SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa.

"I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Medical Discovery for Consumption, used it, and was completely cured."

"For desperate Throat and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchial Affections. Guaranteed bottles 50c and \$1.00. Trial bottle free at Green's Pharmacy."

Reed Didn't Want It.

Story of a Revolver and a Stormy Scene in Congress.

"When Mr. Reed was making the parliamentary fight which resulted in the adoption of the Reed rules for counting a quorum in the Fifty-first congress," said a veteran representative, "the violence of debate was greater than at any time since reconstruction days."

"Several of his colleagues were standing near by, angry, flushed, under their breath declaring that it was time to 'pull the speaker out of the chair.' Mr. Reed's partisans were just as hot and crowded to the 'well' to be ready if any muscle were needed. Confusion reigned in the entire body."

"Right in the thick of it Representative Martin of Texas made his way to the steps leading to the speaker's seat and, lifting his coat-tails, showed to Mr. Reed the butt end of a revolver protruding from a hip pocket."

"Do you want it?" asked Martin. "Just then the little orator from Alabama, with clinched fist, shouted at Mr. Reed: 'Your ruling is the most damnable ever made in your chair. It is nothing short of revolution. It ought to bury you so deep that Gabriel's trumpet won't waken you.'"

"Mr. Reed leaned over then and replied to Martin, with his usual drawl: 'No, not yet. The gentleman has simply risen to a question of order and is now stating it.'"

Just Like the Rooks. "I'm from England," said the man on the car platform, addressing nobody in particular and apropos of nothing.

"My tastes," said the extravagant "are inherited." "Yes," retorted the angry father; "everything you have is inherited. You haven't gumption enough to acquire even a taste by individual effort."

Respect for those that labor under burdens. So said Napoleon as he met a porter on the Paris highways and stepped aside to give the laborer the right of way.

Australia's Long Drought. The pastoral situation in Australia is rapidly becoming desperate. Drought upon drought during the last eight years has left ruin to thousands upon thousands of able and energetic men engaged in the sheep and cattle industry.

Five Angels on a Needle Point. It is related of the late Dr. Robertson that on one occasion he was in the company of some theological students. They, fresh from the study of church history, were laughing together over the old scholastic question.

A Trafalgar Incident. There is a most striking and remarkable passage in the journals of Captain Frederick Hoffman which have been published under the title of "A Sailor of King George."

Quite Intelligent. Watts—I tell you, old man, I saw the most remarkable exhibition of animal intelligence today that could be imagined.

A Souvenir. "Is it an engagement ring?" "No," answered the oft-times summer girl. "It is a souvenir."

Agreeable. Hanson—There was a time I couldn't abide Puggleigh, but I declare if he hasn't become really agreeable of late.

A Little Way Off. Tommy—What does the paper mean by calling Mr. Buggbauss an eight by ten business man?

Death-Defying Ecar. Fear causes more deaths than do microbes, more deaths than famine, more deaths than panics; it costs more than war is always a failure, and is never necessary, says Dr. G. F. Mencham in "Health."

Germs Lurk in Bills. Erysipelas, contracted by handling money in which disease germs lurked, nearly caused the death of Thomas J. Noonan, treasurer of the Illinois Theater, in Chicago.

Fear causes more deaths than do microbes, more deaths than famine, more deaths than panics; it costs more than war is always a failure, and is never necessary, says Dr. G. F. Mencham in "Health."

Edwards Crumple, the 9-year-old son of Michael Crumple, who lives near Mountain Lake, was found by the police Wednesday afternoon, shackled with chains and fastened to the floor of a barn.

One Horsepower.

When men first begin to become familiar with the methods of measuring mechanical power, they often speculate on where the breed of horses is to be found that can keep at work raising 33,000 pounds one foot per minute, or the equivalent, which is more familiar to some mechanics, of raising 330 pounds 100 feet per minute.

The horsepower unit was established by James Watt about a century ago, and the figures were fixed in a curious way. Watt found that the average horse of his district could raise 22,000 pounds one foot per minute. At that time Watt was employed in the manufacture of engines, and customers were so hard to find that all kinds of artificial inducements were necessary to induce power users to buy steam engines.

Plenty of Work For the Club. "What does the society which you have just joined find to do?" asked Mrs. Bizzell's husband.

An Energetic Retort. "My tastes," said the extravagant "are inherited."

Respect for those that labor under burdens. So said Napoleon as he met a porter on the Paris highways and stepped aside to give the laborer the right of way.
