THE SHIRT FACTORY IS CLOSED.—The Bellefonte shirt factory, which had been in operation for about five months, closed on Tuesday and Mr. E. G. Witters, the proprietor, will move his plant to Cumberland.

The factory closed ostensibly because a sufficient number of girls could not be procured to run it, but the real reason was the failure of Bellefonte business men to make good the promises that were the inducement for Mr. Witters to come here.

The girls who were employed found the work pleasant and were increasing their earnings every week. Those who stuck to it have nothing but kind words to say of the management and the opportunties they had while employed. They were largely their own task masters and had a light, cheerful place to work in.

It is unfortunate that Bellefonte has lost this industry, but the trouble can be traced primarily to the malicious jabber of a lot of irresponsible people. For no sooner had the factory opened than idle tongues were busy discouraging girls in their notion to go to their work and discrediting the management. The WATCHMAN wants to say, however, voluntarily, that Mr. Witters carried out every agreement he made in coming here and would not be moving today, had Bellefonte been as faithful.
