The report of the committee on systematic beneficence prepared by Judge James A. Beaver was read by Rev. E. H. Mateer and is a very elaborate and carefully prepared document. The churches through their representatives were urged to make strenuous efforts to reach the standard of five cents per week per member in gifts to benevolent objects. Several churches of the Presbytery now go far bevond this, notably the church of Huntingdon, which gives more than \$12 per member. Several others give from \$3 to \$7 per member.

The offering for missions was received and Presbytery adjourned Tuesday morn-

Rev. Ambrose M. Schmidt, of the eastern Synod of the Reformed church, United States, the pastor of St. John's Reformed church, was introduced and invited to sit as a corresponding member.

Reports of the commissioners to general ssembly-were heard from Commis Stewart, Johnston, Reed and McCarthy. These were full of interest and touched upon the subjects which excited most interest in the assembly, such as those of education, evangelism, home missions, revision, the Peoria plan of appointing committees, the proposed separation of colored and white churches in the south into different Presbyteries. The fidelity of the commissioners was then approved.

Mr. Jack and Mr. Townsend and Mr. Cross were appointed a committee on reso lutions.

Rev. S. S. Bergen reported for the com mittee on church erection and announced a handsome increase in the total gifts. The report on the whole was very encouraging. A telegram announcing the serious accident which befel Rev. Samuel Moody, was read and Rev. Drs. Mathers and Laurie were appointed to prepare and send an expression of the Presbytery's sympathy. Rev. The board is now calling for 214 missionaries for this year. Most favorable mention was made of the forward movement campaign which has just closed. The total contributions of the churches of the Presbytery during the past year, independent of the forward movement, amounts to more than \$13,000. Attatched Wages Will be Returned to Employes.

The following note was posted in the Altoona shops, Thursday: The Pennsylvania Railroad Company, has after a long contention in the courts and considerable expense to themselves, succeeded in defeating the collection agenceies of W. W. Rogers and G. O. Smith in the attachment of wages of its employes under the laws of West Virginia and Missouri and also secured a general release from these people, discharging the Railroad company from all further liability as garnishee in these cases. All money, therefore now in the hands of the company will be returned to the employes as fast as it can be gathered in through the different departments. This will necessarily take some days as the attachments began in Sept., 1901, and it will require time to get the necessary receipts and signatures to the

During the two years the wages of 1562 employes were tied up, the total sum of money aggregated over \$30,000. Miss Bryan's Chums Weakened at Last Minute in Kidnapping Plan.

LINCOLN, Oct.5.—A plot to kidnap William Homer Leavitt, who Saturday night married Miss Ruth Bryan, daughter of William Jennings Bryan, came to light to-day. The kidnapping was to have been done by the girls of the Delta Gamma society, of which Miss Bryan was a member, the object was to prevent or delay the wedding because the girls did not approve of Mr. Leavitt as husband for Miss Bryan.

At the last moment the nerve of the girls failed and the plot was abandoned. After the plot was formed the girls sought the aid of the men students at the university and got their assistance to what they were told was a college prank. In detail the plan was to inform Mr. Leavitt that Miss Bryan desired him to come to her home immediately and a carriage would

call at his hotel. Instead of driving to Fairview the carrage was to drive to a cave several miles in the country south of Lincoln. Trusting that Mr. Leavitt would not notice the deception in the dark when the cave was reached, the university boys were to over-come Leavitt and place him in the cave,

where he would be kept for the time being. It was said the plot was not abandoned until late in the afternoon of the wedding day, when some of the Delata Gamma girls would be too great for Miss Bryan.

Hon. W. S. Bissell. Death of a Former Postmaster General of the

United States. BUFFALO, N. Y., October 6.-Wilson S. Bissell, former Postmaster General, died at 10:15 to-night. At about noon he sank into a deep sleep and it was with difficulty that he was aroused at intervals during the afternoon for nourishment and medicine. The end came easily and peacefully. Dr. Dewitt H. Sherman, the physician who has been attending him during his recent illness, and members of the family were at his bedside.

Mr. Bissell suffered from complications thought to be akin to Bright's disease, but not well understood. On June 13th, Mr. Bissell's trouble became so serious that he was sent to New York to consult specialists. It was thought an operation would be performed, but after an examination the specialists decided that it would be better for the patient first to rebuild his health. He was sent to his summer home, Bar Harbor, where he spent most of the time there in bed and it was realized that his case was hopeless. In September he returned to Buffalo. Some important legal matters in which he was interested were disposed of and Mr. Bissell was again forced to bed. He suffered no pain, sleeping most of the

When awake his mind was always clear, and he conversed with members of the family and the physician. During the latter part of his illness, numerous messages of inquiry were received from former President Cleveland and members of the cabinet in which Mr. Bissell served as Postmaster General.

THE UNIVERSITY EXTENSION MOVE-MENT MOVING .- From present indications it appears as if the University Extension movement is going to meet with more success in Bellefonte than was expected.

The committee having charge of the lectures next February desire to secure, as soon as possible, the names of one hundred and fifty persons who will subscribe to course tickets. As soon as this number have signified their purpose the immediate expense of the lecturer will have been met, and it will then be possible to make arrangements to admit the oldest scholars of the High school and the Academy at half-

No doubt many more than a hundred and fifty will eventually desire to avail themselves of the quite unusual privilege of such a course of lectures, but it will be a mark of public spirit for at least one hundred and fifty of such minded persons to hand in their names to the editors of any of the papers of the town, who are all members of the committee, and by whom the list will be published. It appears that the engagement which this committee, has made with Mr. Hosbrough, of the English University Extension society, who is to be in this country three months only, completes his schedule, and we are fortunate to be among those who have succeeded in securing him.

The course consists of six lectures on the Elizabethan Period of English History. Tickets are \$2.00 for the course.

At the beginning of the list of one hundred and fifty people we print the names of the men who have signed the preliminary papers. Others are requested to send word of their intention of adding their names to this list to make up the one hundred and fifty by telephone or otherwise to any of the editors of the town.
