

Mrs. E. S. Bennet, who lives near Gum Stump, on the road to Snow Shoe, was bitten by a copperhead on Friday and has suffered intensely ever since. She was on her way to the field in which her husband was mowing grass when the reptile jumped and fastened its fangs in her hand. She had quite a little difficulty in freeing herself from it.

Beautiful Sea Shells Free.

Since coming South I have received numerous inquiries for sea shells, and am now pleased to say to you readers that I have been living on the seashore, and have made a fine collection of lovely shells from our own shore, the coral reefs and the West India Islands, and that I will send a dozen different kinds, no two alike, and a dozen scarlet sea peas to any one who sends a stamp to pay the postage. Any one is welcome to send, as I have plenty for all.

Books, Magazines, Etc.

The August *Everybody's*, in its unique cover, is before us. On the cover runs the legend, "Good Summer Reading," and a critical examination of the magazine confirms the legend. There is only one so-called heavy article in the magazine—"Pope Leo's Successor," by F. Marion Crawford. The article is entirely justified by its tremendous importance and its timeliness. The usual excellent fiction abounds. The second installment of the "Reign of Queen Isy" is another link in that chain of delightful stories. Justice Miles Forman contributes one of his artistic stories of social life, "The Conversion of Mr. Speck Muligan," by Hartley Davis, is a remarkable character study. "Don Goyo's Holy Remedy," by William Bullin, and "Masters of Arts," by O. Henry, are the best types of the work of these two well-known writers. All the "Little Stories of Real Life" are written by distinguished short story writers—Anne O'Hagan, Juliet Wilbur Tompkins, Kathryn Jarboe, Albert Bigelow Paine. "The Verdict of the Gallery," by James L. Ford, is in line with a theory of Mr. Ford's that the gallery is the surest critic of a play. The story of a pet spider, by W. R. Hopkins, is simply delightful. Charles E. Trevathan tells the life story of "Gunfire, a Kentucky Beauty, the Fleet-footed Queen of the Turf." "With the Profession," in the August *Everybody's*, was written by a master craftsman, and contains some of the best writing in the magazine. One feature in *Everybody's Magazine* is its illustrations. They are carefully selected and superbly reproduced. There are six full-page drawings of "Out-Door Sports for Women," by Anna Whelan Betts, besides nearly a hundred other photographs and drawings by well-known photographers and artists. You will rarely see so beautiful and delightful a magazine as this August number of *Everybody's*.

BROOM STOCK BOOMS

From the facts presented you will understand why stock of the International Broom Company, Manufacturers of the Twentieth Century Broom, is a gilt-edged investment, and why it is regarded as such by all who will not put their money into any enterprise unless they see great and speedy profits ahead. Owing to the quick growth and great progress of the International Broom Company the stock has been advanced to

60 CENTS A SHARE.

We would advise intending investors to avail themselves of this low price and purchase before another raise. With the various applications for sub-companies now in hand, there is no doubt that about the latter part of August the price will be advanced to

75 CENTS A SHARE.

The high price The New Broom gained in public favor is due to the Company's ability to produce solid proof of every statement.

Contract closed for sub-company in Chicago with largest broom manufacturer in the United States.

Contract closed for sub-company in New Haven, Conn.

Contract will be closed shortly for sub-company in Kansas City, Mass.

Contract will be closed shortly for sub-company in Fall River, Ont.

Sub-Company now manufacturing the New Broom in Ottawa, Mex.

All on royalties to the parent company—The Ottawa Company alone will pay the International Broom Company about \$25,000 a year in royalties.

20 Other Applications for Sub-Companies Now Pending.

WE ASSERT AND CAN PROVE

That the demand for the New Broom is as wide as the civilized world.

That it is the only sanitary broom made.

That the Brooklyn factory made in April, 1903, twice as many brooms as in March and four times as many as in February, and earned a profit of more than 25 per cent. over its operating expenses on its production.

That dealers, wholesale and retail, think so well of The New Broom that they are becoming stockholders in the Company.

If we could not prove all this, and more, we should not expect any careful and conservative investor to buy this stock.

As we are thoroughly familiar with the plans and projects of the Company and the possibilities of The New Broom we unhesitatingly declare that this stock should very soon pay a dividend in the par value and rapidly advance until it sells for \$2.00 or \$3.00 per share.

It is, therefore, advisable that intending investors who wish to invest in this proposition do so at an early date before the next advance in price is announced. Those who subscribe now will be benefited by the increase.

Intending investors can obtain full particulars and ample proof of the claims of this Company on application at our office.
