His Voice for War.

The President loses no opportunity to sound the toesin of war. In his Fourth of July speech he expressed the hope that Congress will provide for a navy equal to that of any other power. That is an indefinite proposition as well as a silly one and may be construed variously. Probably he meant, however, a navy equal to that which Great Britain has at present. But we can't see what good that would do for Great Britain has twice the naval strength of this country and much greater capacity for increasing. An attempt to increase our equipment, therefore, would be country had gone broke and we would be no nearer her equal then than now.

That is not the only reason why the proposition of the President is both unwise and unpatriotic. If it is his idea to increase the navy for the purpose of organizing wars of conquest his plan involves the subversion of every cherished tradition of the country. From the beginning of the government the policy of this country has been to avoid such complications. The Declaration of Independence forbids such ambitions and the constitution of the United States makes the government of subjects impossible. Therefore the creation of a big navy for that purpose is out that we desire to change our form of government. President ROOSEVELT will hardly submit that proposition to the determination of the people.

The President's plan involves one other result. Poverty among the people is the handmaid of tyranny in power. Ship building is the most expensive of all government luxuries. A first class battle ship costs any where from six to eight millions of dollars at present prices of material and labor and it becomes antiquated in five or six years. The building of a pavy equal to that of England at present would therefore, impoverish the people of this country through the medium of tax burdens, to such an extent that that within a few years they would be abject slaves to the money power and absolutely incapable of resisting or resenting usurpations of whatever character or description. Probably that is why the President wants to incur so vast and needless an expense.

Leads Them All.

Co. B, Fifth Reg., N. G. P. leads all the military organizations in the State Guard, Lynn, Mass., as follows : according to the recently published reports of the annual spring inspection. Capt. Taylor's crack organization made an average of 98.85 which was not surpassed by any other and equaled by only one, Capt. John W. Borland's Co. M. of the Sixteenth.

This high rank attained by B Co. is certainly a matter that all the boys may well be proud of. To stand highest in their ment would be an honor, but to stand highest in the Guard is an extraordinary

Clark Gives Out a Statement Con cerning Letters of Dr. Berry.

DENVER, Col., July 13 .- The Rev. Dr. Francis E. Clark, president of the United Society of Christian Endeavor, to-day re-plied to the statement made by Dr. Berry, of the Epworth League, that "union between the different young people's societies is impossible."
"If Dr. Berry's remarks were correctly

reported," said Dr. Clark, "he must have forgotten that such union has already been accomplished to a large degree. The Christian Endeavor society has already united the young people of twenty-seven denominations in this country alone and more than as many more in foreign countries. Several denominations that have distinct young people's societies of their own also unite in this inter-denominational name of their own denominational one.

Dr. Berry says the denominational young people's society is as noticeable as the denominational Sunday school is, not called by some other name to make it distinct from other Sunday schools, nor is it kept out of the fellowship of other Sunday schools Every Christian Endeavor society is a denominational society of the same de nomination as the church to which it belongs and just as loyal to the church as any can be. It simply adds broad-minded fellowship to its denominational loyalty. The Christian Endeavor is, in this respect, on exactly the same basis as the inter-denominational Sunday school movement.

"Dr. Berry says the Methodist and Baptist denominations would never consent to have their young people furnished with literature by outside persons. But will not the Methodist church allow its young people to read any other books or papers sides those its own denomination publishes? No one asked or expected Methodist young people to give up their denominational provisions. The Christian Endeavor society does not force its literature on anyone and does not exist to sell its

"JUST FILLS THE BILL."-One of the WATCHMAN'S younger read

"Your paper just fills the bill in my case and its weekly visit, with its news, is as and its weekly visit, with its news, is as eagerly looked for as a letter from home."

Just so, the WATCHMAN tries to be "a letter from home" to all Centre countians in distant parts. It is not sensational and it tries to publish the news as it is, not of commendation as these from our young friend at Lynn encourage us in the effort to keep the WATCHMAN the best country weekly paper published.

HERE'S A PROBLEM FOR YOU .- Our old friend W. A. Kerlin, of Rudd, Iowa, the gentleman, who has contributed so many interesting catch questions to the WATCHMAN, sends the following from Prof. E. E. White's complete arithmetic : I sold 50 Bu wheat for A and 60 Bu for B : receiving \$150.00 for both lots. A's wheat is worth 20 per cent more than B's. How much did each

Mr. Kerlin thinks very few of our mathematicians can solve it and even goes so far as to say that Prof. White's own solution is palpably wrong. Let us hear from some of you.

-The birthday anniversary of Mrs. Rebecca Burnside has for a number of years been marked as a very pleasant assembling of old friends. Although more quietly observd this year than usual it was sufficient to prove the fallacy of the old superstitution of ill luck attendant upon the number thirteen, for we would all wish to have been born on the thirteenth of July could we, when passing the eightieth milestone of our lives, be as sure of pleasant home surroundings and many loyal friends as is Mrs. Burnside. To good fortune alone, however, such envied possessions must not always be attributed, but to the personality which has won them and retained them for more years than an ordinary lifetime. When young and beautiful a friend does not count for as much as when we must be proud only of years and he grace with which we carry them.

BELLEFONTE SCHOOL TEACHERS ELECT-ED.-At a recent meeting of the Bellefonte school board all the old teachers were reelected as follows :

Principal, John D. Meyer; assistant principal, Miss Ella Levy; 2nd assistant, Bessie M. Craighead; senior grammar, Jonas E. Wagner; junior grammar, Chas. A. Heiss, Carrie A. Weaver and Mary Underwood; intermediate, Mildred Smith. Gertrude Taylor, Mae Taylor, Elizabeth Faxon, Anna McCaffrey, Jennie Longacre, Frances B. Elmore and Helen Crissman primary, Bessie H. A RIDE ON A MERRY-GO-ROUND .- During the Carnival in Bellefonte Mrs. Samuel Wallach, of New York, who is spending the summer with her sister, Mrs. Emil Joseph, in this place, lost a diamond brooch in the shape of a heart. As the jewel was valued at \$1,200 its disappearance caused quite a stir in the Joseph home, where every nook and cranny was searched. In fact all of the carpets were taken up, but to no purpose. A day or so later one of Mrs. Wallach's maids thought she saw the lost brooch on Nellie Lebkircher, a little girl who resides with her mother on west High street. An investigation later brought out the follow-

strange story : A little errand boy about the Joseph home says he found the gem in some rubbish in the vard and not dreaming of its value carried it about with him until one night during the Carnival he presented it to Nellie. Little she knew of its value and wore it about like a cheap pin until the next evening she traded it to the man at the merry-go-round for two rides. He thought it very pretty but that he didn't a general scramble to get into the business know its value is proven by the fact that he

used it to pin up his suspenders. When told of what had been in her posession Nellie promptly gave all the information possible about the missing brooch and it was found in the possession of the man to whom she had given it.

---Philipsburg is well satisfied with its Fourth of July celebration. That there was a big crowd in town is proven by the fact that the "Allepopper" railroad alone handled 6,225 people that day. The parade wasn't so great as it was good and the sports resulted as follows: J. K. Thompson's horse won first prize in the road race ; Thomas Nicholson's horse, of Morrisdale, second prize; Lee Hagerty's horse, third prize. In the special race Wierman's horse took first money ; Thomas Murphy's horse, of Morrisdale, second prize, Burton Erb's horse, third prize. THE NITTANY COUNTRY CLUB.-The property of the Nittany Rod and Gun club at Hecla Park was sold under the sheriff's hammer on Monday, July 6th, and was bought in by a party of Bellefonte and Tyrone gentlemen, who have already reorganized the club and will continue it as the Nittany Country club.

The old organization broke up not because of the financial straits of its members, but because the attempt to propagate quail on the preserve was not a success and the gunners in the club lost interest. The property was levied on on a \$3,000 judgment held by Mr. Vandegrift, of Pittsburg, and sold on a bid of \$2,075.00. To put it in new would cost in the neighborhood of \$5,000 or \$6,000. The club was started in 1897 with a membership of nearly one hundred and since that time at least \$60 .-

Last Friday evening the members of the new club met at the club house and after luncheon they assembled on the porch and organized with the following officers; Robert Rosenhower, of Spring creek, and President, J. L. Spangler : vice president. Mrs. Beaverstein, of Philadelphia, and his J. W. Gephart ; treasurer, Geo. R. Meek ; son Walker, Esq., L. T. Munson, Dr. J. repose of his soul had been celebrated in M. The club trout stream will probably be kept stocked, but little attention will be given to

> A TERRIFYING RUN AWAY .- On Tuesday evening Ethel and Hubert Gray and Gray Way, of near Waddle, drove up to Gray's church to attend a singing class which was to have been organized there that evening. The instructor, however, failing to appear they spent the evening at the Bricker bome on the old Jacob Grav farm near by. About ten o'clock they started home and were driving along very quietly when without the least warning or provocation the horse suddenly kicked in the dash board and started to run. The boys are both accustomed to horses and they held onto the lines with all their strength until some distance below Murray's Inn. Then they were going at such a pace that they decided to attempt to get out of the buggy.

> Miss Gray escaped without any serious injuries but the boys were not so fortunate. Young Way had a deep gash cut in his left shoulder and his leg, over which a wheel of the buggy passed, is so cut and bruised that he is practically out of business for the summer. Hubert Gray landed on his head and in consequence his ear was badly cut and the whole side of his face bruised. The horse continued its mad race past the residence of D. L. Meek, who on hearing the racket started were found up along the road and helped into his home where they were cared for until they were able to be moved to their homes near by.

THE BULLOCK SWING AND CHAIR CO. GROWING.-The Bullock Swing and Chair Co. has been making such rapid strides in the progress of its organization lately that it has been difficult for the public to keep up with it. After Mr. G. R. Spigelmyer joined efforts with L. C. Bullock in exploiting the Solid Comfort swing it became evident that the possibilities of the business were even beyond their well known ability as hustlers. Consequently they have decided to incorporate their business as a stock company and as the first step under the new plans they have taken Mr. W. L. Hicks, the well-known Tyrone attorney, into the firm.

Tyrone people have been especially impressed with the Bullock invention and think it such a good thing that there was when the opening was made. In fact there is a possibility of moving the manufactory to Tyrone.

THE FORTY-FIFTH TO REUNE.-Tomorrow there will be a great time at the home of Dr. Capt. Maj. W. H. Fry, at Pine Grove Mills, for the forty-second annual reunion of the Forty-fifth Reg. P. V. V. will be held there and the old fellows in blue will lay siege to bulwarks of good country provender and have a handto-mouth encounter with legions of turkeys and chickens.

W. H. Musser, J. G. Heberling and W. H. Fry are on the committee of arrangements and they will leave nothing undone that will add to the pleasure of their comrades.

Did you all hear of the riot in our town on Saturday?

Mrs. J. L. Holter visited over Sunday with relatives and friends at Oak Hall. Geo. Wister, after spending a week with his family, departed for Washington, D. C.,

on Tuesday. Miss Anna Holter departed on Wednesday for Oak Hall, where she will visit her sister for a few days.

Mrs. Sanders moved to Johnstown on Saturday, where her three sons are employed by the P. R. R. Co.

Miss Lizzie Cunningham and brother Henry, of Bellefonte, were the guests of Miss. Josephine Henderson over Sunday.

The members of the Catholic church held festival on Lauth's green last Saturday which netted them the nice sum of \$53.00. The Howard band furnished the music and drew a very large crowd.
