She was the second one of the family to die within a week.

A WELL KNOWN ENGINEER IS GONE:-As a result of the terrible accident he Friday morning.

He was the father of locomotive engineers in this vicinity and left the service of the old Snow Shoe railroad when the Bellefonte, Buffalo Run and Bald Eagle, now the Bellefonte Central, was in construction. Ever since he had been running ance that attracted to him hosts of firm friends.

at 4:15. Upon reaching State College he stepped from the cab to oil his engine and was in a narrow passage between the tracks Olden Times" in Petriken hall. Are you and the station platform. Some scenery was being unloaded from the express car and in order to facilitate its handling it -Millheim and Spring Mills fisherwas necessary to move the train a little. Fireman Sinick! Walker was ordered to do it, but before he started the engine he called to his engineer to get out of the danger he was in. Jerry felt secure, however, and directed him to go ahead. The result was that the tender and pushing pole caught him : rolling him along the platform and crushing him horribly.

> As soon as possible medical aid was summoned, but it was impossible to make a thorough examination of his injuries without administering an anesthetic, so he was put aboard his train and hurried to the hospital in this place. Conscious all the time he talked cheerily to the solicitous ones about him and even after reaction set in at a late hour that night and his suffering became excrutiating he seemed to think and talk more of his loved ones at home than of his own misfortune. He died with the Lord's prayer on his lips. The examination later revealed that both hips were crushed and his spine fractured in three places.

Though he was popularly called "old Jerry," more because it seemed a term of friendliness and endearment, he was only was a son of Patrick and Eleanor Nolan and was born at Curtin's Works and when only 18 years of age started rail-roading. engine he was given a throttle and every day of his thirty-six years of service was marked with the most conscientious attention to his duty to his employers, as well as a full appreciation of his responsibility for the lives that were relying on him.

It seems strange indeed that the man who went over the bank on the Snow Shoe at Fountain eighteen years ago, when his fireman and conductor were both killed, and whose engine rolled over the horseshoe fill on the Central some years later; as well as having passed through many less dangerous mishaps, should meet his death while off his engine. But such has been winter killed and a small crop is is fate. No one knows when death is

> The officials of the Bellefonte Central are not alone in their expressions of high regard for this man ; for to their appreciation of his unfaltering reliability as an engineer is added the public praise of him as a genial, courteous, kindly gentleman.

In 1868 he was married to Miss Henrietta Walker, of Snow Shoe, who survives him with the following children: Edward, James, Elizabeth, Rebecca, Mary, Joseph, Anna, Boyd, of Bellefonte; John and Daniel, of Tyrone. He also leaves three sisters, Mrs. Mary Reber and Mrs. Thomas Hickey, of Butte, Montana; Mrs. Michael Murphy, of Emporium, Pa.

The floral offerings were beautiful as they were lavish. His fellow employees on the Central sent a bed of roses, the Brotherhood men a head-light of white carnations and roses and heaps and heaps of loose flowers from Joseph Kelleher, John Cherry, Charles Keichline, American Lime and Stone Co., Harry Otto, Mrs. Aggie Keau, Harper Bros., Mrs. Mary Nolan, Mrs. Stella Nolan Johnson, James Nolan, L. M. Johnson, the Bellefonte Steam Laundry and others.

That the veteran engineer was popular with all classes was evidenced by the unusual crowd of people that assembled in St. John's Catholic church for the requiem mass that was celebrated for the repose of his soul on Tuesday morning. The stately edifice would not hold all who were there.

The honorary pall-bearers were Ogle Burley, of Tyrone; Claud Thompson, Edward Whittaker, of Bellefonte; Theodore Van Scoyoc, of Tyrone; G. W. Rose, No. 52, Sunbury, and Howard Crane, No. 287, Altoona, all members of the Brotherhood of Locomotive Engineers.

The carriers were Irvin Ward, J. E. Stewart, W. H. Huss, J. H. Trout, Charles Stratiff and Scott C. Smith, all members of the Brotherhood of Locomotive Engineers, No. 467. Tyrone.

When he took charge at the works he had apartments for himself fitted up in one spends most of his nights there. Last Friday evening he was in town and returned about 11 o'clock. It was raining quite hard and after walking down the railroad office building. Just as he was about to the construction of the Snow Shoe rail-road mount the steps of the latter place some one came to the door and yelled : "Get right Mr. Blanchard started to enter the building, but just as he did so a man appeared at the door and fired point blank at him. They were that close together that the flame from the pistol barrel touched Ned's coat. It was little wonder that it took him some time to realize whether he was really shot or not and in that interim the miscreant escaped.

A half burned candle was found in front of the safe, indicating that the robber had been surprised while at his work.

THE TROUT FISHING SEASON OPEN ED.-Last Friday was anything but an auspicious day for the opening of the trout fishing season. Notwithstanding the high cold water and exceptionally cold weather, the streams in this vicinity were literally lined with fishermen.
