SOME OTHER DAY.

There are wonderful things we are going to Some other day, And harbors we hope to drift into Some other day. With folded hands, the oars that trail, We watch and wait for a favoring gale To fill the folds of an idle sail

Some other day, We know we must toil if ever we win Some other day, But we say to ourselves there's time to begin

Some other day, And so, deferring, we loiter on Until at last we find withdrawn The strength of the hope we leaned upon

Some other day. And when we are old and our race is run Some other day, We fret for the things that might have been do Some other day.

We trace the path that leads us where The beckoning hand of grim despair Leads us yonder out of the here Some other day.'

-Sommerville Journal Brierwood Comes from Italy Now

Calabria Is Where Most of It Grows and Leghorn Is the Centre of the Trade.

The wood from which brier pipes are made is not the root of the brier rose, but the root of the large heath known in botany as the Erica arborea. Our "brier" is but a corruption of the French bruyere-broom or The brier-root industry has had a somewhat curious history. First begun in the Pyrenees some fifty years ago, it travelled along the French Riviera and the Ligurian coast, taking Corsica by the way, to the Tuscan Maremma, and it has now reached Calabria in the south, which is at present its most flourishing centre. Naturally, when a district has been exhausted of all its roots the industry must come to an end there, and the opinion has been expressed that the Italian branch of it cannot last much more than another ten years. Leghorn has always been the centre of the export of Tuscan brier root since the Maremma industry came into existence, but, as the south Italian brier is of superior quality, a large quantity of the Calabrian root is also imported into Leg-horn for selection and subsequent export. The total export from Leghorn is estimated at 50,000 hundred weight in the year, valued at about \$140,000.

Fully have the export is Calabrian root. All the root that arrives in Leghorn has already been cut on the spot into the shape in which it is exported to the pipe manufacturing centres, which are principally, as regards Italian brier, St. Cloud, in France, Nuremburg in Bavaria, and various towns in Rhenish Prussia and Thuringia. The roots, which are sometimes of a circumference of two feet or more, are cut into blocks and then boiled. If there is any defect in the root which has not been discovered before the boiling process the blocks will split sooner or later. Brier root blocks are cut into about twenty-five different sizes and three principal shapes.
The shapes are "Marseillaise," "releve" and "Belgian." The first two are the more usual shapes; from the first are cut the ordinary brier pipes, which have bowl and stem at right angles; "releve" blocks are cut into a shape for hanging pipes, and "Belgian" blocks, for which there is but stem at right angles; "releve" blocks are cut into a shape for hanging pipes, and "Belgian" blocks, for which there is but small demand, are shaped to fashion into pipes which have bowl and stem at an obtuse angle. The minimum size of "Marseillaise" blocks is about 3 inches long, 2

inches thick and 1½ inches broad.

The Calabrian blocks, selected at Leghorn and exported thence, seem to be in favor with the trade, as they remain so long on the dealer's hands that they would be almost certain to split before export if they were defective. A Leghorn dealer who does his own cutting in Calabria has first to send the roots by wagon to his workshops, where they are boiled and cut, worksnops, where they are bolled and cut, thence again by wagon to the seacoast, where they are placed in lighters for shipment to Leghorn. At Leghorn they are once more transferred to lighters and placed in carts for transport to the warehouses, where they are unpacked for selection. They are then repacked in bales and carted to the goods station for conveyance abroad. Hence a considerable time must elapse before they leave the hands of a merchant who does his own cutting in Calabria. A considerable number of blocks is sent to the United States, but, apparently, none whatever to the United Kingdom.

Found His Child.

Gypsies Made Way With Baby Mary Huntsinger Twen ty five Years Ago-Fortune Spent in the Search.

"My Darling Father: Will be with you Tuesday. Your baby girl, MAY."
This is the telegram which has just put an end to Samuel Huntsinger's quarter century search for his "baby girl." That search was extended all over America and part of Europe, and has cost a fortune.

Twenty five years ago Huntsinger, who lives at Middlesboro, Ky., resides near Albany, N. Y. There were only the man, his wife and the two-year-old daughter. One day the daughter disappeared. Gypsies were in the neighborhood, and one of the women had done some scrubbing for the women had done some scrubbing for Mrs. Huntsinger. The rovers were instantly suspected. They had moved on, and when overtaken the most rigorous search failed to reveal the presence of the infant. One of the baby's little shoes, however, was found in one of the wagons.

Samuel Huntsinger had some money. He resigned his position and, with his wife started out to find the child. For twenty-five years that hunt has continued.

five years that hunt has continued.

When the money was exhausted Huntsinger would work until he got ahead, and then take up the search again. In person or by detectives he investigated every clue. A month ago there came to him indirect-

ly word of a young woman living in Arizo-na who had been bought from gypsies in her early girlhood. Huntsinger wrote. In his letter he told of a pear shaped birth-mark upon his baby Mary's right arm. A joyous letter came in reply. The young woman in Arizona had the pear shaped

Several letters have been exchanged. Thursday Samuel Huntsinger got the telegram. On Tuesday next Mary will be clasped in her father's arms.

-An old Scotsman, not feeling well, called upon a doctor. The doctor gave him some verbal instructions as to how to regulate his diet, advising, among other things, that he should give up drinking spirits for a time. As the patient rose to leave the doctor said: I will trouble you for half a crown. I am in the way of charging for my advice." "Oh, maybe, maybe," answered the Scotsman, "but I'm nae gaun to tak' it !"

Swallowed Twenty-eight Cents.

Joseph Davis, colored, of Washington, D. C., is in the Pennsylvania hospital under treatment for an over dose of money, taken accidentally. Davis swallowed twenty eight cents and is more scared than hurt. He rushed into the receiving ward of the hospital last evening, hatless, perspiring and excited. "Doctor," he yelled, "Ise a gone man

"Why what is the matter?"inquired the physician. "I gone swallered all the money I got, an' I'm in a desprit situation. Please, doctor get it out, and let me get something to

sure.

Then another thought occurred to Davis. "Doctor will them copper cents rust my innerds?"

Being assured that there was little danger of the coppers doing anything of the kind, he patiently submitted to an examination, and took the strongest emetic the doctor could prescribe without a murmur.

Then he told his story.

Davis came from Washington Wednesday and wandered into the Galilee mission lodging house, in North Ninth street Phila. He was given a bed, but having had experiences in lodging houses that taught him to be very cautious, he sought for a place of safety for his money, which consisted of

five nickles and three pennies.

Not being able to find a convenient place he placed the coins in his mouth and laid down on his side, with the side of his mouth containing the money next the pillow. During the night he turned over on his back, and when called in the morning discovered that he had swallowed the mon-

He was left penniless, and wandered about the city yesterday looking for work. Late in the afternoon he was disturbed by pains in the stomach, and sought the nearest hospital.

At midnight the money had not been removed, but the doctors, who have taken a great interest in the case, have hopes, and Davis takes his doses of emetic very pa-

STORY OF A SLAVE.-To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. It is a godsend to weak, sickly, run-down people. Gentlemen:—I must say in regard to GRAIN-O
that there is nothing better or healthier. We
have used it for years. My brother was a great
coffee drinker. He was taken sick and the doctor said coffee was the cause of it, and told us to

My brother has been well ever since we started
to use it. Yours truly,

WHY IT SUCCEEDS.

BELLEFONTE IS LEARNING THIS.

CENTRAL STATE MORNAL Nothing can be good for everything.
Doing one thing well brings success.
Doan's Kidney Pills do one thing only.
They're for sick kidneys.
They care backache, every kidney ill.
Here is Bellefonte evidence to prove it:

Mrs. J. Cowher, of Bishop street, says:
"I was verylbad with my back and head. I suffered pain, in both and was very restless nights besides being so tired all the time that I could hardly keep myself about. I was very lame across my kidneys and bending over or being on my feet much was extremely painful. Reading about Doan's Kidney Pills and seeing them so highly recommended for these troubles I procured them from F. Potts Green's drug store. They gave me positive relief, caused me to sleep well, stopped the pains, removed the lameness and invigorated me generally."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, N. Y., sole agents for the U.S. Remember the name Doan's and no substitute.

DELAY IS DANGEROUS!

-NATURE NEVER CURES CHRONIC DISEASES .-

If you have any chronic form of disease do not expect to get rid of it without any treatment, for nature has allowed your disease to become chronic, it is proof positive that she has been unable to overcome and throw it off, and that through proper remedies, nature must be aided in the work or you will carry the disease to the grave; or, more likely, it will be the means of carrying you there before your time. Delays are dangerous, where there is nothing to be gained. This is particularly applicable to Diseases of the Air Passages, such as Bronchitis, Asthma, Chronic Coughs why carry them or let them hasten you to your grave?

DR. J. K. STITES,

Offices, No. 21 North Allegheny street, Bellefonte, Pa.

Dr. Stites, the Eminest Specialist, is Now Demonstrating in Bellefonte, the success of the New Treatment for Deafness and Catarrh.

Until within a very few years diseases of the eye and ear have baffied the most learned men of medicine, It is within the range of the present generation to remember when there was little or no hope for the person whose sight or hearing had become impaired by age or disease. But, thanks to the untiring fefforts of men who have devoted their lives to study and research, these conditions no longer exist. Like the advance in electrical science, so has wonderful progress been made in eye and ear surgery; and to-day diseases that less than 'a score of years ago were pronounced incurable yield at the hands of the adept surgeon to the work of a few moments, a few hours, or possibly treatment for a few weeks.

The best part of Dr. Stites' life has been spent in the eartie practice of medicine, with frequent periods of study and research in the best medical colleges, post-graduate schools and hospitals in the world, thus ever keeping in touch with the progress in medical science. Always ready to learn, he does not scorn to accept new truths from other men, but he has contributed his share and more to the store of knowledge, His crowning success, his last and greatest achievement, is his New Treatment for Catarrh and Deafness. It has now been thoroughly tested, and the results have even exceeded the discoverer's most san-

No More Sore Eyes Now Says Geo. W. Holt, of | Unionville.

Unionville.

I had been troubled with sore and inflamed eyes for over a year. During that time I suffered a great deal of pain, my eyes swelled, and my sight was greatly impaired. After having tried almost all known remedies, I heard of Dr. Stites and placed myself under his treatment. My eyes are now completely cured and feel better in every way, and I gladly recommend him to all suffering similarly.

A Running Ear Cured by Dr. Stites.

A bad case of Catarrh and a running Ear was my great trouble. I was terribly annoyed with roaring and buzzing noises in my ears, my head seemed stuffed up and I had such dreadful headaches continually. All this was caused by catarrh, and at length my ear began to discharge until it grew so bad that I was compelled to try anything for relief. Dr. Stites proved the man of the hour for my ear has now no discharge, no headaches, noises ceasing and my general health is very good. Thanks to Dr. Stites careful treatment.
