How Sousa Got His Name.

When Sousa, famous the world over as king of march music, landed in the "home of the free," he carried with him a valise on which was marked in plain letters "John Phillipso, U. S. A."

Time passed, and this son of sunny Italy commenced to grow musical and also to become Americanized. It was then, so the story goes, that he expressed the desire for a name more nearly like those of the people of which he was one by choice.

Phillipso sounded out of place doing service for a man who had imbibed American beliefs and customs and whose destiny was closely linked with "the stars and stripes forever." A member of the band to which he belonged finally made a suggestion. It turned out to be a happy one and was adopted by the master of the baton. The suggestion was this: To the name Phillipso add U. S. A. Divide the one name into two words, and there was the smooth sounding and easily pronounced name of John Philip Sousa.

When Kissing Was Costly.

The case of the People against Murline, heard by the governor of New Haven colony in council on May day, 1680, indicates the attitude toward unlicensed kissing in those times. It appeared that Jacob Murline and Sarah Tuttle had been caught kissing each other.

Jacob tried to throw the blame on Sarah, saying he thought she had "with intent let fall her gloves." Sarah denied the intent. Jacob then admitted that he "took her by the hand, and they both sat down upon a chest, but whether he kissed her or she kissed him he knows not, for he never thought of it since until Mr. Raymond told him that he had not layde it to heart as he ought."

The stern governor, after duly lecturing the guilty parties on the enormity of their offense, decreed that "the sentence therefore concerning them is that they shall pay either of them a fine of 20 shillings to the colony."

Bereavement and Business.

The following curious advertisement is taken from a Spanish journal: "This morning our Saviour summoned away the Jeweler, Siebald Illmaga, from his shop to another and better world. The undersigned, his widow, will weep upon his tomb, as will also his two daughters, Hild and Emma, the former of whom is married, and the latter is open to an offer. The funeral will take place tomorrow. His disconsolate widow, Veronique Illmaga, P. S.—This bereavement will not interrupt our employment, which will be carried on as usual, only our place of business will be removed from 3 Lessi de Leinturiers to 4 Rue de Missionaire, as our grasping landlord has raised the rent."—St. James Gazette.

How the Peach Was Produced.

That the luscious peach has been derived from the hard shelled almond can no longer be successfully denied. It is said that the peach in its original soil was a virulent poison and that the Persian warriors brought to Persia some of the seeds and planted them for the purpose of poisoning the points of their arrows so as to render wounds caused by them to be fatal, but a change of climate and soil produced a fruit which is not only luscious, but is esteemed exceedingly healthful.

Fast His First Youth.

The swan is said to be excellent eating when young, but as it is one of the longest lived of all creatures it is well to learn if possible how old your bird is before you cook it.

A gentleman in Lincolnshire, England, sent a dead swan to the Athenaeum club, addressed to the secretary. A special dinner was to occur that week, and the committee without question turned the bird over to the cook.

At the dinner the swan, resting on a great silver dish, was a delight to the eye, but when it came to carving and eating the bird no knife seemed sharp enough to cut it, and of course eating it was out of the question.

A few days later the donor met the secretary and said, "I hope you got my swan all right?"

"That was a nice joke you played on us," returned the secretary.

"I hope you got my swan all right?"

"Why, we had the thing boiled for thirteen hours, and even then we might as well have tried to cut through the rock of Gibraltar."

"You don't mean to say you had the swan cooked?"

"Why, of course."

"Man alive! I sent it to be stuffed and preserved as a curiosity in the club. That swan has been in my family for 280 years. It was one of the identical birds fed by the children of Charles I. You've seen the picture of it. My ancestor held the post of 'master of the swans and keeper of the king's cygnets.' Well, I have no doubt it was a bit tough."

A Hasty Marriage.

Oliver Cromwell was so great a man that he dwarfed his surroundings, and it is singular how little the majority of people knew about the family and family life of this "the most typical Englishman of all time." He had three daughters, the youngest of whom was Frances. Her attractions must have been considerable. The young woman had several love affairs, but certainly the one that had a most amusing termination was her flirtation with her father's chaplain, Jerry White.

One day the protector surprised Jerry on his knees in the very act of kissing the lady's hand. Cromwell coldly demanded the meaning of the scene, and Jerry, with a pretty wit, exclaimed that he had long been courting "that young gentleman, my lady's woman," although without success. He was now therefore humbly praying her ladyship to intercede for him.

Cromwell turned at once to the waiting woman and requested to be informed why she refused the honor his friend, Mr. White, would do her. The young woman, fully equal to the occasion, replied magnanimously that if Mr. White intended her that honor she would not be so churlish as to deny him. "Call Godwin," returned Cromwell, and the pair were married straightway.
