How We Feed Our Army.

That the American soldier in the field is better fed than the soldier of any other army in the world is shown by J. E. Jenks in an article in *Harper's Weekly*. The means of packing and transporting an army's food have been so greatly improved and modernized that it is now possible for our soldier to go into the field, says Mr. Jenks, "with the assurance that he will get his three meals a day served, for him, and that he will not be obliged to carry his food except on rare occasions of emergency, when he may be required to take not more than five days' rations. At such times he would be supplied with an 'emergency ration' consisting of 16 ounces of hard bread, 10 ounces of bacon, four ounces of pea meal, two ounces of coffee, roasted and ground, with four grains of saccharine (or one-half ounce of tea), salt and pepper, and a half-ounce of tobacco, a little more than 33 ounces in all." The camp cooking outfit used by our army in the field is an apparatus containing 35 separate utensils "To give the largest of European armies the American soldier's ration," says Mr. Jenks, "would cost \$500,000 a day."

A Little Learning.

"How do you do, professor? I can assure you I have profited greatly by the things I learned from you at college."
"Have you, really? You evidently know how to make a very little go a great ways, then."

A WONDERFUL INVENTION.—It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, '99. These wonderful combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used in connection with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in the various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling the combs. They positively sell on sight. Send for samples. Men's size 35c., ladies' 50c.—half price while we are introducing them. See Want Column of this paper. A TIMELY WORD.—The weaker the system, the more enervating the heat and the greater the danger of prostration. This is a truism—a proposition needing no argument. A word in favor of the systematic effects of Hood's Sarsaparilla is timely—it is a fact that is peculiar medicine strengthens and tones all the organs and functions and builds up the whole system. We believe you will do well to take Hood's during the heated period.

NO PITY SHOWN.—"For years fate was after me continuously," writes F. A. Guldredge, Yerbeno, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25c. at Green's drug store."

LIVER AND KIDNEYS

It is highly important that these organs should properly perform their functions. When they don't what lameness of the side and back, what yellowness of the skin, what constipation, bad taste in the mouth, sick headache, pimples and blotches, and loss of courage, tell the story. The great alterative and tonic.

HOOD'S SARSAPARILLA
Gives these organs vigor and tone for the proper performance of their functions, and cures all their ordinary ailments. Take it. 48-25

**TRUSTS GOING
OUT OF BUSINESS**

That is a head-line you don't see in the new columns of this paper. The trusts are not breaking up into the smaller concerns that were merged into them. The trusts are the greatest labor-saving invention yet made, and they will stay till they can be replaced by something better. There is only one trouble with the trusts. They enable men to produce more wealth with less waste of energy than was ever possible before but they take most of the wealth away from those who do the work and give it to those who do the owning of stocks and bonds. Suppose that we work for a living should decide to do the owning ourselves, and to run the trusts for the benefit of all.
