A WONDERFUL INVENTION.—It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, '99. These wonderful combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used in connection with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in the various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling the combs. They positively sell on sight. Send for samples. Men's size 35c., ladies' 50c.—half price while we are introducing them. See Want Column of this paper. **TRUSTS GOING OUT OF BUSINESS**  
That is a head-line you don't see in the new columns of this paper. The trusts are not breaking up into the smaller concerns that were merged into them. The trusts are the greatest labor-saving invention yet made, and they will stay till they can be replaced by something better.  
There is only one trouble with the trusts. They enable men to produce more wealth with less waste of energy than was ever possible before but they take most of the wealth away from those who do the work and give it to those who do the owning of stocks and bonds.  
Suppose that we who work for a living should decide to do the owning ourselves, and to run the trusts for the benefit of all.
