**MEMORIAL DAY SERVICES.**—Memorial day has come and gone with its sacred associations its various services and its pretty customs. The burying ground at Fairbrook was visited at 10 o'clock in the morning. At Pine Grove the services were held at 2 o'clock and a large crowd assembled to hear Col. James P. Coburn, of Bellefonte. The Col. is by no means a stranger for he made his debut here thirty five years ago in the interests of the Lewisburg and Tyrone railroad and has been coming frequently since. His speech was most suitable for the occasion. He held the attention of his audience for half an hour which the majority of his hearers wished had been extended for another thirty minutes so patriotic and inspiring was it. At the conclusion of the address Rev. Aikens, in behalf of the G. A. R. boys, returned thanks to all who had furnished flowers, the choir, the drum corps and Col. Coburn for his excellent speech. Then the entire audience joined in singing America and were dismissed by the benediction.

At Pine Hall the services were held at 5:30 p. m. The cemetery was crowded with people and the orators were Col. Coburn and former Judge Furst. As Col. Coburn had officiated at Pine Grove he only spoke for twenty minutes and then withdrew to make way for the Judge who held his large audience spell bound for half an hour. His speech was conceded by every one present as the best ever heard in this section on Memorial day. The Sabbath school scholars furnished flowers and garlands in plenty and both the hands of State College were present and furnished some choice music. A vote of thanks was given to all who had contributed to the success of the occasion and after the benediction ranks were broken to march homeward.

Some of the would-be big boys from Walnut Grove who mutilated Mr. Corl's wire fence and spring tooth harrow and tried to steal candy from a show case in one of the stores would better take warning, as they are known. Anyone relishes a joke and delights in pranks but when people take sport out of what injures others they no longer display wit, but a lack of common sense and good breeding.

Calvin Young, who has been working at Pittsburg and whose parents live between here and Boalsburg, came home one day last week seriously ill with typhoid fever. "Fickle politics" and red hair are not congenial, doubtless this decision is a wise one, but only reached after the possessor has been taught a severe lesson in the "fickle politics" stirred up by contending delegates, and employees "lumbago."

Mrs. Edward McGowan, a well known aged lady, died early Saturday morning at her home at Hawk Run. The interment took place at Morristdale on Sunday. She leaves a husband and six children, all grown, to mourn her loss.

There are a great many youngsters traveling about the streets of this town at very uncertain hours, who had better be under the shelter of the parental roof. Sad, indeed, to say this is not confined to any one sex, but all sexes and most all ages. Remove, tears of the negligent parents, will pay the penalty of their thoughtlessness, unless better judgment is exercised in the control of the inexperienced youths.

**ALL ROADS LEAD TO ROME.**—You will find a number of these roads in the various counties of the State and the counties inhabited by wide-awake, energetic and practical farmers. Upon investigation you will find a large number of these farmers in possession of the new American Harrow and Seeder. They have in store for it nothing but the highest praise. Why? Because it has a patent adjustable axle to accommodate the operator when cultivating corn and potatoes or any crops that grow in rows. Sows all kind grain broad-cast. Has the only broad-cast phosphate distributor in the world. As a pulverizer has no equal. With less labor than any other machine in the state of cultivation, thereby stand the drought and causes a better yield. It saves you price of hired man each season. Seeing is believing, therefore try it and be convinced, you being the judge. Because you try it you are not compelled to buy it. Cost nothing to try it. We take pleasure in exhibiting free to each and every farmer. This machine was first at the premium in western States, because they were especially adapted to prairie lands, but they have been modified in their construction so as to adapt them to all kinds of tillable lands and meet the wants of the eastern farmer better than any other that has ever been offered him.

The new American Harrow and Seeder is manufactured by American Harrow Co., Detroit Mich., one of the largest and best known manufacturers in the country. D. M. Ferry, the president, is known in every nook and cranny of the farming country.

R. W. Gillet, vice president, has for many years been associated with a large number of the most important business institutions of Detroit.

O. R. Baldwin, secretary and W. W. Collier treasurer. They are men who have not only been successful in their own business but who have been prominently active in the commercial affairs of Detroit and throughout the state of Michigan.

Mr. Baldwin is president of the Merchants and Manufacturers' Exchange of Detroit. The oldest and most influential of all the commercial organizations of his character in the State. He is also president of the Masonic Temple Association and ex-president of the Chamber of Commerce.

Mr. Collier is a member of the executive committee of the National Association of Agricultural Implements and Vehicle Manufacturers; an organization which includes the leading makers of these articles in the whole country.

In this State, the management of the business is conducted by J. M. HOWARD, who has been associated with the company almost from its infancy. He and his other representatives are making headquarters at the Brockert House, Bellefonte and will make every effort to see that each and every farmer of this country has an opportunity to see and operate the new AMERICAN HARROW and SEEDER. In addition to machine herein mentioned we manufacture disc harrows, walking and riding cultivators, bean harvesters, corn and bean planters, hand potato planters, stalk cutters, truck scales, manure spreaders and other farm implements.
