Democratic Matchman.

BY P. GRAY MEEK.

Ink Slings. -Help to get out the vote, Democrats, This is an important election and you will be expected to lend a hand.

-After Nov. 5th the political ambitions of Mr. EDWARD C. McKINLEY, of Milesburg, will be found on the counters at the great rummage sale in this place.

-The Turko-Bulgarian brigands still have Miss STONE, the American missionary, and we have the \$125,000 ransom they ask for. The question now is : Will we get Miss STONE, if they get the money ?

-It is said that judge LOVE announced that COBAY would be knocked off the ticket several days before it actually occurred. How did he know? Did he have his ear at a telephone, too, and was there some one leaking in Harrisburg?

-CZOLGOSZ asked for a spiritual adviser on Tuesday, but he declined to renounce his anarchistic beliefs and says he will believe them rather than christianity. After the electric spark has done its work this miserable wretch will discover that anarchy will avail him not against the red the Democracy except to try again. fires of hades.

-The Pan American is to close next week and it will go down in history as the most gorgeous and wonderful display in many respects ever seen. It will not need the sad thought that our lamented President received his death wound there to give it a place in the world's memory throughout time.

SANTOS-DUMONT, the young Brazilian balloonist, has made his dirigible air ship sail over a prescribed course in Paris, within a prescribed time, and now the French committee is withholding the Deutsch prize of 25.000 francs from him, on a mere matter of technicality. It is quite evident that they have been treating SAN-TOS very shabbily, but he is not likely to go up in the air again for them.

-The Republican Johnstown Tribune says : "Suppose the Bulgarians had kidnapped Mr. Governor STONE instead of Miss Missionary STONE, would there be such an effort to raise ransom money ?" What a question ! Why the very first time that old brigand chieftain would have poked his nose into civilization to [suggest such a thing as a ransom all of Pennsylvania would have yelled in one voice : "Go way back and sit down," and the incident would have been regarded as closed.

-HARRIS, the one candidate for State Treasurer, voted for the unconstitutional Philadelphia "tax ripper" bill when he CORAY, the other was in the Legislature.

## BELLEFONTE, PA., OCTOBER 25. 1901. NO. 42. **VOL. 46**

Fusion Now Complete. The renomination of Hon. ELISHA A. CORAY as the Democratic candidate for State Treasurer by the state central committee of the Democratic party is substantial evidence of the earnestness of that party in the cause of political reform. Every possible obstruction has been put in the way of that result. On the 11th inst the committee met and with singular unanimity nominated Mr. CORAY. So far as human understanding was able to penetrate the future, no blunder had been made. Every the QUAY ticket. precaution to fulfill the law had been tak-

en. But a partisan Republican court decided on a technicality that the nomination was invalid and there was nothing left for

Taking advantage of the points of objection raised to the first nomination the steps to the supplemental action were made with great care. Every defect in the first action was avoided in the second. The Philadelphia members of the committee who by design or otherwise were not invited to the first meeting were cordially urged to attend the second. No detail was neglected, however unimportant it appeared, for the reason that the Democratic managers had made up their minds to make the second effort a success. That their expectation was fulfilled is shown in the fact that no attempt has been made to overthrow the second nomination. Even the Democratic hirelings of the QUAY machine, with their intellects sharpened by the hope of plunder, have not attempted to overthrow the second

nomination. For this reason the elements in the politics of Pennsylvania which stand unmistakably for decent politics and better government are confident of the issue of the campaign. If the opposition had not been doubtful of the result the stultification involved in the effort to prevent the nomination of CORAY would not have been assumed. But the danger of defeat and the peril of the consequences certain to follow made the ring managers desperate and they conthose of defeat. For that reason certain it is only one of many and, unfortunately and defending against their assaults. state committee held a special meeting in this city to-day to fill the vacancy on the ticket created by the decision of the Dauphin county court declaring invalid the nomination of Representative E. A. Coray Jr., of Pittston, for State Treasurer. Mr. Coray is the nominee of the Union and Municipal League parties and was nominated by the Democrats at a recent meeting of the state committee to fill the vacancy created by the withdrawal of Representative Andrew J. Palm, of Meadville. the same meeting the six Philadelphia members of the committee were expelled for party disloyalty on recommen the Hasson committee appointed by the recent state convention to inquire into party affairs in that city and their places filled by others.

Mr. Coray Has Been Nominated.

Former state chairman Garman and Patrick Donahue, one of the deposed mem-bers, brought suit in the Dauphin county court to test the legality of Mr. Coray' nomination. They contended that his nom-ination was illegal, because the meeting at which he was nominated was illegally con-stituted and that the Philadelphians had been regularly deposed. Their contention was sustained by the court and to avoid further trouble the deposed members were given notice of to-day's meeting. A con-ference of party leaders was held last night, at which it was agreed to renominate Mr. Coray and to take no further action for the

present in the Philadelphia matter. The meeting was held in the board of trade rooms and was attended by seventyfive of the eighty-one members, including the deposed members from Philadelphia. The meeting was called to order at 2 o'clock by state chairman Creasy. After the meeting was organized, Mr. Creasy ex-plained that the purpose was to fill the va-cancy created by the withdrawal of Mr. Palm, no mention being made of Mr. Co-ray's candidacy or the rejection of his cer-tificate by the court. John B. Head, of Greensburg, moved that the withdrawal of fore. Mr. Palm be accepted. The motion was unanimously adopted. Charles Donnelly, of Philadelphia, inquired of the chair if there was not a meeting of the committee held in this city on October 11th. The chairman stated that the court has ruled that that meeting was illegal and no notice could be taken of it.

Colonel Frank J. Fitzsimmons, of Scranton, was then recognized to present the

name of Mr. Coray. Mr. Fitzsimmons made a brief speech, after which Mr. Coray was nominated by a vote of 73 to 0. His nomination was promptly certified to the State Department and was certified to night to the county guard. commissioners throughout the State for printing on the official ballot. The chairman was directed to appoint a committee of five to notify Mr. Coray of his nomina-

as great a showing as possible in Centre good, clean canvass. He has a right to excounty. They are going to speak by ballot to the QUAY machine and insist that their work on November 5th will be only a forerunner of what is to come in the grand struggle next year to redeem Pennsylvanians from corruption. The result in Centre county will necessarily be looked for with interest by politicians in all parts of the State because of the fact that this is former Governor HASTINGS' home and he being in the fore-front of the reform movement it will be expected of him to show considerable strength, else the proposition will be regarded as hopeless.

-It doesn't matter much whom President ROOSEVELT entertains at dinner, whether he be white, black, brown or red man and we can't see the reason of making so much fuss because Hon. BOOKER T. WASHINGTON was recently asked to dine at the White House. One negro taking dinner with the President has nothing to do with the amalgamation of the races, but it ought to be an inspiring example to Mr. WASHINGTON'S fellows, pointing to them, in numistakable signs, that their place is exactly what they make it. He has often said that the "negro of to-day has all he knows how to take care of" and if his race men would only profit by the knowledge of this one of their number, who has attained great eminence, it would be for the truth. Race prejudice led to a conspiracy better of all of them.

He has been deprived of his command and placed on half pay and the whole affair shows that there wasn't much truth in the humorous outburst of a stuttering recruit one time. When told by the recruiting officer that he couldn't enlist, because of his stoppage of speech, he exclaimed : "Oh h-l, its orators you want, is it. I thought you were after soldiers." Poor BULLER has found out, like many another, of the men behind and before the guns, but that the less talking he does the happier he will be. The only soldier we know of who could talk with impunity was Col. # Schley Will be Vindicated.

The testimony in the SCHLEY inquiry at Washington is drawing to a close and the indications point strongly to a result adverse to the expectations and hopes of the bureaucrats of the Navy Department. The testimony of those who were actually engaged in the battle which resulted in the destruction of the Spanish fleet on the fated or famous third of July, 1898, is practically a unit in favor of the capability and efficiency of the hero of that great event. That he will be fully vindicated by the judgment of the court can bardly be doubted.

It will be surprising to most of the Americans who have not been in the habit of inquiring closely into the events of their day and generation to learn that the same influences which led to the persecution of Captain DREYFUS in France have determined the effort of the bureaucrats of the Navy Department to try to rob Admiral SCHLEY of the honors which he had justly acquired by service in the United States navy. But as a matter of fact that is the to destroy an honorable officer in the French army and the same prejudices have been present and influential in the persecution of Admiral SCHLEY.

But as malice o'er lept itself in the case of DREYFUS, so prejudice has defeated its purpose in the case of Admiral SCHLEY. The fact that he was being attacked by the bureaucrats who during the period of danger sought seclusion in places of safety on shore has finally aroused the spirit of justice in the bosoms of those who shared the dangers and perils of the battle, and men have come forward and testified to the facts who otherwise might have remained silent. SCHLEY will be vindicated and he will owe the triumph to the innate justice

All for Politics.

It is not difficult to conjecture the reasons which influenced the Justices of the Supreme court to decide the Philadelphia "ripper" unconstitutional. But it will bother most lawyers to account for the fact that the same court some time ago decided the Pittsburg "ripper" valid. They declare that the Philadelphia case is "special legislation" and that the Pittsburg case isn't. As a matter of fact both laws are predicated on the same principles and are intended to subserve the same purpose. The only reason we can conceive that they Pittsburg case Judge POTTER "electioneered" the court and in the other case he

didn't. The Philadelphia "ripper" removed from office men appointed by the court as a board of revision of taxes, under an act of the Legislature. It was a special act, it is true, but it has been held that the legislation affecting the courts is not special. In fast power of that party or at least extends its when the point was raised during the last session that a bill creating a new court in Philadelphia was special legislation the chair promptly decided the point not well if the Philadelphia "ripper" is special legfor it rips out of office the officials legally elected by the people in a particular city. and go into robbing in the open. pending campaign is the fact that the Pro-

hibition party maintains a ticket in the field and urges voters to support it. Except for that it might justly be said that all the moral elements in the politics of the State are arrayed in a common cause against the QUAY machine. The Democrats, the Independent Republicans and whatever portion of the People's party which stands for principles have joined together for improvement in the administration of the State but the Prohibitionists remain away from the union and insist on a separate ticket. The plain result of such should be decided differently is that in the action is giving assistance to the machine. Suppose the Prohibition party polls 20,000 votes for it candidates for Justice of the Supreme court and State Treasurer and the QUAY machine ticket is elected by one-

third, one-half or even two-thirds that much plurality. The election of the QUAY machine ticket practically guarantees the same result next year and perpetuates the tenure for a period of two years. Who can measure the calamitous effect of that result on the affairs of Pennsylvania? During the last two years corruption in office has tiken and the House sustained him. Whipping Post Would be a Good Thing Right Here in Bellafonte. From the Philadelphia Times.

In Delaware the new law providing that wife beaters duly convicted shall be whipped has been put in operation in the case of a brute who had maltreated his wife. Throughout Chistendom the tendency has been steadily away from corporal punishment, but in the minds of all good people, even those of the most humane inclinations. the idea has remained that simple imprisonment or a fine is poor justice to a man who strikes a woman, and especially to one

who beats her brutally. A decade ago a law for the punishment of, wife beaters was passed after long discussion in Maryland. It provided for whipping or imprisonment, or both, and the effect of its enforcement was to decrease largely the number of cases in the police courts. The first man whipped was so overcome with shame that he left the State West Jeanette, Sunday morning. He has never to return, but the State did not mourn his loss. In recent years the magistrates have practically ignored the whip ping part of the law, but the fact that it emains on the statute books has its effect. All efforts to repeal the whipping provision have failed.

In this State and in others bills of similar import have been introduced in the Legislatures, but they have not succeeded. It is not that there is greater consideration for brutes who whip their wives, but that the sentiment against bodily castigation become firmly fixed in modern life. At the same time there is a general wish that something more severe than ordinary wrath might be visited upon the wretches convicted of such a crime.

# Attracting Little Attention.

From the Easton Argus. Very little is being heard these days of the assassin of President McKinley and it begins to look as if the American people were persisting in an expressed intention of forgetting him until the day of his execution and forever after that. There is nothing that pleases such men and those who rejoice in his act more than notoriety. The custodians of the assassin in the Auburn penitentiary are doing their share towards keeping him from communication with the world and the American people, expressing no desire to know how he is getting along while waiting for death, are doing the rest.
