PHILIPPINE ISLANDS, Sorsogon, Luzon I., May 25th, 1900. Editor Bellefonte WATCHMAN:

We are to-day in receipt of the sad news of Lieut. George Jackson's death at Manila. The flag is at half mast and the hearts of all at this Post are in mourning for the sudden termination of a life, endowed with such bril-

He was with the 5th Pennsylvania Volunteers during the Spanish-American War, and many of his boys re-enlisted and came with him to the Philippines. He was a brave and efficient officer and a universal favorite among the 47th, being always our friend and he was attacked by a McKinley gentleman adviser, and one ready with a helping hand of encouragement in the darker days of a soldier's life.

He passed away at an English hotel, May 21st at 10:30 p. m., with tubercular meningitis. Lieutenant was thrown from his horse and never seemed to recover fully from the effects, although remaining with his company and doing his duty.

On March 7th, we went with Co. "M," of which company he was a Lieutenant to Castelie, while there he was taken ill and upon their return was cared for at our Post hospital until a boat left for Manila being in that city, where he remained until April gone-gone. Then I looked and saw a smart 24th being then sent to the hospital at Corregor Island, from which he was discharged took up his residence at the English hotel, expecting soon to return to his company. While at the hotel he acted in a strange manner on several occasions. He registered as being from the 43rd regiment also the 27th and at times seemed to be bewildered. There had been some talk about his obtaining a transfer but it was never confirmed.

His remains will be sent to the United States on one of the first transports leaving Manila, and with them go the sincere sympathy and condolence of the 47th to his bereaved family in their sudden affliction.
