Political Leader a Suicide

Samuel A. Steei, of Huntingdon, Sends Bullet Inte

HUNTINGDON, Pa., Dec. 20.-With a bullet in his brain. Samuel A. Steel, the recognized Republican leader in this county, was found dead in his room to-day. For several years he has been troubled with a serious affection of the throat, and this is believed to have led to his act of self-destruction. The bullet which caused death had entered at the mouth. He was

60 years old. The dead man was ex-prothonotary of Huntingdon county, and at the time of his death was deputy prothonotary. As delegate from this county he was a familiar figure at Republican state conventions for 30 or more years, and at the time of his death he was considered the most likely candidate of his party for the sena-torial nomination in the Thirty-third district, composed of Huntingdon and Franklin counties, to succeed Alexander Stew-

art, of Chambersburg.

During the civil war Mr. Steel served in the Federal army in its operations about Vicksburg. Afterward he served in many positions of trust, having been clerk of the county commissioners, prothonotary for six years, deputy prothonotary and a member of the board of managers of the Pennsylvania industrial reformatory, having been appointed to that position by Governor Stone in 1902.

An effort is being made to have a postoffice established at Snydertown. A petition has been circulated and sent in to the Department asking for an office. The community has long felt the need of an office and especially now with the location of the Mc-Nitt lumber operations here there is a large amount of mail handled at this point and a postoffice will be a great convenience.

Messrs. S Reed & Son are building a large shed over their coal bins. They have quite an extensive trade in coal. During the coal strike last season they were so fortunate as to have quite a stock of coal on hand. They were offered big prices for it by dealers around; some from quite a distance, but they kept the coal and sold it to their trade at very reasonable prices and their customers have not forgotten this.

We spent a very pleasant hour one day this week at Howard in the office of Col. John A. Woodward, state commissioner of agriculture for the St. Louis exposition. He has fitted up very pleasant rooms near the R. R. station and is hard at work with the help of a couple of assistants in getting up a display that shall be a credit to the agricultural interests of this great State. We had but a faint conception of the work involved in securing and arranging such an exhibit until Mr. Woodward kindly showed what had already been done and what was yet to do. The work is made harder by the fact that Mr. Woodward was not appointed until late in the season and many specimens are hard to get now. This is an opportunity for any one having choice grain or any farm product of a superior kind to have it placed on exhibition in the greatest of World's Expositions, without cost to the exhibitor and Col. Woodward would be very glad to correspond with any one who may have any article which may be available.
