SAVED TWO FROM DEATH.—“Our little daughter had an almost fatal attack of whooping cough and bronchitis,” writes Mrs. W. K. Haviland, of Armonk, N. Y., “but, when all other remedies failed, we saved her life with Dr. King’s New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and to-day she is perfectly well.” Desperate throat and lung diseases yield to Dr. King’s New Discovery, as do other medicine on earth. Infalible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by Green’s Pharmacy. Trial bottles free.

Increase in Candy Habit.

More Than \$100,000,000 Worth of Confectionary Consumed Annually.

Candy costs the people of these United States something more than \$100,000,000 a year. For what they spend on confectionary they could build and equip a fleet of battleships. The new King Edward VII, for instance, of which Great Britain is ordinarily proud, as the biggest battleship afloat, cost a little less than \$3,000,000. They could pay the salaries of president and vice president, and all the cabinet, of senators and representatives and supreme court judges, and of a small army of underlings, as well, for what they spend on sweets. If they could be induced to swear off candy for a year and devote the money saved to public purposes, they could carry out some pretty extensive and needed public improvements, build a subway or two, or a few tunnels or bridges. Also they would probably save money on doctor’s bills.

To be sure it would be hard on the doctors, and on the dentists, and others of their ilk, who earn their livings at the expense of the pains of humanity. Also it would be hard on thousands and tens of thousands of candy factories throughout the country. But it might be a good thing for the national dyspepsia, which is notorious.

There is actually \$100,000,000 worth of candy made and sold in the home market every year. Practically none is exported; very little imported. America makes the best candy in the world. Americans abroad know that to their sorrow. They try in vain to buy on the Paris boulevards or in the London shops such candy as they have been accustomed to getting on Broadway or Fifth avenue, or the main thoroughfares of Washington or Philadelphia or San Francisco—or any American city of any size.

New York alone makes \$20,000,000 worth or one fifth of the nation’s annual candy supply. She has about 900 candy factories, working full blast, winter and summer. Pennsylvania, Massachusetts and Illinois, after New York, contribute most largely to the yearly consumption. And this \$100,000,000 does not represent any particular high water mark in candy eating. The quantity eaten is continually increasing, the demand is becoming annually greater and the supply only just keeps pace with it. It is not a thing that is made when sugar, perhaps, is cheap, and held until the market rises. There is no possibility of manufacture at one season to meet the demands of another.

Woman Held in \$10,000 Bail.

Mrs. Marie L. Johnson, wife of a Fifth avenue dentist, of New York who is alleged to have committed a series of embezzlements aggregating \$33,000, was held in \$10,000 bail for examination. The hearing was set for Tuesday afternoon of last week. The specific charge against Mrs. Johnson is the larceny of \$2,000 from the funds of the United States Playing Card company of Cincinnati, and counsel for the company told the magistrate that the embezzlement amounted to \$33,000.

Boy Punished, Leaps from Room; Dies.

Locked in a room by his father as a punishment, George Visnefski, of Mt. Carmel, a 13 year old boy, last week jumped from a second story window and ran a rusty nail into his foot. Blood poison ensued and the boy died Saturday night in the Minessers hospital.

TRUSTS GOING OUT OF BUSINESS

That is a head-line you don’t see in the new columns of this paper. The trusts are not breaking up into the smaller concerns that were merged into them. The trusts are the greatest labor-saving invention yet made, and they will stay till they can be replaced by something better.

There is only one trouble with the trusts. They enable men to produce more wealth with less waste of energy than was ever possible before but they take most of the wealth away from those who do the work and give it to those who do the owning of stocks and bonds. Suppose that we who work for a living should decide to do the owning ourselves, and to run the trusts for the benefit of all.
