Of Quaker and Presbyterian ancestry, she was pre-eminently a woman of that type, refined, quiet and forceful. Endowed with an attractive personality and a very pleasant disposition she had rare

social qualifications and was a great favorite with her many kin. Intelligent, and gifted with a good soprano voice she was a most helpful member of the societies to which she belonged. For many years there

THE UNIVERSITY INN AT STATE COLbabe that had been the light and love of LEGE IN ASHES .- The University Inn, the large resort hotel at State College, that was in Tyrone. white, on Willowbank street, was carried built by a stock company of State College away to the other shore. About 11 o'clock last Saturday morning fire was discovered in room 21 on the southeast corner of the third floor of the build-Yarger, died at her home at Aaronsburg on ing and it had evidently gained such headway that nothing could be done. The room was occupied by a student from Pittsburg named Philipps who had been, in it only a few moments before. In less than 45 minutes from the time the first alarm was sounded the immense structure was a pile of charred timber and twisted irons scarcely noticeable in the blackened walls of the foundation. Its destruction was most complete and swift.

> There was a high wind prevailing at the time which carried showers of sparks in a north-easterly direction, right over the large college barn and the woods. Both were afire a number of times but by hard work the flames were stopped before serious damage was done. Had the wind been toward either end of the village the results

might have been far more disastrous. The Inn was a four story frame structure containing fifty-two sleeping apartments, a number of private parlors, reception rooms, lavatories, bowling alley and pool room. It was built in 1895 at a cost of \$26,500. Its history has been rather checkered since no management could make it pay without license and that priv--There are about one hundred and ilege at State College is forbidden by Act of Assembly. About a year ago county treasurer Phil. D. Foster bought the property for \$11,500 and was building the business up immensely, when he was elected to office and rented it to T. Frank Kennedy. The Inn was crowded with guests at the time of the fire, most of whom were unable to save anything. There were about fifty students and a number of attachees of the College living there and few of them saved anything more than the clothes they wore. Even the servants in the house lost most of

their belongings and among the most unfortunate were a number of poor boys who were working at the Inn for their boarding while going to College. They have been compelled to go home.

Mr. Foster's loss is on the building and its contents. He has about \$12,000 insur-

Mr. Kennedy, the proprietor, owned little else than his personal furnishings in the house, though the loss to him is considerable and will not be covered by his \$500 insurance.

All of the boarders suffered losses ranging from a few dollars to several hundred. Two students who had come to State when the typhoid epidemic broke out at Cornell lost about \$1,500 in furnishings and clothes.

-The Lock Haven Democrat of Tuesday tells the following story of a rather peculiar robbing practice that has been carried on in the lower end of Nittany valley for years : "One year ago the farmers of Nittany valley were annoyed by some persons entering their farmyards at night and clipping and carrying away the fleeces of some of their best wool producing sheep, and last week the miscreants renewed their peculiar kind of theft by entering H. M. Heard's farmyard and clipping and carrying away the fleeces of seven of his flock. The work of clipping was very hurriedly and bungingly done and by comparison of the work done by local sheep shearers the farmers are about united in their opinion as to who the culprits are. The clip thus taken is supposed to find purchasers among that class of people who go about and purchase old junk and the farmers are showing more than "farm like activity" in a determination to capture the thieves, as well as to call a halt on the class of people who are willing to purchase wool from a class whom they should know do not produce it. Farmers keep up your vigil and do not hesitate to arrest and bring to justice the fellows who are so lost to common honesty that they are willing to take the chances of arrest and punishment by appropriating to their own use that which does not belong to them and thereby enable them to earn in one

night more than the suspected parties are time."
