Pine Grove Mention.

Some of our farmer friends are done planting corn. Tall and sprightly Will Gibson spent Sun

day with his mother. Paul Fortney, of Bellefonte, came up on his bike to spend Sunday with his Uncle

James. Ezra Tressler and wife, of Rock Springs, dined with their old friend Fred Bottorf on Sunday.

Mrs. Susan Erb, of State College, visited her daughter, Mrs. J. B. Heberling, on Main street, last week.

Mrs. Lydia Kustaborder, who has been quite ill with pleurisy at her State College will have to go on the war path to extermihome, is improving.

creamery man at Baileyville, enjoyed the after, for it will kill a caterpillar as soon as sights here on Saturday evening.

Our old friend John Mattern, of Franklinville, tarried here on Tuesday just long enough to shake hands with a few old friends.

Dr. Kitter and wife, of Boalsburg, spent last Friday evening in town making extensive purchases of furniture for their newly finished home.

Merchant W. S. Ward, of Baileyville, was in town on Sunday evening and as the trip combined business and pleasure, time did not hang heavily on his hands.

Mrs. John Robinson and Mrs. George C. Butz, of State College, enjoyed a morning drive here recently. They were unlucky enough, though, to lose a valuable cape.

Levi Bathurst and Jay Woomer, two of Baileyville's representative men spent Sunday with Fairbrook friends. They were driving a beautiful Hambletonian stepper which belongs to Mr. Woomer.

On Tuesday our hustling carriage maker H. N. Krebs delivered two spick span new buggies to Spruce Creek patrons. While there he received orders for several others as his work needs no advertising.

Supervisors Hess and Meyers have order a new Aultman stone crusher which will be put to work as soon as it arrives. The recent floods played havoc with our roads in places and they need repairing badly.

It has been a long time since our town was so largely represented at the Temple of Justice as it was this court week. Several of our fellows thought their share of justice was meted out to them in the wrong way.

Levi Bathurst, the constable at Baileyville, fects of a dose of Paris green that some villain placed in her trough the night previous. Mr. Bathurst is a genial, pleasant man and does not know of an enemy he has.

Mrs. Sarah Struble, who has been ill most of the winter at her State College home, is rived on Monday night.

Dr. John F. Harter, who has been serious-

Elmer Ross is having the old homestead remodeled by siding it and putting a porch in front and around to the bay window, and all other repairs necessary to make it beautiful. The measles are making the round of the town at this writing as three of John Shuey's children and five of Mrs. Fogleman's children are under the care of the doctor.

John I. Thompson's had a very pleasant time with the young people the other evening, but it seems that some of the boys, who were not invited to take part in the enjoyments of the party, took the cake and had a party to their own liking.

We notice the caterpillars have made their appearance again, and the owners of orchards nate the plague. A good destroying agent is John J. Arney, of Centre Hall, was here to spray the trees, where the young worms soon as they make their appearance-not say-Charles Snyder, the obliging and hustling ing that it will not destroy them at any time

the oil touches it but when quite young they stay in the nests and by one blow a whole brood can be killed.

Still Wiping Out the Boers.

LONDON, April 28.-The war office has made public the following dispatch from Lord Kitchener at Pretoria : "Since April 21st twenty-five Boers have

been killed, seventy-eight have been taken prisoners and twenty-five have surrendered. There has been desultory fighting in various sections of the Transvaal and the Orange River Colony. The garrison at O'Gkiepp (Cape Colony) successfully held out until it was relieved by the columns."

Books, Magazines, Etc.

A series which should have been named "The Enchantments of our Modern Aladdins," if connow so low that there is no hope of her life sidered solely from the point of view of romance, being prolonged. The men who would understand the drift of our news in finance and business must read these lives, so full of incident, of ly ill for weeks with bilious fever, is so much chance, of hard labor and marvelous success. Notice is hereby given that the partnership heretofore existing between W. Fred Reynolds and J. Harris Hoy under the firm name of Rock Farms has this day been dissolved. W. FRED REYNOLDS, J. HARRIS HOY. THE MAY MCCLURE'S .- The May number of Mc-Clure's is a brilliant example of the editorial enterprise in securing the right article at the right time, for which this magazine is famous. When McClure's sees a big story it goes to headquarters for it : and so in May we have, first, Miss Stone's own account of her capture and imprisonment by the brigands, and, secondly, Prince Henry's imthe house the day before and the old shingles pression of America recorded by the one American whose testimony on this subject is authoritative-Admiral "Bob" Evans. Another notable contribution is George W. Smalley's paper on "English Statesmen and Rulers"-the second of a series of personal reminiscences by this most distinguished of American newspaper correspondents. In addition to these and other articles the number is as remarkable for the quality of its fiction as for the importance and timeliness of its articles and the excellence of its illustrations. The May number of EVERYBODY'S MAGAZINE OPENS with a most interesting article by Dr. Henry Gannett on "Famous American Mountains," superbly illustrated with photographs of the notable peaks of the Rockies, the Sierras and the Alaskan Range. Especially timely is T. P. O'Connor's eshuckstered for many years. His wife and timate of Cecil Rhodes-the "Napoleon of South Africa." It is a skillful character study, representing the curious admixture of traits which make Mr. Rhodes the great personality of his period. Another valuable contribution is Dr. H. W. Wiley's "Man as a Machine," in which the functions of the human body are compared with mechanical process. In addition Evenybody's for May has a most interesting table of contents, covering subjects most entertaining, stories, tales of travel, poetry etc., and most of which are finely illustrated.
