The World's Iron.

Our Race With Great Britain for Leadership—How We Distanced our Competitor. Four hundred years ago the entire world produced and found use for 60,000 tons of iron annually.

In 1790 the United States gave to the world 30,000 tons of iron and was exceeded among iron-producing countries by Great Britain, France and Germany.

This excess over Great Britain's product is greater than our entire annual output of 14 years ago. Verily, for the young of the great nations we have done exceedingly well.
