Funston's Daring Project. It was Crowned With Complete Success on March 23rd. Prisoner Now

MANILA, March 28.—General Frederick Funston's daring project for the capture of Aguinaldo in his hiding places in the province Isabela, Island of Luzon, has proved completely successful. Aguinaldo was captured there on March 23rd.

The United States gunboat Vicksburg Commander E. B. Barry, with General Fuston and Aguinaldo on board, arrived here this morning.

NO OFFICIAL REPORT RECEIVED.

WASHINGTON, March 27.-Official news of the capture of Aguinaldo had not reached the War Department up to a late hour to-night. The President had retired before the Associated Press bulletin arrived and will hear the news for the first time in the morning.

The capture of Aguinaldo will be a source of great satisfaction to the President and his advisers.

GENERAL OTIS IS PLEASED.

CHICAGO. March 28.—General Elwell Otis was awakened this morning with the news that Aguinaldo had been captured by General Funston.

'I am very glad to hear it," said General Otis. He added, however, "that he made it a rule never to be interviewed after he had once retired for the night,' and he smilingly declined to say anything

M'Kinley Summons Attorney P. C.

Expected the Pittsburger Will Take the Oath as Attorney General on Monday Next and Attend Tuesday's Cabinet Meeting

WASHINGTON, March 26.-Whatever there may have been about the finality of the President's selection of P. C. Knox as the successor to Attorney General Griggs was dispelled to-day, when the President announced at the cabinet meeting that he had invited the distinguished Pittsburg lawyer to come to Washington for the purpose of making him a formal tender of the office, and that Mr. Knox would be here on Thursday or Friday. From this it is plain that the President has been in communication with Mr. Knox. No doubt seems to be felt that Mr. Knox will accept the post which he has known informally for several weeks the President desired him

It is the expectation of members of the cabinet that the new Attorney General will take the oath of office on Monday next, when Mr. Griggs retires, and will attend his first cabinet meeting on Tuesday.

It is said by persons in a position to know the facts that nothing in the nature of a protest or even of serious objection against the appointment of Mr. Knox ever reached the President. A few Senators and Members have suggested that objec tions might be made to Mr. Knox's select tion because of his connection with the Carnegie company, and other large corporations, but this is the extent to which th objections have gone.

What Yatsumi Thinks.

Believes War Between Japan and Russia Inevital

PITTSBURG, March 26.-K. Yatsumi, a general of the Japanese imperial army, accompanied by Captains N. Kayomi and L. Matusi, passed through Pittsburg to-day en route to California. They have been in this country for the past three weeks securing data for the benefit of the imperial army and intended remaining for three or more months, but were called home. General Yatsumi said :

"Owing to the communications I have received from my government I think that a conflict between Japan and Russia is in-evitable. While I have not been notified evitable. While I have not been notified officially, I think the object of my superiors in calling me home is for the purpose of making preparations for a war with

"Japan and Russia are bound to come together sooner or later as a result of the contention over Korea. This fact seems to have become more evident since the outbreak of hostilities in China and if such an engagement must occur, Japan is better equipped at present and will doubtless hasten a termination of this long standing dispute. Russia's ultimate intention is to seize Korea but we shall never give up the land without a struggle.'

BIRMINGHAM, Ala., March 25.—Shortly before 10 o'clock this morning a fearful tornado swept over the southern section of this city, traveling in an easterly direct

The number of killed is estimated at twenty-five. Only five of them are white. The destruction of property is placed at a quarter of a million dollars. Eighteen bodies have been recovered from the debris up to dark, and scores of injured have been noved to the hospitals.

Among the dead are, Dr. C. C. Chapman, of the firm of Tally & Chapman, who conduct a private infirmary in this city, and the wife and infant child of Hon. Robert J. Lowe, chairman of the Democratic state

executive committee. The storm struck the city in the extreme southwestern corner and plowed its way eastward, leaving a path 150 feet wide through the entire southern section extending from Green Springs, on the west, to Avondale, on the east, and continued its course on until its fury was spent in the mountains beyond Irondale, a small town six miles east of the city. The morning dawned cloudy and sultry and grew more threatening as the day advanced.

Clouds began to gather and shortly after 9 o'clock sharp lightning flashed from the southwest. The air became heavy and stifling. The velocity of the wind suddenly began to increase and soon from out of the overcast sky the dreaded funnel shaped cloud made its descent. Hugging clos to the earth it passed through the city in leaps and bounds with terrific force and was away to the east before people generally realized what had happened. altitude of the cyclone was not more than

The negro shanties and cottages in the lowlands, in the path of the storm, were the principal sufferers. The larger residences of the higher ground suffered only slightly. The large trees on the hillside of the St. Vincent's hospital were torn up by the roots and large masses of stone were twisted out of the ground and broken and scattered all over the drive-ways of the en-

trance to the institution.

From Eighth to Tenth street the wind again descended it struck and demolished five small houses. Skimming close to the earth it then swept through a small pine grove, tearing the trees up by the roots and hurled them through the air like arrows.
