The Walker township school board met in regular session on Saturday afternoon Jan. 9. A number of the teachers were present at the meeting and report the schools doing good work. The High school at Hublersburg, especially, is doing nicely and has made progress. The school at Snydertown, taught by Miss Helen J. Beck, has increased in members very materially, owing to the McNitt mill bringing in a number of families and new numbers near 50. The grammar school at Hublersburg, taught by Mr. Harry Yearich, is proving a success, and the interest in school work is increasing.

After doing some leveling in and about town they took the back trail and are still in the vicinity of Half-moon run, evidently working on a higher grade to old Tussey's base than the Warford survey made in the fifties for the Tyrone and Lewisburg railroad.

Spring Mills.

From bursted water pipes and frozen pumps, Wagner Duck, plumber and roofer, is kept very busy. His shop work he is obliged to postpone till night.

Folks are already talking about moving in the spring. The fact is we are short in dwellings and some families are mightily puzzled where to move inless, like Aladdin's palace, a dozen or more buildings spring up as if by magic.

The Iceland weather we have been enjoying the past week, has moderated very considerably, and in consequence sleighing and sledging are having full sway. That venerable patriarch, the oldest inhabitant in this community, thinks he never experienced such frigid zone weather as we had on Tuesday last week. When the mercury sinks to 28 or 30 degrees below the cipher, we are certainly having zero weather with a vengeance.

The fore part of last week the creamery here received an order for 26 dressed hogs to be forwarded at once. Hands being scarce the employees of the creamery were called into requisition. Even the president of the company was forced to relinquish his easy chair in the office and display his skill in butchering. Of course he would rather have been excused, but the shipment could not be delayed, so there was no alternative, and to use a common expression he "pitched in"—The hogs were forwarded on time.

Why is not the long hill along the residence of J. W. Evans in Georges valley put in better repair? Why is it left so lop-sided that it is difficult to drive without upsetting? The supervisor could level the road quite easily and with very little labor. Of course, at present the road is worse than usual, the snow making one side higher and it is simply dangerous to travel. The letter carrier on this route should enter a complaint. This would compel the supervisor to properly discharge his duties.
