prompted to offer this advice by the fact that at the close of the strike two years ago, many more accidents and deaths occurred than take place when, the mines are operating regularly. (JOHN MITCHELL.

[Signed,] "JOHN MITCHELL. President United Mine Workers of America.

A Hard Worker for His District.

During both sessions of the legislature Senator Heinle was a member of the Committe on Education, and at all times heartily supported every measure introduced for the advancement of education or the betterment of educational facilities. One Act in which he was especially concerned was the Senate bill providing for the establishment of township high schools. This was a ques-tion that Senator Heinle had strongly advocated years before he was elected to the He always contended that the Senate. boys and girls of the rural districts are as justly entitled to the same educational advantages as to those are who are reared in the cities and towns; and that the establishment of high schools would necessarily raise the standard of our public school system to a degree of efficiency that would enable the farmers' sons and daughters to enter college without an additional expenditure of money. The passage of the Town-ship High School bill, which was effected mainly through Senator Heinle's efforts, is the first step toward higher education in the country districts, although this Act is not compulsory, but can be put in opera-tion to suit the convenience of the school district.

Equal with his support of the Township High School bill Senator Heinle was just as earnest in his work for every honest measure. After years of futile effort on the part of the people of Centre county to secure an appropriation for a soldier's monument and Curtin memorial, Senator Heinle, at the last session of the legislature, succeeded in having a bill passed appropriating \$10,000 for such a monument. It was also through Senator Heinle's untiring efforts, in conjunction for the representatives in the three counties, that the appropriations for the hospitals and charitable institutions in this District were largely increased.

His efforts were of such a pronounced character, his ability so marked, that dur-ing the last session of the legislature he stood shoulder to shoulder with the leaders of the Senate. He acknowledged no man as boss; he bowed not to the dictates of any as closs; he clowed not to the dictates of any clique or machine, but with "Honesty" and "Patrotism" as watchwords, he most faithfully served and represented the people who elected him and the State at large.

Home for Election. HARRISBURG, Oct. 21.-Governor Stone has begun making preparations for the tak-ing of the vote of the troops in the mining cause. regions at the November election, should the soldiers be kept on duty that long. The necessary blanks were prepared by the State Department today and will immediately be printed, so that everything will be in readiness when the Commissioners are appointed

to superintend the voting. The Governor said to-night that the troops will be kept in the coal region as long as there is any necessity for it, and that instead of bringing them all home at one time they will be recalled gradually. He also said that he could not fix any arbitrary date for the recall of the troops, and that the generals who are on the ground will be the best judges of when it may be safe to begin the movement of the soldiers
