THE RACES FOR NEXT WEEK .- By the time this paper reaches its readers the finishing touches will have been put on the grounds of the Centre County Agricultural Exhibiting Co. and everything will be in readiness for the great opening races that are advertised for the two days of the Centennial

When work was begun on the grounds in May the idea that they would be completed by this time seemed almost Utopian, but it is a fact and today, within easy access of Bellefonte, is located a race track and fair grounds that for natural beauty and scenery, completeness of equipment and assurance of honorable conduct is unsurpassed in the county.

Lying on a perfectly level plain, surrounded on all sides by towering hills and mountains, sweet with the fragrance of rich meadow land and dotted with miniature lakes one could scarcely have imagined a more ideal spot for such an outing resort. When to this is added the advantage of railroads on either side of it and the ing more to be desired.

The track is a full half mile; being just a foot in excess of that distance three feet G. W. Rees, on Reynolds Ave., last even- from the pole. It is fenced on both sides, so that accidents to spectators will be impossible and racing will not be interfered with. There is absolutely nothing to obstruct the view of the spectators, the buildings being so located that from any part of the field the entire course can be seen. The grounds lie east and west. On the north side the grand stand that will seat 1500 people is located, right on the bank of the stream, so that whatever cooling breezes -Miss Ella La Porte, of Philipsburg, arise from it will be for the comfort of those of it stands the pretty little starter's box from the top of which a flag floats gaily in -Dr. Edith Schad has moved her office the breeze that continually plays through

Away in the northeast corner are the racing stables. There are twenty-five of them, everyone containing box stalls and otherwise as perfect as they can be made.

There are two entrances to the grounds: one at the western end, nearest Bellefonte; the other at the south side from the C. R.

R. of Pa. tracks. For the races next week the Bellefonte Driving Association have hung up cash prizes to the amount of \$1,600. Naturally these big purses have attracted many horses and while the list is by no means complete we are authorized to state that there will tennial except the regimental headquart- be 12 from Du Bois, owned by John E. Brin-Thursday evening in honor of Mrs. Charles | dle, from Bellville, has one; and Irvin Gray, E. Baxter, of Detroit, who is visiting them of Stormstown, has entered his two mares in the 2:25 class.

The official starter will be Frank G. Smith, of the Riverside Park, Buffalo, N. Y., who is a professional. Frank Shugert will be clerk of the course. The judges have not been selected.

It is the intention of the promoters to do everything that will conserve to the comfort, safety and amusement of the public.

This is merely an opening meeting, but it will show, in as far as it is possible, on what scale the great fair will be conducted in the fall. These grounds are to be a permanent pleasure resort for all kinds of out door sport. Boating, skating, base ball, shooting and such amusements will find an inviting home there, but the real purpose is for the agricultural fairs that are to be re-

Tempting prizes for agricultural prodnots, live stock, etc., will soon be annonneed for the fair to be held next fall and it behooves the agriculturists to look to their laurels.

The famous Repasz band of Williamsport will be on the grounds both days to give concerts during the races.

After searching in vain he advertised his loss in the local newspapers and offered a liberal reward for the return of the same. Later he received an envelope mailed at Bellefonte, containing the note and check, which papers were worthless in the hands of any one other than Mr. Dunkle. The finder evidently decided to reward himself and therefore, appropriated all the cash and the valuable pin.-Ex-

TO AVOID ACCIDENTS DURING THE CEN-TENNIAL.-It would conserve greatly to the safety of the public, as well as to that of owners of horses and carriages if all would exercise the greatest care during the Centeunial.

The principal streets will be crowded from morning till night and as little driving as possible should be done. Any that is necessary should be done on side streets and through alleys.

It is especially desirable that people driving in from the country refrain from hitching their teams on any of the principal streets. It would be safer to unhitch in the outskirts of the town or in some of the alleys, for accidents will certainly happen if there are teams tied anywhere along the lines of parade or in the centres where the people are likely to be bunched.

JOHN GALBRAITH MITCHELL .- It was indeed sad news that came to this place yesterday morning in the announcement of the death of John Galbraith Mitchell, at the home of his brother in Minneapolis, on Wednesday morning.

For several years he had been suffering with pulmonary troubles and with the hope of staying the inevitable he went to Southern California and Arizona. Later he took up the out door life of a woodsman in northern Minnesota, but it has all been to

He went West at once and won considerable fame and money as a ball pitcher, but growing tired of that he settled down and became connected with one of the large grain elevator companies in Minneapolis. It was while in the grain business that the signs of lung trouble developed and at once John started for more congenial climes in the search of relief.

He is well know here and about his old home and the announcement of his death is truly a sorrow to the friends of his boy-

THE OFFICIAL HISTORY .- Persons who will be in attendance at the Centennial of Centre county, at Bellefonte, next week, should not fail to secure a copy of the official history issued for this event. It was carefully compiled by Hon. Fred Kurtz, the official historian, and covers a great variety of interesting data, from the first settlers down to the present time. Few people have in their possession a volume of local history for the reason that they were expensive publications and did not have popular distribution. This work is compiled from the histories of Rupp, Maynard, Linn and reliable tradition. It states briefly and concisely all the leading events in the history of the county, settlers, privations and hardships of fron-

commencing with the first discovery, early tier life, Indian massacres, famous Indian chiefs, etc. Then all the leading towns. boroughs and townships receive due notice; important industries, civic and religious organizations, natural resources, eminent men, and other topics of local interest are fully treated to date.
