At that point there was a pause, and the wonderful mare held the record for four years, after which the progress was somewhat slow-er; and it was not until 1884 that the horse bearing the outlandish name of Jay Eye See, imitating his owner's name reached 2:10. Of those that followed in the great work Nancy Hanks did the most. reducing the record time 31 seconds, from Sunol's 2:081 in 1891, to 2:04. That was in 1892. Those four seconds have stood between Nancy Hanks and the two-minute trotter for eleven years. Alix cut off only  $\frac{1}{2}$  of a second at Galesburg in 1894, and that performance stood for six years unsurpassed. Then came The Abbot, at Terre Haute, lowering it another half second, and Cresceus two years ago, bringing it down to 2:024 at Columbus. With one bound Lou Dillon now reached the mark which for so long has been the ideal.-Boston Post.

Lumber Train Jumps Track. One Man Will Die and Three Others were Badly injured in the Wreck.

LAURELTON, Pa., Sept. 1.-A disas-trons wreck occurred this afternoon on the Lewisburg & Buffalo Valley railroad, when an engine and four loaded cars dashed down a 50-foot embankment, fatally indown a 50-root emoantment, fatally in-juring George Dorman. Engineer Charles Cornelius, fireman Jack Cornelius and brakeman William Zimmerman, all of Lewisburg, were serionsly hurt. The accident occurred near Laurelton, about 18 miles from Lewisburg. The train was hauling a heavy load of timber and when near Laurelton on a heavy grade the brakes refused to work and the entire train started down the road at a great rate of speed. When traveling at more than 60 miles an hour it struck a sharp curve, and over the side of the hill went the entire train. The engine and cars were knocked into scrap iron and kindling wood. The members of the crew, seeing that it was impossible to hold the train, jumped from it as it sped along a at mile a minute.

## WE ASSERT AND CAN PROVE

That the demand for the New Broom is as wide as the civ world

That it is the only sanitary broom made. That the Brooklyn factory made in April, 1903, twice as brooms as in March and four times as many as in February, and ed a profit of more than 25 per cent. over its operating expense its production.

That dealers, wholesale and retail, think so well of The Broom that they are becoming stockholders in the Company.

If we could not prove all this, and more, we should not any careful and conservative investor to buy this stock.

As we are thoroughly familiar with the plans and projects Company and the possibilities of The New Broom we unhesita declare that this stock should very soon pay a dividend in the value and rapidly advance until it sells for \$2.00 or \$3.00 per

It is, therefore, advisable that intending investors who winvestivate this proposition do so at an early date before the net vance in price is announced. Those who subscribe now will be fited by the increase.

Intending investors can obtain full particulars and ample of the claims of this Company on application at our office.
