BURGESS BLANCHARD TAKES A PROMI-NENT PART IN THE TRAMP CONVENTION. -Burgess Edmund Blanchard, who has done so much toward breaking up the rowdyism on our streets, and long ago practically rid Bellefonte of the tramp nuisance, was in Philadelphia on Wednesday. The object of his visit was to attend the convention of the burgesses and mayors of the various towns and cities in the State, called by the Philadelphia Inquirer, to discuss the tramp question.

The conference was held at the Continental hotel and proved very enthusiastic. As a result of the deliberations it looks as though the tramp has received a harder jolt that the old woman gave him when she offered an ax and a wood-pile to the festive hobo to work up an appetite for breakfast.

Two sessions were held. Mayor Ashbridge, of Philadelphia, spoke at both and ry Lowery's new house on east Bishop urged concerted action in ridding the State of the pests. MRS. KING IS FAILING.-Mrs. Junie R. King, one of the actors in Millheim's frightful drama of last week, has taken a turn for the worse and it is feared she cannot recover.

As a result of the bullet wound in her abdomen, caused by her husband, on Monday morning, before he tragically put an end to his own life, Drs. Frank and Mingle say an abscess is forming from which she will hardly be able to recover.

Since the time when the bullet plowed its way through her liver and kidney, finally lodging near the middle of the back, she had born up with remarkable strength for a week and symptoms were most hopeful until last Monday, when she was seized with an epileptic fit, to which she had been subject. It so exhausted her that she has been failing ever since and now little hope for her recovery is entertained. The doctors made a diagnosis on Wednesday and came to the conclusion that an abscess is

"MR. CHUPES AND MISS JENNY."-Among the new books that have just been published and one that is well worth reading is "Mr. Chupes and Miss Jenny." the life story of two robins, by Mrs. Effic Bignell. It is an entertaining tale, all the more interesting because true, of the life of two birds who were rescued from untimely deaths by the author and whose intelligence and affection, ever afterwards, made them willing captives and most fascinating and lovable companions. It is a departure from the ordinary bird book and holds the attention, whether we are especially interested in birds or not, for it is an unusual theme and contains a fund of valuable information for comparatively little searching. In style and diction it is refreshing ly, simple and pleasing and we would that more people were imbued with its spirit. For the bird lover and now popular naturalist it is a delightful volume. From beginning to end it reveals the charm of the cool forests, green byways and peaceful country air, as well as the wonderful individual ity of its chief characters, "Mr. Chupes and Miss Jenny." And they were remarkable members of our most captivating and deservingly popular bird family-the robin. It is published by The Baker and Taylor Co., New York, and is attractively illustrated by photographs from life.
