A DEATH FROM SMALL-POX AT STATE COLLEGE.-Mrs. Martha Knopf, whose illness with small pox was announced in these columns last week, died at State College early Tuesday morning. She was the woman who had gone over to Oak Hall three weeks ago to visit her sister whose child was suffering with the loathesome disease. though at that time it was pronounced chicken pox. Upon her return home she became ill and Dr. Glenn was called in He diagnosed the case as small pox and had her removed to the pest house, a deserted farm house on the Holmes farm about two miles north of the College. As soon as pos--Rheumatic fever has confined sible Miss Maud Douglas, an immune nurse from Jersey Shore, was secured and put in charge, while Samuel Knopf, the woman's husband, slept in the barn nearby to attend to the wants of the patient and the

Miss Douglass is an experienced small pox nurse, having had charge of thirtyseven cases in Jersey Shore and three in Lock Haven, since her own illness with the disease two years ago. Despite the most careful treatment Mrs. Knopf grew so bad that the pox broke in her throat, gradually causing death by suffocation.

She was a woman of about 40 years of age and is survived by her husband and one son, Charles, who is working at Kipple.

The saddest part of the whole affair, but a course that is altogether necessary in such cases, was her burial on Tuesday afternoon. The people of that vicinity were so frightened that none of them would go near the place. The undertakers at Lemont and Pine Grove were both too busy to conduct the funeral and Dr. Glenn was put to to find some one who would do it. Dr. Geo. F. Harris, who is the state quarantine officer for this district, had been in consultation with Dr. Glenn about the case and finally they prevailed on undertaker Harris, of Bellefonte, to help them out.

Accordingly he went up to the College with a specially prepared casket which his men from here took to the pest house. There the nurse had the woman wrapped in several formaldehyde sheets and placed her in the casket: immediately securing the lid; which dropped into a groove filled with a raw solution of carbolic acid. She was then placed in the burial wagon in which a formaldehyde lamp had been lighted and the sad little cortege proceeded over the back road to the Pine Hall cemetery. The only persons were Mr. Harris' men and Mr. Knopf, on the burial wagon, and Mr. Stronge, who had the disease while in the army. He rode with Mr. Harris in a buggy ahead. There was no minister, no service at the grave.

When the cemetery was reach the grave diggers, who had not finished their work, fled and it was some time before they could be prevailed upon to return and make the grave long enough for the box.

THE HISTORY OF THE CASE

Since the outbreak of small pox at Oak Hall there have been numerous stories -Dan Nolan, a son of Jerre Nolan, of afloat as to where it came from. After prepared to make the following statement of it, which may be regarded as nearly the facts.

Some time ago the husband and child of street, gave a progressive "Flinch" party Mrs. Mollie Knopf Mayor died in Pittsburg and were buried in the same coffin. Nothing definite was ever made known as to the cause of their death. Alfred Knopf, of Oak Hall; John Carrigan and Samuel Knopf, of State College, went out to Pittsburg to attend the funeral. Several weeks after their return the widow, Mrs. Mollie Mayor, with her four remaining children, came to Oak Hall on a visit. Shortly after their arrival one of these children became ill and Dr. Kidder, of Boalsburg, was called. He pronounced it chicken pox. The members of the Knopf household intermingled with others in the community and no precautions, whatever, were taken until the case of Mrs. Samuel Knopf at State College was discovered. Then the College township school board, which is the board of health in the townships, took the matter up and as Dr. Kidder had himself become ill they asked Dr. Glenn to go over and diagnose - S. H. Williams has purchased the the Oak Hall cases. He did so and pronounced them small pox; urging the strictin Crider's stone building and will est quarantine at once. It appears that the ness of the situation and resented outside interference in what they considered their own affairs.

The condition grew so bad that th schools in the neighborhood were closed ally told to go about his own business, but after his threat to put a guard on the house there was some attention paid to the

OAK HALL HAS A SECOND CASE. On Monday Mrs. Samuel Bible, who lives across the road from the Knopfs, was taken ill and Dr. Dale, of Lemont, was summoned. He pronounced her case small-pox at once and instituted proper quarantine. The development of the Bible case brought more determined action on the part of the local health authorities and on Wednesday the public road leading in front of the Knopf and Bible homes was closed up. Within the enclosure now stands the two infected homes, the village blacksmith shop, the school house that has been closed, and a small house which Jasper Rishel and his family deserted on Wednesday. They moved down to Mrs.

E. B. Peters', who is Mrs. Rishel's mother While the physicians in charge of the two cases there now are doing their utmost to prevent further infection there is no tellng where the trouble will end as the Mayor children were allowed to play with the other school children even when they were scaling off, as it was said they had the large number of new men in the team only chicken-pox, and the period during and their light weight.

which other cases might develop from this infection has two weeks to run yet.

BELLEFONTE HAS A CASE. As a result of the careless manner in which the case at Oak Hall was handled there is a case in Bellefonte. Two weeks ago last Sunday William Knopf, who lives on Penn street, between High and Howard. went up to Oak Hall to see his brother and sister. He returned home and nothing developed until Tuesday night of last week. He had gone out to Six Mile run to work the case. He was suspicious of it, but as nothing had developed he was not warranted in taking any action until last Saturday, when the rash appeared. Meanwhile he bad cautioned Mrs. Knopf against commuwas discovered he put up the quarantine member of the family beside her husband so she is nursing him.

The case is a mild one and the patient is recovering as rapidly as could be hoped for. Owing to its early discovery and the suspicion of the doctor that it might turn out course with any of the townspeople from infection is very slight.

FAIR WEATHER FOR THE FAIR .- It is different this week. Instead of cold, dreary

rains it is bright, gladsome sunshine and great crowds have been enjoying the reopened Centre county fair. When it was postponed last week there were many who were skeptical as to its proving much of a success, and while it must be admitted that there have not been as many people in attendance as would have been here last week, had the weather been propitions, yet the crowds have been large enough to justiand that evening took a chill. The next fy the postponement and the opportunity afternoon Dr. Klump was called to attend has been afforded the Association of showing to the people of Centre county how really

nice the fair is. The many attractions were noted in these columns last week. They are all on the ground yet; some of them have been nicating with outsiders and when the rash augmented with new features. Especially is this the case in the main exposition cards immediately. Mrs. Knopf is the only building, where a number of changes have been made that have added greatly to its attractiveness.

-Gilbert Addams Beaver, eldest son of Gen. James A. Beaver, of this place, met with a serious accident in New York city on Saturday afternoon. While the outcome of it was not nearly as bad as might have been, he was in a precarious condition for several days.

Mr. Beaver is located in New York city, where he is doing Y. M. C. A. work. On Saturday afternoon he was out bicycle riding and in passing through a crowded street he undertook to ride between a dray and a trolley car, with the result that he was thrown heavily to the pavement; sustaining a concussion of the brain, that at first was feared was a fracture of the skull.

Gen. and Mrs. Beaver were in Philadelphia, where the General is holding court, and they went over to New York at once. Latest reports are to the effect that the patient is recovering rapidly.

Two Interesting Marriage Licenses -It is seldom that two such extraordinary events occur in the marriage license business as came before clerk A. G. Archey in the court house yesterday.

The first unusual incident was the appearance of George Armstrong Jacobs, of State College, who is 77 years old and took out a license to marry Catharine F. McElwain, of Howard, who is 67.

The other case was one in which a woman stopped in the Prothonotary's office and lifted a decree in divorce that had just

PHILIPSBURG HAS A STABBING AFFAIR. -John Erb, at one time proprietor of the Eagle hotel in Philipsburg, and later the proprietor of a restaurant, made a murderous assault on Thomas Cole, commonly known as "Bummy," in that place last Tuesday night.

The exact circumstances attending the affray are hard to get at, but from stories on the street it appears that Erb and Cole had been bad friends for some time. Early in the evening they met and had some words, then Erb followed his victim to the vicinity of the American hotel, where he attacked him with a knife; inflicting a number of wounds and seriously injuring Cole, who was taken to the hospital and is in a precarious condition.

Erb gave himself up to the police next norning and secured a bondsman in the person of Capt. D. F. Copelin, for his appearance any time he is wanted.

The Philipsburg authorities telephoned for district attorney Spangler to make an investigation of the case as no information has been made against Erb. The district attorney went over to Philipsburg at noon on Wednesday and had not returned up to the time of our going to press.
