same period will be above normal in the northern States, below in the southern, about on the Pacific slope.

Near the date of this bulletin will begin a ten days' heated term in the northern States, accompanied by dry weather. Not all the time hot and dry but these will be the averages of the 10 days.

—The remains of James Nelson, aged 15, who died at the home of his adopted parents, Chas. W. and Elizabeth Myers, in Tyrone, on the 22nd, were brought to Snow Shoe interment for burial. Typhoid fever caused his death.

—The Free Methodist bush meeting up in "Bush's Hollow," near Unionville, was largely attended last Sunday.

Centre Hall.

Miss Tracy Kramer spent several weeks at Rebersburg among friends.

Amanda Bair, of Rebersburg, died last week and was buried Sunday. She was aged between fifty and sixty years.

Bicycling is one of the sports indulged in by both single and young married people of town between dusk and darkness.

J. Frank Meyer, of Penn Hall, who is taking a post graduate course at Johns Hopkins University, Baltimore, in chemistry and physics, was in town this week.

Mrs. Jennie Heckman has returned to Lock Haven after spending some time here. Mr. and Mrs. Kramer will move from Lock Haven to DuBois within two weeks.

Dr. Parke has purchased the medical outfit of Dr. W. A. Jacobs, deceased, and will be here Monday for business. Dr. Parke is a graduate of New York college of physicians and surgeons.

Dr. Leo moved to town from Madisonburg and will practice his profession here. That gives Centre Hall three new physicians, and if the sick don't get well and the well don't get sick "There'll be a hot time in town."

Young Schofield in his Manila letter says monkeys are worth one dollar and parrots two dollars per pair. At that price it would pay to send a pair of parrots to Washington to tell the people the truth concerning the Philippine situation, but monkeys are evidently not needed in the National Capitol.

Rev. A. A. Kerlin, of Sharsburg, Md., was here this week to see his brother A. S. Kerlin who has been ill for some time. The reverend was accompanied by A. M. Wakefield, of Petersburg, Huntingdon county, who is one of the up-to-date and practical farmers of his section. The application of "old farmer" with reference to his personal appearance would be a misapplication.

Mrs. Stiver, while going to the stable a few days ago to feed chickens, was overcome by a weak spell to which she is subject and fell to the walk. Her daughter Maggie saw her prostrate form, but being unable to walk without crutches caused by a severe scald recently was unable to lend the necessary assistance. Neighbors were called in and the aged lady was helped to the house.

Dr. John I. Robison is the successor of Dr. J. F. Alexander, who retires from practice. Dr. Robison also purchased Dr. Alexander's splendid home in this place, which will be presided over by his widowed mother, Mrs. Rebecca Robison, of near State College. The doctor comes highly recommended. He is a graduate of Jefferson college, Philadelphia, and the fact that he has been an assistant in that institution for some time, which is a competitive position, is a guarantee in itself of his medical and surgical knowledge. Dr. Alexander's future has as yet not been mapped out. He will remain in his present home until the middle of October.

The dwelling owned and occupied in past by J. O. Deininger narrowly escaped being destroyed by fire Thursday noon of last week. Mrs. Rishel, widow of John Rishel, an elderly lady, has rooms in the same house and uses an oil stove to do her cooking. While preparing the noon meal the oil in the stove took fire. Mrs. Deininger gave alarm just as a number of workmen were passing by on their way to dinner. They rushed to the scene, and found the oil stove covered with carpets and woolen clothing, but the fire had burned through them. The stove was pitched out the window and a window curtain which took fire was extinguished, then all was over. It was a close call, and but for the timely aid of the passersby there would have been more to tell about "that little oil stove."

Dr. John E. Spindler, a veterinarian of Tyrone, and Dr. Riter, of this place, slaughtered a cow on the premises of Wm. Grossman, across the valley, that responded to the tuberculin test. The postmortem proved the test to be correct. Dr. Riter also killed an animal for Mr. Walker, near Howard, that had symptoms similar to pluro-pneumonia, or as the doctor states it may have been a case of rabies. The brains, liver and pleura were shipped to the state department for examination. Dr. Riter's diagnosis of a case is usually supported after an examination at the state laboratory of the affected parts of diseased animals sent there. Speaking of tuberculosis it may be mentioned here that there is a controversy going on at present among the most skilled and recognized authorities in the State, as to whether or not tuberculosis can be communicated from cattle to human beings and vice versa. As the arguments stand to-day it appears that there has been an undue scare among the meat-consuming people and it looks very much as though the minds of drowsed disease is not communicated by eating of diseased meats. In fact, it may be that tuberculosis will have a general shaking up and the slaughtering of cattle to eradicate the disease discontinued.

There is at least a sentiment growing in this direction among men who have spent much time in the study of this disease.

Rain came at last and came in a telling way—it was a wet rain as is declared by all. Probably a little late to do much good to corn and potatoes, yet it was of inestimable value. Preparation for seeding is advancing rapidly and pastures that were totally dried up will be refreshed. The pessimist could see no good in the rain, because it did some damage by washing fallow fields and permitted the corn in some places to yield to the winds.

A peculiar accident happened to a mule belonging to 'Squire W. M. Grove, below Centre Hill. A crew of men were working on the public road near his farm house, and among the tools used to pull sods off the wagons was a manure hook, which was laid along side the road. 'Squire Grove's little girl rode a mule that way and the beast stepped on the hook which raised the handle and the forward motion of the mule caused the handle to penetrate its skin in front of the abdomen taking a course in the direction of the shoulder. The wound, which was four inches deep, was dressed by surgeon Riter and is healing.

Prof. Geo. Snyder, of State College, circulated through town Tuesday in the fullest meaning of the word. He rode from the College to the home of Lycurgus Lingle, at Earlstown, and while there his horse frightened at a traction engine and tore loose. The steed scampered to town and the professor came in hot pursuit. The horse played hide and seek for an hour or more through the alleys only giving a clue by the noise of his travel. He was finally located in Stahl's lane and cornered. Prof. Snyder will shortly take his position as assistant principal of the Lock Haven public schools and let horse hunting at night for those who like it better.

W. A. Hutchison agent for the state department of agriculture was in this locality securing samples of fertilizers which will be analyzed by the department and published in pamphlet form for general distribution. How these samples are taken may be of general interest to farmers. The agent is armed with a cylindrical brass T. shaped pointed tube, three quarter inch in diameter and a foot in length with a quarter cut out down to near point. The sack from which the sample is to be taken is opened, the tube inserted and given several turns which fills the section cut away for that purpose. Several sacks are thus sampled, the whole is mixed and then about two ounces of the compound is put into a numbered vial. The cost to the consumer, the analysis on the sacks from which the samples are taken and the place the sample is secured is also written on the same package and shipped to the state Department of Agriculture.

Resolutions.

Headquarters Capt. Robert M. Foster Post, No. 107, Dept. of Penna., G. A. R., Lemont, Aug. 19th, 1899.

At a regular meeting of the post the following resolutions were unanimously adopted:

WHEREAS, it has pleased Almighty God in his wise providence to remove by death our comrade, William Benner, a member of Co. K, 14th Reg., Penna. Vols.

Resolved, That while we bow in submission to the Divine will, we feel that we have lost a valuable member of our post, and his presence in our midst will be greatly missed.

Resolved, That we tender to the friends of our deceased brother our sincere sympathy in their affliction, and commend to them the care of him who careth for all.

Resolved, That these resolutions be enrolled upon the records of our Post, a copy be sent to the DEMOCRATIC WATCHMAN and National Tribune for publication, and that the charter of this Post be draped in mourning for a period of thirty days.

RESPECTFULLY,
HIRAM THOMPSON,
E. R. TATE,
Committee on Resolutions.

School.

NOT AN ORDINARY SCHOOL

When Williamsport Dickinson Seminary was founded money making was the last thought of its promoters. To give the young men and women thorough intellectual and moral training, taking a personal interest in each pupil and adjusting methods to needs, believing that true education seeks to develop the highest type of manhood and womanhood. Athletics directed by a trained athlete make ball-field and gymnasium of real value. Nine regular courses, with elective studies, if desired, offer wide selection, while 17 skilled teachers classically and instruct, making school work other than drudgery. Music, Art. Elocution may be studied with other branches of study under teachers with best European and home training. Home, with tuition in regular studies, \$25.00 a year, with discounts to ministers, teachers and two from same family. Fall term opens Sep. 4, 1899. Catalogues free. Address

WILLIAMSPORT DICKINSON SEMINARY

still remains true to its first principles. It is a Home and Christian School, but not sectarian. It provides for health and social culture as carefully as for intellectual and moral training, taking a personal interest in each pupil and adjusting methods to needs, believing that true education seeks to develop the highest type of manhood and womanhood. Athletics directed by a trained athlete make ball-field and gymnasium of real value. Nine regular courses, with elective studies, if desired, offer wide selection, while 17 skilled teachers classically and instruct, making school work other than drudgery. Music, Art. Elocution may be studied with other branches of study under teachers with best European and home training. Home, with tuition in regular studies, \$25.00 a year, with discounts to ministers, teachers and two from same family. Fall term opens Sep. 4, 1899. Catalogues free. Address

Fine Job Printing.

THIS IS THE DULL SEASON.

This is the dull season in every printery and if you want work done on short notice we are in a position to do it for you.

BILLS AND HERALDS.

Special attention of Secret Societies and other organizations is called to the WATCHMAN'S fine advertising bills for picnics, festivals, etc. They cannot be equalled by any other establishment in the county for beauty, size or attractiveness. A fine bill invariably makes a profitable event and the wise see to it that they have the best advertising bills such as the WATCHMAN office alone puts out.

A FAD FOR LADIES.

The newest thing in ladies' calling cards is the Engravers Roman Type of which we have added a full series and can make the most correct thing for you in a few hours' notice. They are only a fad, but every woman wants them. They are cheap too.

ALL KINDS OF PRINTING.

The WATCHMAN Office has facilities for doing fine printing of every description that are unequalled in this county and you are mistaken if you think you can't have your work done here just as cheap as you can anywhere else. Call and get our estimate. It will cost you nothing to see and we will guarantee you the best of satisfaction at the same price that others charge you for indifferent work.

FOR RENT.—Until April 1st, house with all modern conveniences, on Curtin street, Bellefonte. Immediate possession given. Inquire or address "Home," this office.

SHERIFF'S SALES.

By virtue of sundry writs of Fieri Facias issued out of the Court of Common Pleas of Centre county, Pa., and to me directed, there will be exposed to Public Sale, at the Court House, in the borough of Bellefonte, Pa.,

SATURDAY, SEPT. 2nd, 1899, at 10:30 o'clock a. m., the following described real estate, to wit:

All that certain messuage, tenement and lot of ground situate and lying in the borough of State College, county of Centre and State of Penna., and shown on the map or plan of lots made by William Thompson Jr. and now in his possession and designated as lot No. 17 and bounded and described as follows to wit: Beginning at the north east corner of lot No. 16, in north 49 degrees east 257 feet to land owned by Samuel Garner, thence along said lot No. 16, north 50 degrees east 53 feet to lot No. 18, thence along lot No. 18 north 40 degrees west 257 feet to centre of alley, thence along centre of alley south 50 degrees west 53 feet to the place of beginning, containing 1927 square feet, be the same more or less, reserving 16 1/2 feet on the north end and 16 1/2 feet on the south end of this lot for alleys.

Thereon erected a two story frame dwelling house and other out buildings.

Seized taken in execution, and to be sold as the property of W. H. Rodgers, Sheriff's office.

W. M. CRONISTER, Sheriff, Bellefonte, Aug. 18th, 1899.

Green's Pharmacy.

WHAT SHALL WE

FEED THE BABY?

We keep most all the approved baby foods, but the one we want to talk about this week is

"MELLIN'S FOOD"

—The manufacturers claim it to be a soluble dry extract from wheat and malt, consisting of Maltose, Dextrine, Proteids and Soluble Phosphates—free from cane sugar and starch and entirely free from indigestible inert matter, husks and animal germs; every atom nourishing and assimilable—it is recommended by the highest medical authorities—We sell it by the bottle at 50 and 75c; when 3 bottles are taken, at \$1.25 and \$1.85. It is as good for adults as for children—it is always fresh at

IT'S DIFFERENT

THE NORTH AMERICAN (PHILADELPHIA)

IT'S DIFFERENT, because it prints all the news, and all the news it prints is true.

IT'S DIFFERENT, because it's bright and brisk, up-to-date and vigorous, but not yellow.

IT'S DIFFERENT, because its only policy is to tell the truth. It has no covert or personal interests to promote. It serves no political ambition, no creed, no class prejudice, no mere partisan purpose.

IT'S DIFFERENT, because it advocates equal taxation and battles against the existing system, which favors the rich corporation at the expense of the farmer, the merchant, the manufacturer and the wage-earner.

IT'S DIFFERENT, because it stands for Republican principles, and makes war upon all who under the stolen name of Republicanism, are disloyal to those principles.

IT'S DIFFERENT, because it believes manhood and not money should rule. Therefore, it upholds the rights of all, as against the aggressive power of the privileged few.

IT'S DIFFERENT, because no boss, no corporation, can control one line of its space.

IT'S DIFFERENT, because it is nonsectarian and broad; every party, every faith, every class, and the working man equal with the millionaire, gets a fair hearing in its columns.

IT'S DIFFERENT, because it upholds faith in humanity and the progress of mankind toward higher ideals, larger hopes and better living.

ONE CENT EVERYWHERE.

IT'S DIFFERENT. It will continue to be different. Watch the North American and see it grow. 44-32-3f.
