BROOM STOCK BOOMS

From the facts presented you will understand why stock of the International Broom Company, Manufacturers of the Twentieth Century Broom, is a gilt-edged investment, and why it is regarded as such by all who will not put their money into any enterprise unless they see great and speedy profits ahead. Owing to the quick growth and great progress of the International Broom Company the stock has been advanced to

60 CENTS A SHARE.

We would advise intending investors to avail themselves of this low price and purchase before another raise. With the various applications for sub-companies now in hand, there is no doubt that about the latter part of August the price will be advanced to

75 CENTS A SHARE.

The high place The New Broom gained in public favor is due to the Company's ability to produce solid proof of every statement.

Contract closed for sub-company in Chicago with largest broom manufacturer in the United States.

Contract closed for sub-company in New Haven, Conn. Contract will be closed shortly for sub-company in Kansas City. Contract will be closed shortly for sub-company in Fall River,

Contract will be closed shortly for sub-company in City of Sub-Company now manufacturing the New Broom in Ottawa,

All on royalties to the parent company—The Ottawa Company alone will pay the International Broom Company about \$25,000 a year in royalties.

> 20 Other Applications for Sub-Companies Now Pending.

WE ASSERT AND CAN PROVE

That the demand for the New Broom is as wide as the civilized

That it is the only sanitary broom made.

TAINTS, OILS, GLASS -

That the Brooklyn factory made in April, 1903, twice as many brooms as in March and four times as many as in February, and earned a profit of more than 25 per cent. over its operating expenses on

That dealers, wholesale and retail, think so well of The New Broom that they are becoming stockholders in the Company. If we could not prove all this, and more, we should not expect any careful and conservative investor to buy this stock.

As we are thoroughly familiar with the plans and projects of the Company and the possibilities of The New Broom we unhesitatingly declare that this stock should very soon pay a dividend in the par value and rapidly advance until it sells for \$2.00 or \$3.00 per share.

It is, therefore, advisable that intending investors who wish to investivate this proposition do so at an early date before the next advance in price is announced. Those who subscribe now will be benefited by the increase.

Intending investors can obtain full particulars and ample proof of the claims of this Company on application at our office.
