An Address.

By the Centre County Pomona Grange, No. 13, to the Legislature and People of the Commonwealth of

BELLEFONTE, PA., Feb. 16, 1903. To the Senate and House of Representatives of

We, the members of the Centre County Pomona Grange, No. 13, engaged in farming, address your Honorable Body on the general condition of agriculture within our Commonwealth and the distress of the agricultural class, owing to the exorbitant tax rate and conditions that the farmer must contend with that are not generally understood.

The market value of farm lands have declined, since 1875, fully fifty per cent. so that lands that were bought for \$75.00 to \$80.00 per acre, today will not bring more than \$35.00 to \$40.00 per cent. During this time the tax rates have increased forty per cent. We are glad to say that Clyde Long, who by reason of additional exactions, brought about by legislative requirements, so that the average tax rate is sixteen mills, as compared with three mills, the average on personal and corporate property, or twelve per cent. of the gross earnings of the farms of Pennsylvania, which is bordering on the verge of confisca-

> We, therefore, look with alarm upon the proposition now before the Legislature to take away from the people, locally, the control of the public schools and public roads, by forced enactments, and to add additional taxes not only for these but other purposes.

We would ask, with all fairness, if it is just to fix the minimum salaries of teachers by a legislative enactment instead of by the law of supply and demand-which governs the wages of other classes? And if it is just to compel local governments to raise, by local taxation, a like amount with that raised by the State for state roads over which the local governments would have no control?

If these proposed additional burdens are to be imposed on the farmers of the State, then in all justice, so as to enable us to meet these additional requirements, the Legislature should also, by law, fix the minimum prices of farm products; say wheat at \$1.25; corn at 50cts; oats at 40cts; hay at \$15.00 and other products at the same ratio.

To relieve the over-burdened condition of agriculture and real estate the Legislature should, in all justice, relinquish to the local government all the personal property taxes, mercantile tax, fee of county offices. on writs, wills, deeds, etc., and also provide, by appropriation, for the payment of jurors of the court of quarter sessions and common

The State should in all fairness impose tax on the gross receipts of mines, oil wells. gas wells, pipe lines, manufacturing companies, etc.—as these subjects contribute less than three mills for all governmental pur-

We only wish to add that the average rate of taxation on personal and corporate proper ty is only three mills; while real estate is taxed sixteen mills.

Anything the Legislature can do to redress these wrongs will promote the prosperity and happiness of all the people of our Common-

Respectfully submitted, GEORGE DALE, Master, D. M. CAMPBELL, Secretary.
