TARIFFS AND TRUSTS.

"What is a trust? In the popular and political sense, it means a combination of the domestic producers of certain commodities to control production and advance prices. No trust of this kind, operating on articles for which there is a possible competitive supply from other countries, could be maintained in the United States for a single month except under one or two conditions, either all the competitive producers throughout the world must be brought into the 'trust,' or, what is the same thing, the product of the whole world must be controlled; or the product of all the foreign producers must be shut out from the markets of the

country. would be obviously impracticable to cover a trace of injury aside from the cut. induce all the manufacturers of starch, for example, in all the different countries of Europe, to unite and put the control of their business in hands of his almost miraculous escape from death, trustees residing in the United States.

"It thus becomes the creator and preserver of trusts and monopolies, the like of which cannot and do not exist under the tariff system of Great Britain, as the starch trust, plate and window glass trust nail trust linseed oil trust, lead trust, cotton bagging trust, borax trust, ax, saw and scythe trust, cracker, cake and biscuit trust, rubber stations on its line at the rate of one fare for boot and shoe trust, and many others. titon, are advancing prices to American consumers to an extent that will afford them from 50 to 100 per cent more profit than can be fairly considered as legitimate, but in which profits their

"There are more than 100 trusts in the United States that could have no existence except for the high duties Reduced Rates to Camden, Ind., via that have been enacted or kept on in order to maintain and protect them. How did your representative in the late congress vote?

'Did he vote for the salt trust, protected and alone made capable of existence by a duty of 44 to 85 per cent? "Did he vote for the window glass trust, with a protection of from 120 to 135 per cent?

"Did he vote for the linseed oil trust, with a protection of over 90 per cent? "Did he vote for the white lead trust, with a protection of 75 per cent?

"Did he vote for the starch trust, with a protection of 90 per cent? "Did he vote for the steel trust, with a protection running from 40 to 115 per

THE SWORD

Snatched From the Hand of Spain and Wielded by America. At the Jefferson Day banquet of the Democratic club, Brooklyn, a letter of regret from ex-Governor Boies, of Iowa, was read, as follows:

"I am sorry it is impossible for me to attend the Jefferson banquet. "The war with Spain was a reaffirmance of the principle underlying our own form of government, that found

expression in a loyal declaration by a united people that Cuba should of right be free. No nation on earth ever championed a nobler cause.

"The end came. The grip of a tyrant had been broken. Spain was at our feet, Cuba, Porto Rico and the Philippines at our disposal. It needed but a simple demand from us to make them and Burlap Effects. 45-10-6m word that would have made the name of America immortal was never spoken.

"Greed took the place of charity and usurped the throne of justice. We wanted an excuse for exploiting the Philippines, and made a voluntary donation of \$20,000,000 of gold to Spain to find it. What followed? I wish to God we could blot from the annals of our race this page of American history, as it mus. be written and go shamefaced, as it will, through all the ages to come

"The truth is, we have simply changed places with Spain and snatched from her palsied nand the sword she could no longer wield and turned it against a race she had become powerless further to oppress.

"Look at the little island of Porto Rico, that welcomed us as deliverers from an oppressor's hand. What do we find? A people denied the most valuable privileges they enjoyed under a despotism that furnished our only excuse for war; a race of vassals without a right we are bound to respectforeigners, in fact, who cannot enter our gates without paying tribute on the products of their toil or take unincumbered from our hands that which their needs require-yet our subjects in name, over whom the American flag is to float forever, to be ruled as our

lordly will may determine. "With unseemly haste a Republican congress and a Republican president struck from the statutes of their country a tariff tax framed for revenue, the only purpose for which taxes can rightly be laid, and built in its place a huge wall in front of every port of the nation, in the shadows of which an infamous brood of life sucking trusts have been nursed, until there is scarcely a manufactured necessity of life the market price of which to American consumers is not fixed by the greed of some giant corporation. We are at the threshold of another national campaign. The issues upon which it is to be fought will be made by the Democratic party. What shall they be?
Anti-imperialism, anti-monopoly and

death to trusts.'

Topknot of Hair Saved Girl's Life.

Nature's generous gift of an unusual growth of hair and the fashion that led Susan Parsy, of New York, to tie it in a knot on the top of her head, united to save that young woman from a horrible death. She fell from a height of four stories on Friday evening, struck on her head and suffered a slight scalp wound.

The young woman is a maid employed by Mrs. Albert Peiser, who lives in an apartment at No. 216 East Seventy-eighth street. Miss Parsy was on an iron balcony in the rear of the apartment. She slipped, lost her balance and fell to the soft earth in the yard.

Mrs. Peiser missed the girl immediately afterward, and, running to the rear, saw the girl lying in a heap on the ground below. Mrs. Peiser aroused the residents of the house and all ran to the yard, expecting to find a mangled corpse.

They were fairly amazed when Miss Parsy arose, more scared than hurt, and asked what had happened. She was suffering somewhat from the shock and was bleeding from a slight cut on her head. ountry.

Mr. James Rine of 2 Thomas street, employed in the planing mill, says: I can speak as highly now of Doan's Kidney Pills, as I did years ago and my case is pretty good evidence that the cures made by them are not temporary. I have not had any of the severe pains in my back since I used Doan's Kidney Pills while before I suffered intensely. I used to be so bad that I could not put on my shoes and could hardly drag myself around. Though I have had slight touches of back-ache it never amounted to much. I have recommended Doan's Kidney Pills to hundreds of people and I know of those who have had the greatest relief from suffering by using them" I can say they are reliable and permanent in their effects."
