For Assembly— { J. H. WETZEL, J. W. KEPLER, For Jury Commis FREDERICK ROBB.

-Rev. W. P. Shriner preached an excellent sermon in the Methodist church on Sunday morning for the nonprogressive and faint hearted members of his flock, who just at this time seem to be in the majority. Indeed it was so good that one brother who usually is with the "blue glass" contingent was heard to say "if ever a sermon was ordered by the grace of God that one was."

-Of course it was altogether unintentional but mason John Noll knocked a hole in the Democratic platform on Wednesday afternoon that proved more than the political builders of this office could repair. The WATCHMAN news press was running with the pages containing the account of the Kansas City convention when Johnny knocked a spawl off a stone he was working with outside the press rooms. It flew through the open window and landed right on the type on the rapidly running machine. It was not noticed for some time and if the platform you read in this pape has a hole in it don't lay it to our lack of faith, but to Johnny Noll's stone.

-Fast driving on our streets here or Sunday has become so common that it is about time that there would be a stop put to it by arresting a few of the offenders. People have a right to drive on Sunday, if they want, but we do object seriously to their making a speedway of our principal streets on the Sabbath day. Of course some few of them are horse owners, though no one would accuse them of having horse sense, but the majority of them are young skalliwags, who have raked enough money together to hire a team to show off on the streets. They are the kind that allow their mothers to toil and rub over the wash board at home without even a thank you in payment for their clean linen and it is surprising that any livery man, no matter how poor he is, will intrust his horses to them the second time.

THE GREAT UNDINE PICNIC.—The fifth annual picnic of the Undine Fire Co., of this place, was held at Hecla park on July Fourth and was universally declared to be the most successful and delightful outing of its kind ever witnessed at any of the popular resorts in this section.

The crowd was variously estimated at from 6000 to 8000 people and better order, less vulgarity and more friendly intercourse never characterized a great crowd like that was before. Everyone seemed bent on having a good time, but was also considerate of the feelings and comfort of everyone else. Everything was managed to the nicety of perfection, except the facilities for eating and that could not be helped, as it is an absolute impossibility to estimate a picnic crowd before hand or to judge what percentage will carry baskets with food for themselves.

All of the eating stands were sold out before five o'clock in the evening and the thousands who staid for the musical spectacle were compelled to go hungry or be content with whatever scraps they could pick

The principal features were the concerts by the famous Repasz band of Williamsport, under the direction of W. Herdic Wood. During the afternoon the band gave a delightful concert in the ball park and in the evening the grand musical spectacle "The Spanish War" was produced. It was witnessed by about 1500 people and was received with great enthusiasm. The great stage was brilliant with electric lights. Back of the band was the chorus of one hundred voices and over them all a great canvas on which was sonville, were married at the latter place shown moving pictures suggestive of scenes on the Fourth. Rev. H. I. Crow perform- of peace and war. Two companies of military manœuvred about the stage and lent a thrilling realism to the scene, as their evolutions were shown by a powerful search light. One of the features most favorably received was the singing of the quartet. The band's work was superb and was so minute in its descriptive presentation of the music that the audience was carried into frequent out-bursts of patriotic enthusiasm.

The Central railroad company reports having carried 5,500 people to the park. There where a great many others who

I already have so many engagements for this month that I did not anticipate making this month that I did not anticipate making any others which would take me out of the city. Still, I should like to witness the ceremonies on Military Day, when the ground is dedicated for the proposed monument to the patriotic dead, and if I find it possible to come I will do so, but I do not wish to make an address. I thank you for your cordial invitation, and will advise you later in the month if I shall be able to be present.

Very truly yours. Very truly yours, NELSON A. MILES.

While Gen. Miles' reply does not state positively that he will be in Bellefonte on the 25th it goes as far as any one in his position can commit himself as to time.
