Extracts Feom Various Sources, Indicating Democratic Opinica Regarding Questions of the Day.

There are times when such a subject as the tariff cannot be boxed and put away, with orders to everybody to keep hands off. The time is past when that sort of policy is carried out simply by issuing orders to that effect.-Boston Record.

"We favor an immediate declaration of the nation's purpose to give the Filipinos, first, a staple form of government; second, independence, and, 'third, protection from outside interference, such as has been given for nearly a century to the republics of Central and South America."-Kansas City Platform.

Every American soldier who dies or gets killed in the Philippine contest dies a martyr to the greed and avarice of commercial Republicanism in this country. The boys in the field are loyal, true, faithful and patriotic, but the star chamber proceedings of the Republican speculators that induced, or rather commanded, the lamented McKinley to get this country in its present pitiable plight, if examined into with the calcium light of truth and righteousness, would blanche the cheek of every American citizen with shame. No wonder a national Republican convention would hiss out a resolution expressing sympathy with the struggling Boer republic .- Ramsey (Ill.) News-Journal.

A Republican paper points to the fact that Mr. Bryan is building a house (not so expensive as the Republican paper reports, but still a good house) as evidence that he is getting "his share of Republican prosperity." It may be interesting for the Republicans to know that the house is being built from the proceeds of the "First Battle," which was published immediately after the election of 1896, and before the Republicans began to boast of prosperity. Republican policies have not benefited Mr. Bryan except in the sense that a physician is indebted to sickness for his income. Republican policies furnish Mr. Bryan texts for editorials and speeches .- Bryan's Commoner.

One hundred and twenty-five years after the Declaration of Independence was made by the thirteen colonies against Great Britain and denying the right of Great Britain to tax the colonies without giving them representation, we find the same colonies, now a great power, enforcing the same doctrine upon the Porto Ricans and Philippines as the British government attempted to fasten upon the colonies one hundred and twenty-five years ago. The taxing without representation did not succeed then, neither will it now. A greater outrage has never been attempted by the American people, and the party which is responsible for such an outrage will yet have to answer for it to the liberty-loving people of this country.-Blossburg Adver-

The depths of national infamy are sounded by the order of General Bell applying Weyler's policy of reconcentration in all its details to the Filipinos of Batangas province. Nothing in the history of modern warfare exceeds the ferocity of General Bell's instructions to American officers to "make the people want peace, and want it badly," supplemented by specific orders to regard the insurgents as "outside the pale of civilized warfare." Four years ago the American people were in a blaze of righteous wrath against the Spaniards for their ferocious treatment of the Cuban insurgents, and they are even now stirred to indignation by the reports from the British camps in South Africa. That they tolerate with placid indifference the imitation of Weylerism by American soldiers in the Philippines is almost incredible, but it is a deplorable fact .- North American (Rep.).

Congressman Hill, of Connecticut, who visited the Philippines last summer, has a poor idea of them as a "stepping-stone" to the Chinese trade. He says that a foreign nation acquiring the Bahama Islands would be as wise in thinking it had got an entrepot to New York and Philadelphia as we are in irragining that Manila gives us an entrepot to China. This will be a sad blow to Senator Beveridge. Foreign trade, in his mind, depends upon having a whole series of steppingstones across the ocean. His picture of American goods hop-skip-and-jumping over the Pacific-one leap to Hawaii, another to Guam, thence to Mamila, and from there right to Hong Kong-was a beautiful work of the imagination, and it seems a pity to have it shattered. Mr. Hill, has, however, a good many prosaic facts to adduce. He observes, for instance, that, in some cases, "the cost of freighting from Manila to the Chinese cities is greater than from our own coast to the same points." In short, he applies a good deal of hard Yankee sense to the questions whether our Philippine investment has paid, or is ever likely to pay, and answers them both with a plump negative. - New York Post (Rep.).

Brief Comment on Political and Other Matters of

wnen we attempt to tell the little brown men that we are so deeply interested in their welfare that we are spending millions of dollars to shoot our love into them they will credit us with being the worst gang of doublejointed hypocrites that ever walked the earth, and when we add to this that other stupid invention that Providence is assisting us to do them up they will wonder what sort of heathen god we worship.

The ruling of the postoffice department in refusing Mr. Bryan's Commoner the regular mailing privileges is too contemptible to be properly characterized. The alleged reason for refusing sample copies of the Commoner to go at regular pound rates is that Mr. Bryan is interested in what his paper teaches. When Charles Emory Smith berates Quay, Penrose and the gang week after week in the Philadelphia Press has he any interest in what he preaches or is he doing it without motive, purpose or interest? This idiotic ruling, if carried out, would shut out any paper whose writers had any conscience. To say that the editor of any paper is not interested in the success of the doctrines he may advocate is to denounce him as a hypocrite or a fool. This silly attempt to work a hardship on Mr. Bryan will react on those weak enough to engage in so contemptible a scheme.

Judge Shiras, of the United States court, is about to retire to private life, where in the opinion of many he ought, for the good of the country, to have remained. His sudden flop on the income tax ought to condemn him for all time. He betrayed the cause of the common people into the hands of the plutocrats against his convictions of right judgment and duty there is no room to doubt; what the means that brought him about were can be easily conjectured. His conversion was accomplished between twilight and dawn and he never made the plea that an angel of light had appeared to him in a dream and enlightened his darkened understanding. The angel that came, no doubt, belonged to the other class. It is safe to say that Shiras will not die in an almshouse, though better men than he have done so. Men would respect the courts if the courts Piarmacy would let them.

Roosevelt in his message to congress declares that "in the case of Cuba there are weighty reasons of morality and of national interest why the policy of reciprocity should be held to have a peculiar application and I most earnestly ask your attention to the vital need of providing for a substantial reduction in the tariff duties on Cuban imports into the United eral passenger agent, Chicago. States." So there is after all a moral question involved in the tariff is there? One would almost conclude from the blind adoration shown the tariff fetich by the Republican leaders that esteem, selfishness and inordinate greed on the part of the few coupled with a determination to bleed the many for their enrichment are highly moral attributes. The tariff is at the very best an evidence of the narrowest kind of selfishness, and a total disregard for the rights of others. It is an absolute command to do unto others what we do not want them to do to us. Whenever Russia, Germany, France or any other country imposes a trade restriction against any of our Tourist sleeping cars daily to the Pacific coast. doors on the part of others, while we street, Pittsburg, Pa. exact tribute, like the pirates of the Mediterranean, on every dollar that we get our hands on. The tariff is said to have derived its name from the pirates of Tarifa, who exacted a tribute from every vessel entering or leavstill practiced under the sanction of law and in the name of protection.

still further thwart the will of the Fifth avenue, Chicago, Ill. great majority of the American people by refusing to submit a propos!tion to amend the constitution so as to elect the senator by popular vote. If we must have an American house of lords or a millionaires' club, as it is sometimes called, there is no good reason why the people should not have a voice in their election. The senators say in effect, "We prefer our chances of getting into the senate by fair means or foul through means of the legislatures, and we don't care whether the people like it or not." There are but two ways of bringing a constitutional convention about: Congress can call one of its own free will, or if twothirds of the state legislatures ask for it, congress must call one whether it wishes or not. A large number of the legislatures have passed such a resolution, and the old duffers in the people will force them, in spite of their wishes, to call a convention. They are ful scenery. Copy delivered free on application devoting their spare time to pointing out the dangers that are sure to result from calling a convention. They tell us that if a convention were called there is no telling where the amending would stop. They are afraid to trust the people to amend their own constitution. Possibly they are fearful that if a convention were called, some man with more honesty and patriotism, and a keener sense of justice than the majority of the senators and the members of the supreme court, might propose an amendment making the income tax constitutional. Frightful

What They Say.

It is at least gratifying to learn that the Republicans are beginning to realize that protection needs a "handmaiden." It has had much wet nursing .-Gretna (Neb.) Breeze.

The day of high tariffs is doomed. The business of a nation cannot be all sell and no buy. Watch the little Chinese wall advocates and "home market" propagandists tumble over themselves to get into line with public sentiment. But trouble is yet to come. 'Our infant industries" have a fat thing, and they are not going to give it up without a struggle. It remains to be seen how much longer their "influence" in congress will compel the people to pay tribute to the trusts .-The Commoner.

It is idie to talk of tariff reform coming through the Republican party. It is tantamount to saying that the Republican party will deliberately take its own life. Anyone who expects this is doomed to be disappointed. The Republican party has fattened and flourished because it fostered high protective tariffs. Its life blood, its every pulse beat depends upon the continuance of this policy. It is the veriest bosh, therefore, to expect that the tariff will be refarmed through the instrumentality of the Republican party. Tariff reform can only come through a united Democracy.-Cadillac (Mich.)

Mr. Geo. Cox residing on what is know as Half Moon Hill, says: "I can conscientiously recommend Doan's Kidney Pills indging from what they did for me. I suffered intensely from pains in my back and lameness across my kidneys. Statements in this paper about Doan's Kidney Pills attracted my attention and I called on F. Potts Green, the druggist, and got a box. They did me a great deal of good although I did not take them as regularly as I should, for the moment the pain ceased and I felt better, I stopped taking them. They gave me the greatest relief and I can give them the credit of saving me much suffering."

WORTH \$300,000,000.

The President of a certain big Oil Company is said to be worth \$300,000,000. A tidy bit of money and no mistake And yet he isn't happy. In an address to a Bible class he spoke of trials and troubles of the rich and the loads they have to carry. A young lady whispered to a friend that he might wear a Benson's Porous Plaster on his back or, better still, divide the money among the members of the class. I don't know why her idea about the plaster makes me want to laugh, but it does. All the same I have seen plenty of people laugh after putting Benson's Plasters on their backs or chests, or on any other spot where there was weight, heaviness, weakness or pain. It may be the sharp stabs of neuralgia, the aches and wrenches of rheumatism; it may be colds in muscles or bones: it may be those kidney or lumbago thrusts that make you yell as at a dog bite; or it may be a strain or cramp, anything that wants quieting and comforting. Don't bother with salves, liniments, lotions, etc., or with any of the stupid and useless old style plasters. Clap on a Benson's. It relieves at once and cures quickly. It stops the pain and makes you laugh for the very ease and good feeling of it. But watch out against imitations and substitutes.
