Death, Campbell and McAllister Found Guilty.

Jury Brings in Verdict of Murder in Second Degree None for Death Penalty.—The Accused Hear the Verdict Without Emotion-Sentence Pronounced

Buchanan Mich., May 22nd.

Genesee Pare Food Co., Le Roy, N. Y.

Gentlemen:—My mother has been a great coffee drinker and has found it very injurious. Having used several pack ages of your GRAIN-O, the drink that takes the place of coffee, she finds it much better for herself and for us children to drink. She has given up coffee drinking entire. If the prisoners is life imprisonment. The jury took fourteen ballots and after summoning Judge Dixon and the prisoners appeared very nervous.

McAllister seemed more excited than any of the others. He sat biting his lips while waiting. Campbell thrust his hands in them. Decorate the name of the others and the prisoners appeared very nervous. Walter C. McAllister, Andrew J. Campin them. Death looked anxiously about the court room for a moment and then assumed the same attitude as Campbell.

When the verdict was announced the prisoners exhibited neither elation nor relief. Judge Dixon thanked the jury and said he believed the verdict a just one. P. & T. A., St. Louis, Mo. He then dismissed the jurors until Monday morning. The court then rose and the prisoners were taken back to the jail.

NO JUROR FOR FIRST DEGREE. Although the jury was out more than four hours, the verdict was actually agreed upon at 7:10 o'clock. No member of the jury would talk for publication, owing to an understanding reached in the jury room.

It was, however, admitted by a member of the jury that not a single one of their number stood at any time for murder in the first degree. Only one ballot, it is said was taken, and that was unanimous for sold cheap and on long time. Why rent a farm

their homes. The prisoners were taken directly back to the jail, where they were met by Kerr, who eagerly asked them what the verdict was. Death said: "Murder in the second degree." Kerr turned pale, but made no comment. The prisoners refused to see any one or to make any statement for publication. Campbell started to come forward to the door leading into the vestibule, where several newspaper men were congregated, but Death pulled him back, and then the four retired to the far end of the corridor. Within ten minutes after they returned from the court to the jail they were or-dered into their cells. Michael Dunn, of counsel for the defense, said : "The State contended for a verdict of murder in the first degree; we are satisfied.

ADDRESSES OF COUNSEL.

When the court opened Ex-Judge, William T. Hoffman began the closing address for the defense. One of his strong points was that, although the State had contended that Jennie Bosschieter had died from chloral poison administered by McAlister, it had not established the fact that such a poison had, at any time, been

purchased by him.
Public Prosecutor Emley immediately began the delivery of the final address for the State. After alluding to the enormity of the crime charged he attacked the testimony the defendants gave on the witness stand. Their meeting with Jennie Bosschicter, he said, was no accident, and he asked why those with whom McAlister said he had an appointment for the evening of Oct. 18th, which was not kept, had not come forward to support the testimony of the ac-cused. Mr. Emley pointed out alleged inconsistencies in the story of the ride in the Sculthorp hack as the defendants told it on the witness stand, and scoffed at the allegation that the girl was taken riding in order that the fresh air might revive her. Adverse comment was also passed upon the behavior of the accused men when Dr. Townsend told them the girl was dead, and the fact that they threw her comb and other personal effects into the river when they left her corpse at the side of the Wagaraw road.

THE JUDGE'S CHARGE.

Judge Nixon then charged the jury. His remarks were entirely an elucidation of the law and leaned neither towards nor against the prisoners. At 3:45 o'clock the case was given to the jury, and it was 8:10 o'clock when they returded into court. After the verdict had been reached Leon-

ard Bosschieter said to the correspondents: "They were not let off, any-way. I have carried a loaded pistol since when I heard my poor sister's character brutally attacked by the lawyers, who were talking to the jury, I felt like taking summary judgment on them. I went into an adjoining room more than once and examined my pistol, almost determined to shoot one of the lawyers, but I restrained myself. Now I am glad I did."

Burial in Woman's Clothes.

Murray Hall Returns to Her Sex After Death-The

Under the cover of darkness, and when it was believed its removal would be unnoticed, a coffin containing the body of Murry Hamilton Hall, the woman who had successfully masqueraded as a man for more than forty years, was removed from 145 Sixth avenue, New York, Saturday night to an undertaking establishment in East Twenty-third street. From there it was taken to Mt. Olivet Cemetery Sunday.

Hall, who had worn none other than men's clothes, so far as the recollection of her oldest friend runs back, was fully dressed in the garments of her true sex. There were only a few at the funeral ceremonies on the secend floor of the old-fash-ioned building where "Mrs. Hall" managed an intelligence office. The word had been given out that the funeral services and the interment would not take place until Sunday. Persons who had dealt with "Mrs. Hall" for years were loath to believe that they had been successfully de-luded. Among them is a married woman, who, during the last four weeks of Hall's illness, acted through charity as a night

nurse But there was no room for doubting Dr William C. Gallagher, who attended Hall during his last illness. Coroner's Physi-cian Hamilton Williams and the undertakers and the embalmer have all made for-

mal statements as to Hall's sex.

The statement was made by Minnie, the adopted daughter of the Halls, that she who posed as "Mr." Hall was married 25 years ago by Rev. Dr. Deems in the Presbyterian Church in lower Sixth avenue to Celia F. Lowe, who as Mrs. Hall, died on July 7th, 1898. Whether or not she was surprised by the recent discovery the adopted daughter refused to admit.

GET INSIDE.

YOUR FRIENDS AND NEIGHBORS IN

BELLEFONTE WILL SHOW YOU HOW.

Rubbing the back wont cure backache
A liniment may relieve, but can't cure.
Backache comes from the inside, from the kidneys
Doan's Kidney Pills get inside
They cure sick kidneys
Here is Bellefonte proof that this is so:

Mr. Walter Whippo of Water street leading horse-shoer of Bellefonte, says: "I have a good word to say for leading horse-shoer of Belletonte, says: "I have a good word to say for Doan's Kidney Pills I was miserable with backache and a lameness across my loins. I knew it was from my kidneys, for I nad suffered from it prior to that. Sometimes I could hardly straighten after bending forward which greatly interfered with my work. I learned about Doan's Kidney Pills, procured them at F. Potts Green's drug store and began using them. I had taken other medicine and worn plasters but I never had any thing act so promptly as Doan's Kidney Pills I have been quite free from the whole trouble ever since."

THE PEOPLE KNEW HIM.

BENSON'S PLASTER IS PAIN'S MASTER.

George Washington made and sold flour and every barrel of flour in the market branded "G. Washington, Mount Vernon," sold without delay. No question was ever raised as to the quality or weight.

Benson's Porous Plaster sells on its reputation everywhere. All the buyer wants to be certain of is that the plaster offered him really is Benson's, and not a worthless imitation of it or substitute for it.

A plaster is the best form of external remedy, and Benson's is the best plaster; 5,000 physicians and druggists, and a multitude of people no man can number, have settled that. "You can trust it," they say.

Coughs, cold, lame back, lumbago, muscu lar stiffness and rheumatism, troubles of the liver and kidneys, influenza or grip, pneumonia, and all other diseases open to exter nal treatment, are at once relieved and cured by Benson's Plaster.

Do not assume that Belladonna, Capsicum or Strengthening plasters are "just as good as" Benson's. They are vastly inferior.-No

other plaster is as good as Benson's.
In competition with the best-known plasters of Europe and America, Benson's have received fifty-five highest awards.

For sale by all druggists or we will prepay postage on any number ordered in the United States, on receipt of 25c. each. Seabury & Johnson, Mfg. Chemists, N. Y.

PAR VALUE.

We offer the remainder of an allotment of Treasury Stock of the Par Value Gold Mining Co., amounting to less than 20,000 shares, at fifty cents per share, par \$1.00, to continue the development work and for increase of plant. The stock is full paid and non-assessable, and the company is capitalized for only \$250,000, one-fourth the usual amount of mining companies while its property is known to be one of the richest of its size in the great Cripple Creek district which will produce over \$25,000,000 in gold this year.

The property which the company is now working is surrounded by and near to the Independence, Portland, Gold Coin, Strong and other great producers worth \$60,000,000 and paying millions of dollars in dividends.

The Portland shaft is 840 feet from Par Value; Independence, 1,285; Strong, 1,040; Gold Coin, 1,330; Granite 900; Ajax, 730, and Dead Pine, 775 feet.

The Par Value Property is a proven proposition, equipped with plant, and will be producing within ninety days and earning money for its stockholders. Over \$125,000 has been taken from the same veins within 300 feet of its shaft. Rich ore is being shipped from both ends of this property from veins which run through its entire length. A streak in one of these veins has produced ore running 1,152 ounces per ton, or \$23,000, and the average of ore shipped is \$240.

The Superintendent of the Company writes from Victor, under date of December 6th, 1900 :--

I was talking with the Superintendent of the main Monument to-day. They are drifting toward our north-end line. At the depth of 550 feet they are within a few feet of our ground and following a vein 15 to 18 feet in width of good pay ore. It is only a question or sinking our shaft to get this ore.

The Warren Leasing Company, who are mining at our north-end line, have just opened up ten feet of good pay ore. They shipped a car yesterday.

Both the above veins run through the Par Value ground its entire length. It was from the latter vein that the ore running \$23,000 per ton was taken, from the 100-foot level. Both veins have been worked up to the Par Value end line, so that it is known that the same quality of ore runs entirely through its property. Rich ore has also been taken from the first-mentioned vein, near the south end of Par Value, and from other veins which run on both sides into and through it, showing conclusively that its property is a network of piece of ground of its size in the Cripple Creek district, if not more.

The company also controls the stock of a corporation which owns 145 acres of vulnable mining land in the Cripple Creek district in addition to the property it is now operating. The Creston Leasing Company, operating on the same basis as the Par Value, earned and paid \$472,000 last year in dividends, or \$15,750 to each of its 30 stock holder who had

vested. Reliable estimates show that this company can earn \$15,000 per month net, equal to over 100 per cent. per annum on the present price of its shares (50 cents). This would yield an income of \$50 per year on an investment of \$50; \$100 on \$100; \$500 on \$500; \$1,000 on \$1,-000, and \$5,000 on \$5,000 invested.

paid in but \$600 each, or \$26 on each 1.00 in-

Cripple Creek is the most prosperous and profitable mining district in the world, and hundreds of merchants, mechanics, workingmen and others have realized fortunes from hundreds of dollars to millions within eight years, while the camp is only in its infancy.

The Elkton Company has paid \$900,000; Gold Coin. \$540,000; Portland, \$3,327,000; Victor \$1,255,000; Vindicator, \$166,000; Stratton's Independence, \$976,000, and 45 other companies from \$10,000 to \$320,000 in dividends each, and all are in the same direct as Par Value.

The Par Value is the best mining proposi tion for investors that can be presented: integrity of management, location and value of property, richness of ore, cheapness of mining and treatment, low capitalization, prices of shares and work going on, considered. It is not a prospect or experiment, but a proven property.

The management of the company is composed of men of the highest integrity and standing, and the company is in good financial condition, with ample treasury reserve. Its operations are conducted by experienced and reliable mining men and its affairs on a conservative business basis in the interests of all the stockholders.
