A YOUNG GIRL ACCIDENTALLY SHOT NEAR GILLANTOWN .- As the result of a thoughtless tussle for a revolver pretty Annie Hobbins lies cold in death, in a sorrow stricken home near Gillantown, and John Keenan is in jail here, charged with having

caused her death. The particulars of the shooting are as follows: Thomas Hobbins and his family live about a mile from Gillantown, where they have been residents for about three years. Mr. Hobbins had a small lumber contract in the woods near there and working for him was a young man named -Are you going to the foot-ball game John Keenan, aged 23 years. Keenan is originally from Philadelphia, but came to Gillantown about a year ago from DuBois. A week or so ago he hurt his hand and was would recover.

Wednesday morning the family found themselves out of wood and Keenan volunteered to go for some, provided he could borrow a team. Accordingly he succeeded in getting two horses and a wagon from Mr. John W. Ward, on whose property the Hobbins family reside. As Keenan's hand was sore Annie Hobbins, the pretty eighteen year old daughter of the family. offered to go along to help gather the wood. They took her little sister, Alice, who is between five and six, and started off for "the bottom." When they had reached Lucas' mill, on little Moshannon, they drove out onto a little island in the stream, where they stopped. There Keenan pulled a 32 cal. revolver from his pocket which Annie expressed a desire to examine and when he declined to let her have it a friendly tussle ensued, during which the weapon was discharged and a bullet pierced her left breast.

With the cry of "Take me home!" the girl fell in the wagon bed and Keenan was panic stricken with the thought of what he had done. He turned the team, however, and was hurrying along the road homeward, holding the girl in one arm and driving with the other, when the owner of search of them, in order to get one of his horses to trade, and says the girl was still alive, though she expired shortly after he

On reaching the Hobbins home Keenan was almost prostrated with grief and made no effort to run away. Later he was arrested and brought to this place to jail Wednesday night.

The above facts are based on statements nade by Mr. Keenan himself. He is not very communicative but answers all questions fearlessly and frankly.

It is the general impression about Gillantown that the shooting was purely accidental, as the young man bears a very good reputation in the community. Even Mr. and Mrs. Hobbins are inclined to believe that it was accidental.

GETTING IN SHAPE FOR THE FAIR .-The new Centre county fair grounds are a scene of great activity these days. In addition to the bunch of horsemen, rubbers and stable boys who are always to be found around the paddock, there are a score or more of carpenters and as many others working away at grading the ground about the stock pens that have just been completed.

In the extreme northern end of the grounds there have been erected eighteen additional box stall stables, bringing the number up to forty-three that are available for the string of fast racing horses that will he here to compete in the four days' rac-

Adjoining these are forty-five cattle pens and beyond them are the sheep and pig pens. Having them all bunched in this order will give the sightseers the interesting opportunity to investigate the stables in which the racing horses are kept, to see the display of peculiar blankets, harness, boots and other paraphernalia that will be highly novel to many.

In the eastern end of the grounds con tractor Herman Miller has the one exposition building well under way. It is located so as to cover some swamp land that could not be utilized in any other way and is 35 x 120 ft. in dimensions, with a wide veranda running on three sides. The point of ground extending from the eastern end of the track to the fence is to be utilized for the exhibits of agricultural inplements. Large tents will be erected for their accommodation, thus giving a -The football season at The Pennsyl- gala appearance to that portion of the ex-

Another feature worth mentioning is the Susquehanna University were State's op- facilities afforded for persons who drive there with their teams. In every post along the mile or more of fence is a hitching ring, so that there will be safe places for many hundreds of horses to be tied.

On the whole it is beginning to look as if the Centre county fair will be one of the most gigantic amusement enterprises ever instituted in this section of the State and the admission will be only 25 cents.

ACTIVITY AT THE LAST CHANCE .-There are many residents of the county who will be interested in the following telegraphic report of the prospects of the "Last Chance" gold mine. The "Last Chance" is in Alaska and many Bellefonters have stock in it. Col. Wilbur F. Reeder, of this place, is president of the company.

JUNEAU, Sept. 10.—The Last Chance basin on Gold Creek, just back of the city of Juneau, is the scene of great activity at present. Several miles of flume have been present. Several miles of flume have been constructed this summer, and the long tunnel to tap the basin gravel has just broken through rock at a depth of 1,850 feet of drift. The gravel encountered is eighty seven feet below the surface. Gold Creek is now being turned into a new channel on the north side of the basin by means of a big cut and 400 ft of flume. The Last Chance company is composed largely of people from Philadelphia and the interior Pennsylvania towns.
