terday took Magalanga, about six miles northeast of Angeles. Col. Smith, with two battalions of the Seventeenth infantry, two guns of the First artillery and a body of engineers, advanced from Angeles. Maj. O'Brien, with a battalion of the Seventeenth infantry and two troops of the Fourth cavalry, moved from Calulut. Col. Smith killed 11 insurgents, wounded many and took 28 prisoners. The Amer-icans had 11 men wounded.

AN IMPORTANT EXPEDITION.

MANILA, Nov. 5-9 p. m.-This even-ing a fleet of transports and gunboats left Manila for the most important expedition of the autumn campaign. Its destination is supposed to be Dagupan or some other northern port. Gen. Wheaton commands, with a brigade consisting of the Thirteenth infantry, the Thirty-third infantry, two guns of the Sixth artillery and the Gatlings. The transports Sheridan, Francisco de Rayes and Aztec carry the troops with the gunboat Helena as escort.

A dispatch boat was sent ahead to arrange a rendezvous with the United States cruiser Charleston and the other warships that are patrolling the north coast of Luzon. The landing will be made under cover of the guns of the fleet. It is assumed here that the purpose of the expedition is to move down the Dagupan-Manila railroad toward Tarlac, to prevent Aguinaldo's forces making another base farther north. Dagupan and Apparri are the strongholds of the insurgents in the north, and, it is supposed, the points where most of the filibustering parties land. Since the beginning of the hostilities it has been the opinion of military experts here that Dagupan should be made a base of operations, but sufficient troops have heretofore been lacking. With Gens. Wheaton, Mac-Arthur and Lawton moving upon Tarlac from three directions, and the mountains hemming in the other side, the insurgent capital will soon become untenable.

IS A SLIPPERV CUSTOMER

Aguinaldo may attempt to shift his headquarters to the rich tobacco country at the northern end of the island. Possibly he may slide around Gen. Lawton's front to the southern province, but, as MacArthur's and Lawton's troops are spread across the country from Angeles to Cabanatuan, it it will be difficult for the insurgents to

escape. Should the concerted operations succeed, organized insurrection, on a large scale should be at an end early next spring, although guerrilla warfare is likely to continue for a long time. No one anticipates that the insurgents will make many hard battles. The problem is to move the troops about the country, to maintain transporta tion and to hold the territory gained.

The moral effect of the arrival of a large American army is calculated upon to sap Aguinaldo's strength by desertions and through the loss of hope among the sup-porters of the revolutionary movement.

SAN FRANCISCO, Nov. 5.-The United States transport Ohio arrived here to-day from Manila via Guam and Honolulu. She brings three officers and 49 men of the Nevada cavalry and 215 discharged soldiers. Two deaths occurred on the voyage, John Mauk, of the First Colorado, and private F. Cullum, of the Fourteenth infantry. D. T. Ross, correspondent of Leslie's

Weekly, who was a passenger on the Ohio, said that he did not understand the attacks on Gen. Otis; that he had never suffered from Otis's reported changing of matter submitted to the censor.

Four Lives Lost in a Mine Horror. Victims Buried Under a Rush of Slush at Mahano

Plane ASHLAND, Nov. 5-The Lawrence & Brown mine at Mahanoy Plane, was the scene of an accident last night by which four men lost their lives and two others were perhaps fatally injured and another had a miraculous escape. The dead

are :--George Boxshes, of Mahanoy Plane. Mike Bonisky, of Maizeville. Joseph Boxshes, of Mahanoy Plane. Mike Drabig, of Maizeville. The injured are :--

John Curry, back and legs badly crushed.

John Hansas, internally injured and recovery doubtful

Michael Wolf, who was working with the men at the time, was thrown into a mine car that was standing nearby and thus escaped injury, as the car was swept out into the gangway to a place of safety. About 10 o'clock last night these miners were sent into a gangway on the first lift to the company was filling with dirt from the colliery

About half an hour later another rush occurred, bringing down hundreds of tons of dirt, which covered the unspecting miners and chocked up the gangway for a Wednesday. The moving was a regular gala

distance of twenty yards. The two Boxshes, Drabig and Bonisky were covered by the fall, while the others, who stood further out in the gangway, were hurled against the sides with heavy timber props and other debris.

John Curry, a driver, was thrown into a mine car standing nearby and the rushing dirt struck the car with such force as to send it flying along the rails, carrying its human freight to a place of safety.

A large gaug of men were soon on the scene plying the shovels with a will in an late hour to-night the bodies had not yet not be reached for many hours. The mine is owned and operated by Lawrence & Brown, and is probably the deepest in the region, having a depth of 1,200 feet, or four lifts. The point where the accident occurred was on the first lift,

which was very badly damaged. The mine has been exclusively worked and numerous cave-ins have occurred in and about Mahanoy Plane, one recently having taken down a large portion of the Schuylkill Traction company's tracks on the main street of Mahanoy Plane.

The Tinplate Disappointment.

The news that the tinplate plants in the throwing out of employment of 700 men at

This is a sad case of the ingratitude of Republics and trusts. For many years Pittsburg pleaded for adequate protection and they had a very large protective duty. They wanted more and they got it. After a while came Mr. Wilson and reduced the duty largely, and still the industry flourished as it never had before. Afterward came Mr. Dingley and put up the duty. After this the Pittsburgers and others con-husband in the old cemetery. cluded that a high tariff would not give them what they desired unless they had a fust Defend Cape Colony Before Helping White. Kaiser Snubs an American Officer.

Colonel Sumner Gets a Chilly Reception at the German Army Manouevers

WASHINGTON, Nov. 6.-An official complaint involving an apparently intentional slight to an American officer by the German Emperor or his subordinates has been made to the State Department. It appears that Col. S. S. Sumner, of the Sixth cavalry, a special military attache, was detailed down making some needed repairs on the old to witness the autumn manouevers of the German army for this government. Ambassador White has written to the State Department a confidential complaint asserting that Col. Sumner was discriminated against in a marked way by the German officers.

It appears that after the manouevers are over, it is the custom for the foreign mili-tary attaches to be presented to the Emperor. They are also furnished with car riages to witness the evolutions. Ambassador White complains that Colonel Sumner was not given a carriage, was ignored in a marked manner, and when reference was made to the presentation to the Emperor, significant excuses were made until nicely. it was deemed best not to press the request. At the same time, the Ambassador says, the usual courtesies were extended to the military attaches of the other nations. and he deemed the slight sufficiently marked to be worthy of a formal report to

the State Department. Almost immediately thereafter Colonel Sumner was recalled from Berlin by this government, and it is understood the matter will be ignored officially, if possible. The protest of Ambassador White has been carefully concealed at the State Department but it is on file there to-day in the secret Hess' families. archives, and the recall of Colonel Sumner was apparently the outcome of the hostile attitude of the German staff officers. Whether this snub, for such it undoubtedly was, is to be construed as personal or international, remain to be seen.
