THE COMING FAIR .- Already there is considerable talk in anticipation of the revival of agricultural fairs for Centre counevening. ty, after a lapse of nineteen years. The splendid new grounds of the Centre County Agricultural Exhibiting Company, near Bogles. Bellefonte, with their charming location, well appointed buildings and half mile track, that was scarcely completed before it had registered a mile in the exceptional time of 2.17<sup>3</sup>, are all present reminders all this talk about thousands of people. big pumpkins, tall corn, fancy needle work and jellies, fat chickens and sleek cattle will not prove an idle day dream. Already the advance announcements are out. The fair will be held on October 16th, 17th, 18th, and 19th. On the three

latter days there will be races for purses aggregating \$2,500 in cash. On Wednesand 2:21 trot and pace and a running race. On Thursday there will be trots and paces for horses in the 1:35, 2:27, 2:18 and 3:00 class and on Friday there will be a 2:30 class, a running race and the grand free for all for the \$400 prize.

These are only the racing features. In addition to them there will be innumerable other amusements, so that from the moment round of interest and pleasure such as is not expected by those who do not know the carefully laid plans of the management.

In this connection we are led to some County Agricultural Society which was finally dragged down by its long list of life-member-dead-heads in October, 1881. The Society is still in existence, but only wakens up once a year to elect delegates to elect trustees to The Penna. State College. The last fair held under the auspices of the Society was on October 5th, 6th, and 7th. It was on the grounds now occupied by the standing the fact that the people were fully aware that the fair was on its last legs and not worth visiting there were thousands in attendance; more than enough to show that the proper incentive would have saved

the old fair, even to this day. In the exhibits Alexander Bros. had a grain drills and reapers, Scott Tate had a collection of fine chickens and Col. -A special meeting of the Centennial Commission was held in the office of the president, Col. W. F. Reeder, on Friday evening, and the treasurer, Jno. M. Shugert, made his report. It showed that to pay every bill in full would necessitate the raising of \$75 more; a surprisingly small deficit when the small amount of money originally raised and the splendid demonstration made with it are consider ed. The fact that the Commission is only \$75 short is a forcible attest to the judgment and economy of the men who had the celebration in charge.

Mr. Shannon is not boasting about what he has done, but he is ontented and thinks he has gotten along a little

better than if he had not gone West: This may be so. We have an idea, however, that his perseverance, industry and business methods would prosper anywhere; and that Kansas, with her cyclones and hot winds, her drougths and grasshoppers, even if it has a richer soil and more of it, is not a whit better place for the honest-go-ahead man who is willing to work and take care of what he works for than Pennsylvania is.
