Dog Perished after Saving Family. Richard Jennings' family, in Elizabeth, N. J., was saved from being burned to death in their home at 3 o'clock Sunday morning by the barking of a faithful pet dog, whose carcass was afterward found in the ruins of the kitchen. The dog's barking even attracted the patrolman on post. Jennings' six-year-old son was rescued with difficulty by the firemen.

What To Drink.

The best time to drink water or other liquids in quantity is on rising, an hour and a half before luncheon and dinner, and half an hour before retiring. Generally speaking, people do not drink water enough, or if they do it is at the wrong time. Water may be taken at the close of a meal, but if many glasses are drunk with meals disorders of digestion may follow. In fact, the desire to drink water copiously at mealtime is often an evidence of indigestion. Not more than two glasses of water or other liquid should be taken at mealtime, and practically no water should be drunk when soup is served.

Hot water may be taken on rising and retiring for those who are sensitive to cold during the winter months. Hot water is soothing and quickly absorbed. It stimulates the secretion of bile, especially if the liver is repeatedly signalled by taking the water in sips. Cold water in the morning is to be preferred if there is constipation. Pure water washes waste products from the system, but impure water, although it may be rendered safe by boiling, is of little use in removing waste from the system. The protracted use of hot water internally is debilitating, as is also its too free use externally. Ice water, unless sipped slowly, retards digestion. Water that is refreshingly cool is best at all times, when there is no good excuse or reason for the use of hot water.

Milk may be taken with fish, fruit, eggs, and cereals, but not with meat; and it should not be used as a beverage when vegetables are eaten. It should be sipped after any food in the mouth is swallowed. Coffee goes with meat, as do also cereal coffee and water.

Tea may be taken with eggs and fish, but should not be taken with meat. The tannin of the tea hardens the meat fibre. Water goes with everything, but is best taken in quantity on an empty stomach. Dyspepsia often begins in childhood, and is due to allowing children to drink too freely with their meals, especially children who are convalescing from diseases which affect the mucous membranes, such as measles, scarlet fever, diphtheria, and whooping cough.—Youth's Companion.

"Them horses," said the old farmer, "is the best matched team I ever see. One is willin' to do all the work and t'other is willin' to let him."—Home Ideas.

PAINS IN THE BACK

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs. They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondency.

"I had pains in my back, could not sleep when I got up in the morning, felt worse than the night before. I began taking Hood's Sarsaparilla and now I can sleep and get up feeling rested and able to do my work. I attribute my cure entirely to Hood's Sarsaparilla." Mrs. J. N. PERRY, care H. S. TRUSTS GOING OUT OF BUSINESS

That is a head-line you don't see in the new columns of this paper. The trusts are not breaking up into the smaller concerns that were merged into them. The trusts are the greatest labor-saving invention yet made, and they will stay till they can be replaced by something better.

There is only one trouble with the trusts. They enable men to produce more wealth with less waste of energy than was ever possible before but they take most of the wealth away from those who do the work and give it to those who do the owning of stocks and bonds.

Suppose that we who work for a living should decide to do the owning ourselves, and to run the trusts for the benefit of all.
