Quay Goes to Florida.

Senior Senator Left Washington On Wednesday In Quest of Health.

WASHINGTON, Jan. 18.—Senator Quay left here on Wednesday for Florida. He is to make another effort to regain his health, and he has announced that he will not return until he has been freed from his present attack of indigestion.

The Senator is anxious to get away, and said last night that he would leave Wednesday morning were it not for the fact that he has an appointment with the President on Tuesday. He will leave as soon as he gets through his business at the White House.

Inasmuch as the Senator is going away for an indefinite stay, it is inferred that he will try to settle with the President the appointments to be made in Pennsylvania, chief of which is the vacant appraisership at Philadelphia.

Senator Quay is absolutely satisfied with the political situation in Pennsylvania and has really nothing to keep him in Washington. It is probable he will not return until next spring unless he is called back to renew the effort to pass a statehood bill through the Senate. Even then he will be guided by consideration for his health.

The Senator realizes that he is in bad physical condition, and that the utmost care is needed to prolong his life. This fact was impressed upon him during his visit to Philadelphia a few days ago. While there he consulted a specialist, who told him that the "best course" was his only hope, and ordered a dropping of all work and worry.

KILLED WIFE AND HIMSELF

Well-Known Philadelphia Chemist Commits Double Crime.

Philadelphia, Jan. 16.—Rendered insane by illness, Edward K. Landis, a widely known expert chemist, shot and killed his wife, Emma, and then ended his own life with the same weapon.

The tragedy was enacted in the Landis residence, 4025 Spruce street. Mr. Landis had been a sufferer from asthma for many years. Two months ago he was compelled to give up his laboratory work and had been confined to his bed for the past two weeks. Mrs. Landis, with her sister, Mrs. H. W. Potts, and Mrs. Patton, a dressmaker, were in the room adjoining the apartment occupied by Mr. Landis. The sick man called to his wife, complaining that the ringing of the door bell annoyed him. She entered his room and had barely stepped across the doorway when Mr. Landis raised himself in bed and, reaching under the pillow, drew forth a revolver. He fired upon his wife, the bullet taking effect in her breast. She screamed and fled to the adjoining room, her husband following. Mrs. Potts and Mrs. Patton attempted to disarm the frenzied man, but he brushed them aside. Grasping Mrs. Landis by the hair, he pulled her forcibly backward and shot her through the temple. The woman died instantly, and Mr. Landis, brandishing the smoking revolver, returned to his room without bestowing a further glance on his victims. A moment later another report rang out, and the two women ran to the sick man's apartment, to find him lying across the bed, with a bullet hole in his head.

WOMEN DENOUNCE MORMONISM

Mass Meeting Petitions U. S. Senate to Probe Charges Against Smoot.

Philadelphia, Jan. 18.—At a mass meeting held under the auspices of the leading women's clubs of this city at Horticultural Hall, resolutions were adopted denouncing polygamy and Mormonism, and petitioning the United States senate to investigate the charges made against Senator Reed Smoot. If the charges are found to be true, the resolutions ask that he be expelled from that body. A half score of representatives of the Mormon church were present listening to the bitter denunciation of Mormonism. At the conclusion of the meeting they handed around literature.

The meeting was presided over by Dr. Joseph Swain, president of Swarthmore College, an institution dominated by the Quakers. Mrs. Frederick Schoff, of this city, president of the National Congress of Mothers, one of the speakers, explained why the women of the country had taken up the fight against Senator Smoot, and said that 400,000 women are already engaged in the movement. "We have engaged Representative Taylor as our legal adviser," she said, "and I was assured in Washington that had we women not done so, no objections would have been made to seating Mr. Smoot."

Among the other speakers were Rev. Charles Wood, of the Second Presbyterian Church, this city; Dr. Sarah J. Elliott, of New York city, a physician, who spent seven years in Utah villages and Salt Lake City, and A. T. Schroeder, also of New York.

CANAL TREATY IN SENATE

Heated Controversy Followed Favorable Report From Committee.

Washington, Jan. 19.—While the Panama canal question has been before the senate on general principles during the greater part of the present session, the Panama canal treaty was not reported until yesterday. It had no sooner been reported favorably to the senate in executive session than it became the subject of heated controversy. Senator Cullom made the report in favor of the treaty, whereupon Senator Morgan, as a member of the committee, at once entered a formal protest against the acceptance of the report, on the ground that when the committee decided to report the treaty an amendment was still under consideration, and that he had not had time to present an amendment looking to the striking out of article 22 of the treaty, in which Panama renounces her right to participation in the earnings of the canal when built.

Senator Allison suggested that Democratic senators could offer amendments at any stage of the proceedings in the senate, and assured them that all such amendments would have fair and deliberate consideration. No action was taken on Senator Morgan's resolution or Senator Morgan's protest, but Mr. Cullom gave notice that he would ask the senate to take up the treaty tomorrow, and until disposed of to consider it from day to day to the exclusion of other business.

Stray Torpedo Found On Beach.

Newport News, Va., Jan. 18.—A torpedo, 14 feet long, with propeller, cap and all attachments ready for firing, was picked up on the beach of the reservation of Old Point Comfort by Captain John Burns, of the steam launch Hygiea. Where the torpedo came from is a mystery, but it is supposed that it foams overboard from one of the torpedo boats which have been maneuvering hereabouts for some time. How long it had been afloat, or how near it had come to blowing up some of the many steamships plying in Hampton Roads, are matters of conjecture.

Cripple Fatally Trampled.

A man at work in the basement is missing and is believed to have been burned to death.

ALL DANGER OF WAR ENDED

At Least London Confirms Belief That Tension is Greatly Relaxed.

London, Jan. 19.—The czar in receiving the ministers in state at Tsarko-Selo, on Sunday, declared, says the Daily Mail's St. Petersburg correspondent, that all danger of a conflict was now ended.

All the special cablegrams from St. Petersburg published in this morning's papers confirm the belief that the tension has been greatly relaxed; but, according to the correspondent of the Paris edition of the New York Herald, there is a strong feeling in official quarters in St. Petersburg against the representatives of both Great Britain and the United States.

The special cablegram from Tokio, on the other hand, still reflects the belligerent feeling of the Japanese press and people and suspicion of the Russian assurances.

The Standard's Tokio correspondent says that another conference of the elder statesmen is about to be summoned.

The Daily Mail's Pekin correspondent reports the arrival in Manchuria by railway of four more Russian regiments and thinks that Russia intends to wait until she has 300,000 men available.

Russia Now Talking Peace.

St. Petersburg, Jan. 18.—Emperor Nicholas' pacific utterances made during the New Year's reception at the winter palace in St. Petersburg, Thursday last, together with the favorable comments of the foreign press, which have been reproduced here, have created a splendid impression and have also had a good effect in perceptibly diminishing the war talk in army and navy circles, which were quick to take their cue from the assurances coming from the throne.

The newspapers, which have been discussing the Far Eastern situation with considerable freedom, have grown almost silent, and what they do say is commendatory of the improved prospects of peace.

The czar continues to talk peace, and the dowager zarina, in conversation, remarked: "War is a horrible thing. There will not be war."

That the two countries are not so far apart may be fairly inferred from the following statement made by Mr. Kurino, the Japanese minister: "War now would only be disastrous to both countries. Owing to the geographical situation an armed conflict would result in a great drain of the men and treasure of both Japan and Russia without being decisive. Besides I believe it would not be worth while to go to war on the questions still in dispute."

War Must Be Avoided.

London, Jan. 18.—The Russian correspondents of the Times hear that a special council presided over by the czar arrived at the conclusion that war should be avoided. The inference, they say, is that the speech of Premier Balfour at Manchester, January 11, in which he said: "No one can contemplate hostilities between two great civilized countries without feelings of misgiving and of depression," declaring that Great Britain would carry out to the fullest extent all her treaty obligations, greatly influences this decision.

It is reported that as a result of this conclusion Russia intends to open ports in Manchuria, withdraw her pretensions with regard to Corea, and possibly even not retain Port Arthur as a military stronghold.

Big Coal Breaker Burned.

Scranton, Pa., Jan. 18.—The Olyphant breaker and washery of the Delaware and Hudson company, at Olyphant, were totally destroyed by a fire which broke out in the engine room of the breaker. A hot journal is supposed to have started the blaze. The breaker is one of the largest and most modern in the state, having a capacity of 2200 tons a day. It prepared coal from six openings. Upwards of 2500 hands will be thrown idle for two months or more. The company's estimate of the direct loss to breaker and washery is \$110,000.

B. Frank Hazel, who lives on the Brockerhoff farm below town, entertained the members of the Bellefonte Lutheran church right royally Wednesday evening. In addition to coming up to town with big sleds to haul them to his home he gave them a splendid oyster supper and the liberty of the house for an evening of amusement—and all for 25cts. The money, of course, was for the church.

THE COUNTY DIRECTORS IN SESSION HERE.—The extremely bad weather is probably responsible for the fact that only about one half of the two hundred and seven public school directors of Centre county arrived here yesterday morning to attend the annual meeting of their association, which convened that morning and will continue in session to-day.

All of the lecturers who were expected are here and the program is being carried out as published below, but the question uppermost in most minds is as to the construction to be placed upon the act of Assembly providing for such meetings. To say the least, the law seems ambiguous. According to it the directors are allowed mileage and nothing else, though some construe it to mean "mileage" and "expenses."

There is another provision that directs the county treasurer to pay \$1 from the treasury for each member in attendance, though not to exceed \$100 in the aggregate. This money is clearly to be used in defraying the expenses of the meeting itself.

When, but it's cold. The mercury has been down to 22° below 0, the roads are all blocked up and there has been no trains for a week. The mail is carried to and from State College on runners.

Surveyors are still northwest of our town surveying through the "big hollow" and walking eastward. They lodge at the St. Elmo every night, but have guarded their secret jealously up to this time.

Monday, the 18th, was a red letter day at the home of Mr. and Mrs. Pierce Gray, at Marengo. It was the fiftieth anniversary of Mr. Gray's birth and Mrs. Gray managed to have an old-fashioned turkey dinner that her husband knew nothing about until more than a hundred friends and neighbors gathered to partake of it. Such a fine time as they all had is something to be remembered through life.

The Lutheran church held its annual council at the parsonage on Monday evening. The auditing of the accounts showed a balance of \$40 in the treasury, after the payment of all bills. Krebs and John Musser were named for the eldership now held by Mr. Musser. A. J. Tate and Daniel Martz to succeed A. J. Fortney as deacon. The election will be made by the congregation on the last Sunday in February.

The continuous gale that kept up on Friday and Saturday of last week drifted the roads fence-high full of snow. As a result there was a very small attendance at any of the churches on Sunday. Rev. Black was on time at Bethel church, but Rev. Heckman could not get through from State College to keep his appointment at Meek's. Rev. Aikens was due at Gatsburg at 10 a. m., but could not get there. Rev. Walker Hamish had an experience he does not care to repeat. He left his home at Post Royal Saturday morning to drive via Lewistown and Mifflon to fill his appointment here and at Lemont on Sunday. The roads being impassable he was obliged to stop for the night at the old Ruble farm. Sunday he resumed his journey only to stick in a big drift where his horse broke the single track and walked out of the harness. Jimmy Swab and a gang of shovers dug him out and sent him on to J. G. Gilliland's home and he was too late for his evening service at Lemont. He will move to Lemont as soon as possible.
