Bellefonte, Pa., Februrary II. 1904.

THE TWO VILLAGES. Above the river on the hill, Lieth a village, white and still, While all around the forest trees Shiver and whisper with the breeze; Over it sailing shadows go Of soaring hawk and screaming crow, And mountain grasses, low and sweet,

Grow in the middle of the street...

Beside the river, 'neath the hill. Another village lieth still: There I see, on a cloudy night. The twinkling stars of household bright. Fires that gleam from the smithy's door, Mists that curl from the river's shore, But in the road no grasses grow, No wheels that hasten to and fro.

In that village upon the hill Never a sound of smith or mill: Houses thatched with grass or flowers Bloom and fade with changing hours; Doors of marble always shut, Closing entrance to hall or hut-Silent at rest, they lie in sleep. Never again to sow or resp; Never to dream, to mourn or sigh; Done is their task here, quiet they lie.

In that village 'neath the hill, When the night is starry and still. Many a weary soul in prayer Looks to that other village there, And weeping, sighing, longs to go Up to that home from this below; Longs to rest from this world of strife, Through the Redeemer to be with wife, May to that prayer this answer fall, "Patience, that village shall hold you all." -Rose Terry Cooke.

Facts About Japan

Enterprise and Progress of the "Yankees of the East."

Japan, with her 47,000,000 population, has 4,302,623 in her elementary schools, or 91 in every 1,000, while Russia, with 130,-000,000 population, has only 4.193,594 or 32 in every 1,000, writes Walter J. Ballard in the New York Sun. Similar disproportion in favor of Japan applies to secondary schools and universities.

Japan has 4,852 postoffices, equal to one postoffice for each 9,700 people; Russia has only 6,029, or one for each 21,500 peo-

Japan bought of us last year \$21,000,000 worth of goods, while Russia was our customer for only \$17,000,000.

Japan has a commercial marine of 734, 413 tons, against Russia's 633,822 tons. That is, 100,591 tons more for 83,000,000 less people.

Japan has about the same area as Montana, with more than half as many people as there are in the whole United States. Japan raises sufficient agricultural pred-

ucts to feed her own people and leave a good quantity for export. Japan had a foreign commerce in 1896 of \$145,000,000, while in 1903 it was \$313,-

000,000, more than 100 per cent increase in Japan has gold, silver, copper, lead, tin and mercury in abundance, besides coal

Japan has every kind of manufacturing-

8,000 factories of various kinds. Japan has railroads, girdinoning the empire, electric light plants in nearly all the cities, and telegraph lines all over the country.

Japan did not have a single battleship in 1895, while now she has six of the firstclass and many war vessels of inferior

Japan has facilities for making everything necessary for the construction and equipment of railroads except locomo-

Japan rules her railroads with native labor entirely, from the general superintendent down, including the train dispatch-

Japan has over 3,000 miles of railway and 1500 miles of telegraph lines in operation. Twenty-five years ago not a mile of this system existed. Japan is mining over 2,000 tons of coal

per day, nearly 1,000,000 tons yearly, and the supply is of fine quality, apparently ustible. Twenty-five years ago the out-put was only 300 tons per day.

Japan has 201 cotton mills, with 887,000 spindles, including cotton growing. This industry employes 1,000,000 people. The average cotton production is 360 pounds to the acre, against 250 in our Southern

Japan does weaving in 660,408 dwellings or establishments, containing 924,123 looms and employing 1,042,866 persons. The weaving is done in cotton, silk and silk and cotton mixed.

Constable and Deputy Are Hit With

Joseph Deeghan, constable of the East ward of Renovo, and deputy constable go to my work. I feel just as strong as I Samuel Myers, of Lock Haven, while attempting to arrest a man for whom they had a warrant at Wistar, 6 miles above Keating, Wednesday night about 7 o'clock, were both shot and severely wounded. The injured men were taken to Lock Haven on the late train that evening

and are now in the hospital being treated. Deeghan has two bullet wounds in his abdomen and the bullets have not yet been located by the physicians. He was also shot in the left wrist, the bullet going through the wrist.

Samuel Myers on his arrival in Lock Haven went to his home in the First ward, where he was attended by Dr. Hayes. The bullet fired at him struck the lower rib on the right ride and did not make a dangerous wound. When he disrobed the bullet a 22-calibre dropped out of his clothing. The man who did the shooting fled and escaped arrest.

The name of the man who did the shooting is said to be Phirman Jamison, alias William Snyder, and the warrant, the officers went to his house to serve, was for surety of the peace. He has not yet been arrested, but the officers are looking for him. Dr. Ball stated that Deeghan was shot through the bladder and would have to be operated on.

Deeghau died in the hospital on Satur-

-"Why were you sent out of school?" demanded the foud mother. "I caught the teacher's eye," replied the bad boy. "Was that an offense?" with a bean from my blower."

Three Thousand Square Miles Swept by Them. Two Counties Devastated-Five Persons Burned to Death-Hundreds Homeless.

Reports received from Lawton, Okla., indicate that five persons have been burned to death and 3000 square miles of territory in Kiowa and Comanche counties swept by prairie fires. Hundreds of people are homeless and it is impossible to estimate the financial loss, owing to the wide extent of country affected. Following is a partial list of the killed and injured. D. Harmond, living six miles northeast

of Lawton, burned to a crisp. J. John Harmond, cannot live.

A. M. Crawford, near Lawton, seriously burned. Mrs. Henderson, widow, living near Law-

ton, and two daughters, severely burned, one cannot live.

The report says that more fatalities are expected, as the reports from some districts are meagre.

At Hobart, the county seat of Kiowa county, the fire approached from the east, destroying the stables and fifteen race horses, fifteen residences, two business houses and various small buildings. Spread ing to the southwest the fire swept 75,000 acres of government, military and timber reserve and Indian school reserve, destroying several Indian houses and forty head of government cattle. Spreading westward, the flames covered miles of the homestead district, destroying houses, barns and stock. It was in this district that five persons are reported to have perished in protecting their property. The names of three have been learned. They are as follows: Don Dock and John Harmon, and a man

The other two were women and their names have not yet been learned. Late at night the fire began moving northward toward Lawton. At midnight 5,000 people of the city were battling with the approaching flames. The advance line of the fire was fully two miles in length and came in a semi-circular form. A thousand men turned their efforts to checking the grass borders of the reservation at the city limits.

named Fischer.

Who Gets Mocha Coffee.

Most of It Taken by Shelks and Gover nors of Arabai

'I don't believe there is a pound of gen-nine Mocha coffee on this continent," Mr. C. T. Hilliglas, a coffee merchant, informs me, "or that 200 people in this country have ever tasted it, unless they have at some time visited Arabia and drunk it at

the table of some sheik or governor.
"The true Mocha is the finest coffee gown; it has a delicious flavor that makes it as superior to the very best of other brands as silk is superior to cotton, but the crop is extremely limited, and hardly ever more than satisfies purely local demands. Some Arabian coffee may find its way to this country; it may even be called Mocha. but it is not the real article, I am sure, and none of us have ever had it here, though we do get the best of other brands that are grown in Ceylon and Java, and that means some mighty fine coffee. It is not Mocha. however, for the whole of the true Mocha crop each year wouldn't supply the coffee demands of one ward in St. Louis alone for a period of six months. The best and plumpest berries of the Mocha growth, those with the most exquisite flavor, are eagerly taken by the governors and sheiks in the vicinity, and they have to get their orders in in advance, so that they may be cotton goods, telescopes, microscopes, sure of their annual supply. The second watches, knives, spoons, electric machingrade herries go to the wealthier citizens, ery, matches, clocks, woolen goods and a not of the governing class, and the third, or host of other lines. In 1870 manufacturing poorest grade berries, which are much supein Japan was almost nil; now she has over rior to the best Java coffee, are sold to the people, and the demand invariably exceeds

the supply tenfold. "Sometimes a few pounds of this cheap-est grade of Mocha finds its way to Constantinople, but it is very, very seldom, and and I don't believe an ounce of it has ever got any further West than that. I presume that if, by some book or crook, a pound of the real, plump herried Mocha were landed in this country it would sell for a price that even a Rockefeller might hesitate to pay. We get the best coffee grown, apart from the Mocha, but the local conditions which prevail where that coffee is raised prevent us from obtaining any, and I hardly think the real thing will ever be found in our markets."

Sleepless for Ten Years.

Grocer's Driver Has Strange Record for Wakeful-

The physicians of Trenton, N. J., are puzzling their heads over the queer case of Albert Herpin, who declares that he has not slept a wink for ten years. Herpin is forty-two years old and a Frenchman. He is apparently in perfect health, and says he suffers no inconvenience on account of his lack of sleep. He is employed as delivery wagon driver at the grocery store of Freeholder Phares. Herpin says that he began to lie awake

nights sixteen years ago, when his last son was born. "I was ne. 'ous, I suppose," says he. "Four years afterward my wife savs he. died and the shock must have affected my nerves, because I have not been able to sleep since. I have been treated in hospitals and privately, but to no purpose. At bedtime I go to bed like anyhody else, but not to sleep. I simply lie down to rest. I get up about 5 o'clook in the morning and did when I slept every night."

Fortune Smiles on Eighth York Man.

Within the last year fortune has smiled npon no less than eight York workmen of modest circumstances, all of whom have shared liberally in large estates. The la-test to be thus favored is William Liefer, a cobbler of the East End, who, by the death of his brother, Otto Liefer, which occurred at Salt Lake City recently, becomes the sole heir to the estate, estimated at \$100,-

000 Most of the dead brother's property is in Nebraska. George W. Wertz, district attorney of Skyler county, Neb., who has the estate in charge, has apprised the humble cobbler of his fortune.

Snowbound With Dead Son.

For two days and nights Mr. and Mrs. Paniel J. Sullivan have watched over the body of their dead son in a cold baggage car of a Lehigh valley train, stalled in 20 feet of snow north of Ithaca, N. Y. Two snow plows that went to the relief of the train are themselves stuck in the drifted snow. Three hundred men are now shoveling toward the train, but the prospects are that they will not reach it for two days

Mr. and Mrs. Sullivan were bringing olied the bad boy. "Was home the body of their son, who died in "Yes, ma; I caught it Big Moose, N. Y.. and their train was snowed under by Monday's blizzard.

Have Them Everywhere the Year Through.

From Ottawa to Tampa, on precipice or plain you can succeed with flowers in clay or sand, in parching soil or swamp or pond says Country Life in America. All you need is desire, determination and discrimination. Before the leaves appear you can have flowers—golden bells, spice-bush, shad-bush and many other shrubs; snowdrops, crocuses, hyacinths, tulips, planted the previous autumn, anemone, blood-root, hellebore and other hardy perennials. All through the summer you can have flowers anywhere, everywhere—herd, shrub, tree. After frost in the autumn you can have flowers-alyssum, goldenrod, Iceland poppy, chrysanthemum. Even the bare spots under trees, where there is dense shade and no moisture, can be covered with periwinkle or Creeping Charlie.

Of course, you do your part, too. You cannot leave everything to Nature. But if you are interested in such things and really care, you will undoubtedly succeed. And the greater the difficulties you over-come the greater will be your delight.

Mercury Fell 63 Degrees in 6 Hours.

Two March temperature records were broken in Nebraska Wednesday. At 1 o'clock in Lincoln the weather bureau thermometer indicated 70 degrees, the highest temperature for March of which there is record. One hour later the meroury had fallen twenty degrees, and at 7 o'clock at night the reading was 16 degrees above zero, a fall in six hours of 63 degrees a descent likewise without precedent in the State.

Throughout the afternoon and night a tremendous gale had been blowing from the northwest. Reports from country towns show considerable damage to small buildings.

TRAGEDY AVERTED .- "Just in the nick of time our little boy was saved" writes Mrs. W. Watkins, of Pleasant City, Ohio.

"Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound, and well." Everybody ought to know, it's the well." Everybody ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Green's

FOR THE PUBLIC GOOD

THE INFORMATION CONTAINED IN THE CHICAGO. CITIZEN'S STATEMENT IS INVALUABLE TO MILWAUKEE BELLEFONTE PEOPLE

When a resident of Bellefonte whose statement appears below who has no monetary or other interest in the article which he endorses who is anxious to do his acquaintances and fellow residents a good turn who publishes in this paper his experience with Doan's Kidney Pills that citizens must have good and sufficient reason for doing so. The following should dispel any doubts which may have existed in the reader's mind on this subject:

William Valence, 226 High street, Night watchman says:" For 2 years or more off and on I had trouble with my back and pains in the upper part of my spine accompanied by a disagreeable feeling in my head and acute lameness right over my kidneys. At first I thought it was my liver but later found it arose from the kidneys not acting properly. I read of the many cures that had been made in Bellefonte by Doan's Kidney Pills and I got them at F. Potts Green's drug store. They stopped the annoyance from the kidney's and removed the lameness and aching in my back. They did me any amount of good and I do not hesitate to recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, N. Y., sole agent for the U. S.

Remember the name Doan's and take no substitute.

Princeton Students Dropped from Rolls

Official announcement was made at Dean Fines's office that 66 students have been dropped from the university for deficiencies in studies. Of these 54 students are in the scientific department and 12 in the academy. Half of the total number are freshmen. This is the largest number of failures ever recorded at Princeton. It is said that several prominent athletes are among the suspended students.

On Sundays--a train leaves Tyrone at 8:00 a.m. making all the regular stops through to Grampian, arriving there at 11:05. Returning it leaves Grampian at 2:50 p. m., and arrives in Tyrone at 5:35

On Sundays there is one train each way on the B. E. V. It runs on the same schedule as the morning train leaving Tyrone at 8:30 a. m., week days. And the afternoon train leaving Lock Haven at 3:45.
