Democratic County Ticket. For Prothonotary-M. I. GARDNER.

For District Attorney-N. B. SPANGLER.

A Summary of the Game Pennsylvania. Continued from page 1.

By act of April 24th, 1901, all non-resident gunners (the same not being owners of real estate in this State) are required to pay a license fee of ten dollars, before shooting in the State.

The treasurer of the county wherein the counties of the State, the penalty for neglecting or refusing to secure this certificate is twenty-five dollars or one day in jail for

each dollar of penalty imposed.

This class of offenders can be arrested without warrant by a constable or warden where they refuse to display said certificate upon demand.

All shooting paraphernalia, including guns, etc., is forfeited to the State unless penalty and costs are paid. This law has a double purpose, and while it to a more or less degree protects the game of our State, its greatest benefit will be in the security it gives the farmer, who, up to this time, has had no protection whatever against the raids of non-resident gunners who shoot not only game but song and insectiverous birds as well as kill the farmers poultry, cripple his stock, tear down fences, open gates, start fires, etc., and when called to task curse and insnit the man or woman who dares to attempt the protection of his property. The farmer is by this act placed in supreme command of the situation, he elects the constable, and if that officer fails to give that protection, assured by the law it is surely the farmer's fault. Not only will vigilence upon the part of the constable protect and save to the use of the farmer many song and insectiverous birds, but will in addition, prevent many personal wrongs and outrages, and create a fund that, to its extent will avoid taxation. In case of payment of the license fee a record will have been created that, may be used for the detection and punishment of those who fail to conduct themselves as sports-

By the act of July 9th, 1901, the act of hunting or trapping upon "posted culti-vated land" is made wilful trepass. Penalty five dollars with costs, upon, fail-ure to pay the offender may be imprisoned not to exceed three months. This act applies against resident and non-resident, and the fact that a party may hold the li-cense perscribed by the act of April 24th, gives no rights that may conflict with the wishes of the owner or lessee of posted, cultivated, lands in this Commonwealth.

The Game Commission of Pennsylvania is an entirely separate and distinct body from the Fish Commission. Letters on fish subjects should be directed to the Fish Commission. Letters pertaining to game to the Game Commission, much time will be saved to the writer who remembers this

By an act of Congress all packages containing game intended for shipment from one State to another State must be so marked that the name and address of the shipper and the nature of the contents may h readily ascertained on inspection of the outside of the package. For each evasion or violation the shipper upon conviction shall pay the sum of two hundred dollars. The consignee knowingly receiving such articles shall pay the same and the carrier knowingly carrying or transporting the same shall also pay not to exceed two hundred dollars. This is national law and all violations thereof can only be tried in the United States Courts.

NOTICE. The Game Commission desires it to be fully understood that all violations of the game laws coming to its knowledge will be prosecuted and punished to the fullest extent of the law.

It will thankfully receive and hereby earnestly invites any information relative thereto, which should embrace, as far as possible, the name of the offender, the nature of the offense, the date thereof, the name or names of witness or witnesses, and the name and postoffice address of the con-

stable in authority.

Senator Vest on the National Situa

From the Pittsburg Post. Senator Vest, of Missouri, has very clear

ideas of what the principal planks in the next Democratic national platform should be and summarizes them as follows: (1.) A declaration for a graduated in

(2.) An unrelenting opposition to trusts

A declaration against imperialism (3.) and the colonial system.
"It would be suicidal," adds the Senator "to thrust the silver issue forward again."
An income tax is believed to be the right thing by four-fifths of the American people. The same as to "unrelenting opposi-tion to trusts," which is becoming every day more of a live issue. The people have to declare themselves on imperialism and a colonial system. They are waiting to see how it will pan out. Senator Vest has a very level head on future politics.

Plans of the Vessels. Ships Will Probably be Built on the Turbine Prin

LONDON, Aug. 15.—The statement made by Lord James, of Hereford, in the House of Lords last evening foreshadowing the new fast line of steamers between Berehaven and America, has already given rise to much discussion and speculation as to the precise nature of the project. Lord James said the steamers would be built in this country and the omission of the words "and owned" after "built" lends color to the idea that the new line will be run by an American company.

As the steamers are to accomplish the voyage in four and a half days, it is believed that they will be worked on the turbine principle. Further details are eagerly awaited by ship owners in Liverpool interawaited by ship owners assets in the Atlantic trade.

The United States Government Hears from Several Consuls .- The News, However, Came by Mail. Letters Show a Very Serious Condition as Exist-

WASHINGTON, August 13 .- The State

Department to-day received mail advices from three different quarters in Colombia, all showing revolutionary movements in progress and a rather serious condition of affairs. Both termini of the Panama railway route were heard from, Consul General Gudger writing from Panama as to a revolutionary attack on nearby towns and Consul Malros, at Colon, reporting that guerilla fighting had been going on at different points between Colon and Panama. At the same time, Minister Hart wrote from the capital of Colombia as to the arrest and imprisonment of prominent adhe-rents of the former president Dr. Sanclements, as they were suspected of seeking to have the nationalist organization join with the liberals who are said to be showing increased strength and activity in a revolutionary movement. Although these letters have taken some time to come forward, yet they give the State Department about the best and the only definite information which is at hand as to the coudi non-resident desires to begin shooting, is tion of affairs. Mr. Gudger's letters speak directed to issue a certificate, this paper so of a revolutionary raid on the 26th and far as the State is concerned, covers all the 27th of July, in which an alcaide and several policemen were made prisoners and some arms and provisions captured. This is not the holding up of the train at Matachin, reported by him by cable, as that happened later, and did not result in any

> The Navy Department received word today of the departure of the battleship Iowa from Puget Sound for San Francisco, whence she will go to Panama if her serv-

ices are required there.

The attention of officials has been atracted to a manifesto issued by General Uribe-Uribe, leader of the Colombian revolutionists, declaring for a "Greater Colombia" and although nothing of an official nature has been received on the subject yet it appears to bear out the ideas held for some time as to the scope of the present trouble. According to the manifesto Uribe-Uribe, is seeking to unite the interests of Colombia, Venezuela and Ecucador.

There is an entire lack of official information concerning the progress of affairs in either Venezuela or Columbia. Whether the Colombian minister actually has left Venezuela, as reported in a press dispatch from Willemstad, is not known here. departure of the minister would be in line with what was foreshadowed when the American charge d'affairs, Mr. Russell, in Venezuela, asked for authority to represent Colombia in case the minister withdrew.

The Navy Department has no word to-day from the Machias. The latter is taking on ammunition at Norfolk and the Depart ment has telegraphed asking when she will be ready to sail.

WASHINGTON, Aug. 14.-No important developments in the Colombia-Venezuela situation were received in the State Department to-day, and the reported death of General Uribe Uribe could not be confirmed in any official quarters. It is expected that the Machias will sail for Panama to-

morrow morning.

In this connection it has been noted that the French warship Suchet already has arrived at Colon. It is believed that the presence of the Suchet will have a salutary influence in suitches displayed. influence in quieting disorder. The assertions of the French press that the incident on the Isthmus might lead to American acquisition in that quarter receives no attention in official quarters.

NEW YORK, Aug. 14.-The representatives of the Colombia insurgents in this city, although they have not heard for several weeks from General Uribe-Uribe, do not credit the report that he was killed in a battle fought with Venezuelan troops on July 27th at San Cristobal, Venezue They believe that General Uribe-Uribe is operating in the Department of Santander.

Dowager Empress Frederick Buried.

Potsdam, Aug. 13.—The remains of Dowager Empress Frederick were interred to-day beside those of her husband in the mausoleum of Friendenkirch, near Potsdam. When the coffin was borne across the threshold of the mausoleum the Berlin cathedral choir intoned a solemn strophe. Only the Emperor and Empress; the other members of the imperial family; King Edward VII, and Queen Alexandra; and the other members of the British royal party, and the princes of the highest rank entered the mausoleum, which is small. May be Given \$25,000 For Stealing \$280,000.

In Addition it is Likely That Jack Winters Will Go Free for Telling How He Robbed the California Smelting Company-His Plans.

SAN FRANCISCO, Aug. 11.—Jack Winters told his story of the Selby \$280,000 gold robbery to the newspaper men last night, and his statements are generally accepted as true in the main, although he may have lied in regard to some of the details. His story follows :

"I committed the greatest robbery of the century, and I did it alone. These stories about my having committed other small robberies are false. When I plan a

job I plan a big one. "On Monday evening when I took the bullion out of the vault at the smelter I did the hardest work of my life. It took me the whole night to finish drilling through the bottom of the safe and carry away the gold. If there had been more time I would have taken the \$130,000 I left behind; but daylight came too soon. It took me six weeks to dig a tunnel under part of the drilling the last night, and forced through the bottom of the vault. When I climed up into the vault and threw down about half the gold I carried the gold to the outer end of the tunnel and went

back and threw down the rest. "Then I began to carry off the gold. made 14 trips from my tunnel to the wharf, where I lowered the bullion into the bay. I made a mark on the wharf where I drop-ped each bar so that I could readily find

them when I was ready.
"I planned how I could get rid of the bullion without being suspected long before I committed the robbery. I planued to remove the gold from the bay, a bar at a time. I had intended to melt the gold, to quantities that would bring me about \$10,-000. It would have been an easy matter at intervals of several months to sell the gold at different places. I intended to take several years in disposing of the bul-

"If my plan had been successful to the end, and if I had gained the wealth I stole, I would not have spent it in rich display, but have lived simply and frugally as I do now I would have traveled in foreign countries. I had no fixed idea in mind when I stole the gold as to what I would do with all my money, but I wanted to quit work. Besides I wanted money with which to build an airship. I have the model in my cabin partly completed. It may take time, but I will complete my invention, and it will fly. I shall begin work on it as soon as I get back to

It is certain that Winters will be rewarded for returning the stolen gold. While the story that he would be given \$25.000 is denied absolutely, ex-chief of police Lee did admit that certain concessions were made to him. "We kept the law in view, and nothing has been done that has no been done before." It is generally believed that Winters will plead guilty, and escape with light punishment. His confession cannot be used against him in court.

GLENS FALLS, N.Y., Aug. 14.—News was received here to-night that the Blue Mountain stage was held up by a masked robber scene of the hold-up cannot be reached by telegraph or telephone to-night from this point, but the following facts regarding

the robbery have been received:

The stage which was stopped connects with a train with a train which reached Northcreek, Warren county, a station on the Adirondacks & Hudson railroad, at 12: 2 o'clock a. m. When it left the station to-day it contained seven men and one woman, besides a quantity of express and mail matter for Blue Mountain lake. When the stage was one and a half miles north of Dunlap's hotel at North River, a masked robber suddenly appeared. His first move was to shoot one of the horses. He then ordered the passengers to alight. Six of the men immediately took to the woods, the remaining man staying with his wife, who was relieved of \$20, but the robber failed to find a larger sum in another

The highwayman then proceeded to rifle the mail bags and plunder the express packages, taking everything of value. After he had done his work he disappeared into the woods, and searching parties up to dark have been unable to find any trace of

On the 9th inst, four days after the destruction of his property Mr. Ripka received a check for \$1,250, the entire amount of his policy. This is about as prompt a payment as could be well made. Mr. Ripka will rebuild at once. Col. Jamison has been agent for the Lykens Valley Insurance Co. for over twenty years and their prompt payment of all losses enables him to do a large business.

A day or two since I made a visit to what is known as Fairview peach farm, owned by Ivy Bartges, and located a short distance from the picturesque village of Centre Hill. The farm is in a splendid condition, hardly a twig can be discovered lying on the ground. Mr. Bartges informed me phan's court clerk, A. G. Archey, during that every spare moment he had since early spring, with one or two assistants were served on the farm, particular care and attention was given to the trees as well as the surroundings, and its present healthy and prosperous condition is the result. He is also very fortunate in having a very fair crop of apples -in this immediate vicinity they are almost a total failure. Unless some unforeseen mis hap occurs within a few days, Mr. Bartges will have a very large crop of both peaches and apples.

Last Saturday evening our little town of Linden Hall had quite a novelty in the line of religious agitation. About dusk two Mormon elders appeared in town and asked J. H. Ross for permission to hold an open air meeting on his large store porch. More out of curiosity than sympathy permission was granted. When quite a number of men and boys had assembled the elders opened their services by singing, Love at Home, and prayer. One of them then began his sermon by stating that they were missionaries of the Church of Jesus Christ of the Latter Day Saints called of God through their inspired prophet who is at the head of the Mormon the society and read a very instructive church. He said that they were not receivpaper. Dr. McCluny Radeliffe, one of ing any salary and did not take up any collections, but traveled from place to place at their own expense, that they might enlighten the people and do them good. They declared a strict adherence to the Bible, as far as it is translated correctly.

They also claim that the Book of Mormon is part of and equal to the Bible and that Moses, and afterwards Peter, James and John appeared to Joseph Smith, the founder of their sect. They claim to have been misrepresented and it is their object to vindicate themselves. Speaking of polygamy, they neither confirmed nor denied their teaching or practice of it. They left on Sunday morning for Centre Hall. Their names were Wm. R. Cutler, Preston, Idaho; and O. A. Fallett, Utah, members of the eastern states mission, located at Brooklyn, N. Y.
