Has the Courage to Tell the Truth.

We are glad to know that there is one religious paper, at least, that can tell a wrong when it sees it; that is not so politial year. May the New Year, 1903, be ically hide-bound that it fears to speak welcomed with peace and joy, and may it the truth or subserviently partisan that it would hide a crime because it was com-land and nation. There will be 18 High Flood Days and 13 Low Ebb Days this mitted in the interest of the party with which its managers sympathize. There are of Sickness into the House of Marriage, but few of them, but among them is Zion Herald, a most worthy and able publi- the social, financial and business world. cation, that has the courage to give its readers the following facts concerning the troyer of vital forces, makes men bold and manner in which Pennsylvania is kept so gives force of character, therefore, strife and disposition to war will continue. overwhelmingly Republican.

easy for the Big Boss, with his recources of easy for the Big Boss, with his recources of state and federal patronage and by his methods, which are sui generis, to bring about the returns that would elect his cousin chief executive of the Keystone State. Quay controls the three cities of Philadelphis 1974. the three cities of Philadelphia, Phisburg, and Allegheny. With them he decides all elections as his will determines. Outside of Allegheny and Philadelphia counties, the State has gone decisively against him in the delphia, Pittsburg, State has gone decisively against him in the last two elections. Had Quay been unable to bring up from those two counties the returns of 51,925, his subservient tool could not have been elected, for his plurality was only 45,-570. What are his methods? He alone knows; but the results inform the nation that they are very effective and equally un-American. Allegheny's vote for Governor in 1898 by all parties was 77,024; this year the returns make it 113,152! Philadelphia county's vote in 1898 was 192,785; this year it is officially reported to be 244,142! In the metropolis of our State where the "machine" run the wards, the returns are both a study and a revelation of ballot box stuffing. No coronding loss in the vote for the other parties can be noted. One ward that gave McKinley 1,967, returns 5,173 for Pennypacker; another piles up McKinley's 3,600 to 6,290 for the man that pronounced Quay greater than Clay and Webster. The third and fourth Clay and Webster. The third and lourth wards more than doubted the presidential vote, from 3,445 to 7,129! Without the padded plurality of 148,641 from Allegheny and Philadelphia counties, Pennypacker's plurality of 142,330 would not have been possible. Beliable papers declare that 60,000 illegal votes were cast in Philadelphia. The people vote, and the "machine" brings in the returns according to the peculiar exigencies!

It Wasn't Him.

Some conscience stricken thief returned to some way at some time wrongfully taken. Who it was would, of course, be impossible to guess; but if you were to ask who among all the treasury looters of the Commonwealth it wasn't, ninety-nine hundredths of the people would answer promptly that it was not the Brookville statesman, who last year figured as a fleecer of the state's charitable institution. No, there is no one suspects it came from that source.

A Zephyr from the South.

The following letter from a gentleman who was a resident of Bellefonte many years ago has been received at this office. Inasmuch as he will be remembered well by some of our older residents and his letter is in a reminescent, rather than a personal vein, we publish it.

Grand Isle, La., Dec. 25th, 1902.

Dear Sir: You will no doubt be a bit surprised when you get this, and learn the identity of "Yours Truly." I have had the intention of writing to you for a long time back, but there was always something to deter. In fact, I have but one excuse for taking up even a moment of your time and that excuse, is the desire, which comes to the most of us at some period of our lives, generally the latter period, to learn something of what is going on in, out and around about the ould sod. And to learn of the changes which have occurred since we shook the dust GRAND ISLE, LA., Dec. 25th, 1902. which have occurred since we shook the dust of the hills of "Centre," from our feet a

generation ago.

I know that many of the old settlers have crossed the silent river into the great beyond and are "resting in the shade of the trees." And those who were in the prime of mid life, have grown gray and to a greater or less degree a number are over the ridge, with their

faces turned to the valley below.

Sometimes I fall into a reminescent mood and in my minds eye am strolling around the old burg, of a pleasant evening and meetor Saunder's or many other shops for a chat, winding up at Kurtz's bowling alley and the Republican office, and the WATCHMAN office. But it is only the imagination. The reality is one of the things which have long since disappeared with the years, and only

memory remains.

Still there are the many green spots, over which the mind loves to linger. Where are they? Genial Joe Furey, Jolly Old Abe Sussman, Dave Wagner, "Lop" Shugert, the Harris's Frank Green, Jerry Butts, Harry Stitzer, and a best of others. Now, mind I Stitzer, and a host of others. Now mind I do not wish to convey the impression that I was intimate with all them, only more or less acquainted, but had a high regard for all, and

acquainted, but had a nigh regard for an, and have only pleasant recollections of my intercourse with them, such as it was.

There were some it is true who held a very high head toward the "D—d Rebels."
But I would only be a liar of the first water to aver that a single one of the prominent was of Rallafanta ever uttered a rude, or unmen of Bellefonte ever uttered a rude, or un kind word to me. Still there were many "Radicals" who had no use for me, yet they treated me courteously whenever and wher-ever we came in contact. The Blanchards, Ed Humes, Yocum, McAllister. Hastings and others I might mention. Others with whom was more or less acquainted, and pleasantly too. Many of them. I never complained of the coldness of some, because in those days the "Bloody Shirt" was waiving high above the "Blue Union" and sectional feeling was

bitter indeed.

I don't know why I am telling you all this, but one thing brings on another. The events of a life time are but an endless chain, whose every link bears some relation to every other no matter how remote the time of the forging, or the intervening dis-tance. Now I think it is about time to put up the shutters and turn out the gas, which is somewhat wasted. I'd like to see a copy of the old WATCHMAN.

We are having our second taste of cool weather clear and crisp. The first was on Sept. 15th—17th. The interval was like sweet May in old Centre. To-day 26th, is becoming quite chilly. Yesterday I had a slige log water well. slice s of a water melon, second growth, firm of flesh, red, juicy and sweet to the rind, grown in the open. Have already had a 49 pounder, for New Year's 4, or 5 years ago.

Wishing the Watchman and connections only the best. only the best, I remain

Sincerely, J. W. MINNICK.

What Storms and Signs has to Predict for this Month.

Prof. Coles in "Storms and Signs" says: As we write, the year 1902 has completed its cycle and will soon be numbered with the things of the past and we now see the dawn of another New Year. How swiftly the year 1902 has flown. How swiftly the days have swept away. The record of the dying year has been filled up with joys mingled with disaster and bitter sorrow, and it will go down in history as a memordawn auspiciously upon this, our beloved land and nation. December gave us a surprise, as predicted, and January is liable to do the same. By looking at the calendar in Storms and Signs you will notice that all the storm g up from those two counties the returns periods are marked down. Unsettled weather will prevail during the first part of the month, there will be a few bright days followed by high gales, rain, and snow. At full moon, on the 12th, watch out for more destructive gales sweeping blizzards on or about that time. The New Moon will occur on the 28th, and the planets will then be in position to cause high gales and destructive storms in many parts of the country, just before, on or about that time. CULMINATION OF A PRETTY ROMANCE. -The Lock Haven Express, one day last week, contained the following which will cousin of S. A. and William Bell, of this place, and has visited here frequently. Her husband to be, J. H. Meyer, is forburg and presented to it the pulpit and cairn.

"A marriage that will be solemnized in will be the outcome of a beautiful romance in real life that began many years ago. The bride to be is Mrs. R. A. Shearer, widow of the late J. T. Shearer and the prospective groom is J. H. Meyer, a wealthy Kansas farmer. Mr. Meyer his youthful days lived at Spring Bank in Brush valley, Centre county, where he formed the acquaintance of Miss Rachel Bell, a winsome maiden whose friendship he enjoyed. In fact, Mr. Meyer paid some special attention to Miss Bell, but merely as an admiring friend of the young lady. Forty-one years ago the young man went west to seek his fortune and later married a woman whom he met and loved. Miss Bell also married, her husband hei Shearer, a gentleman, who during his life time, was an honored and respected citizen of Lock Haven. Nine years ago Mr. Shearsome journal for the home and the high er died and his widow has continued ever since to reside at her home on East Bald Eagle street. "Seven years ago the wife of Mr. Mever

died, leaving him a widower. From the time he left Brush valley forty one years ago until about a year ago, Miss Bell, now Mrs. Shearer, who was the girl friend of his boyhood's days, had heard nothing of him and did not know whether he was living or dead. In February last Mr. Meyer, who served in the army during the Civil war, came east to attend the reunion of his regiment at Bellefonte. Hearing a comrade address another as Mr. Bell, the recollec-tion of his friendship for the Miss Bell of his early days was recalled and he inquired of the gentleman whether he knew the Miss Bell in question. The gentleman proved to be W. W. Bell a cousin of Mr. Meyer's early day friend and he then learned that she was a widow and was living in Lock Haven. He came here and called upon her and the friendship of the past was renewed. After Mr. Meyer returned to Kansas, correspondence followed and numerous letters were exchanged. Last October Mr. Meyer again came east and when he left Lock Haven to return home he had the promise of Mrs. Shearer to become his bride in February next. He will arrive here on the 18th of the month and the wedding will take place on the 21st. "Mr. Meyer resides seven miles from the town of Hiawatha, Kan., and has a beautiful home.
