ter facilities all that could be asked for and all natural advantages requisite to make a good, high-priced farm may exist, and yet that farm scarcely makes its owner a living.

a living. —Bordeaux mixture is made thus: Copper sulphate blue vitriol, 4 pounds; quick lime. 4 pounds; water, to make 50 gallons. Use a tight barrel, such as for coal oil. Dissoive the copper in bot water, if wanted for immediate use, or place it in an old gunny sack and suspend it in the barrel, two-thirds full of water, until it is all dissolved. Slake the lime and add wa-ter until it is of the consistency of milk, and when cocl, pour it into the copper so-lution, using a sieve to remove all coarse material. Stir this mixture and fill the barrel with water; it is then ready for use. For plants with tender foliage ouly one-half the amount of copper and lime should be used.

be used. -It is not desirable to plant seeds of vegetables too early. If the ground is not warm the seed may rot before it can ger-inate. Such crops as beans, melons, squashes and eggplant will not endure even oold nights. Get the somato plant well grown, in stocky form, and have them redy for transplanting as soon as the passed. One of the best guides in the planting of gar en seeds is to do so when the apple trees are in bloom. Peas, how-ever, may be planted in April, but when the apple trees are in full blossom it is then safe to put in the seeds of the tender plants. Much depends upon the soil. If it is plowed or spaded deep, and then worked fine with a harrow and rake, the ir takes in the warmth and the soil be-oomes warm much sooner than when it is given oareless preparation.

white or black, is really the prettiest of the new stockings, and the delicacy of orna-mentation commends it to the many wom-en who admire dainty effects.

Unlined skirts seem the rule for walking gowns in summer weights, another evi-dence that most of ns look forward to a sudden coming of the inevitable hot spell. The newer two-piece and three-piece suits of mohoir, one and all have the skirt made without lining, a move in the direction of comfort. The unlined skirt, of Liberty satin, is another feature of summer styles. This will be found more stylish than foulard, although scarcely so cool. Hav-ing greater body, it does not require a lin-iog, and it makes a useful traveling gown when made up in the darker colors. Unlined skirts seem the rule for walking

The fashions in feminine footwear for the summer as announced show some striking novelties. For example, boots half white and half yellow are shown as an extreme style, permissible to the correctly dressed woman. But red boots will not "do" at all. Richelten shoes are shown in brown, gray and white. Boots of glace kid with tops of lasting cloth, which is much cooler than leather, will be generally worn. For evening, slippers of marcon satin will be worn with stockings of the same color. Gilt kid slippers with buckles are also good style. style.

The torrent of brown toilets is still with ns, but yet there are those who appreciate the refinement of some delicate tones of pigeon gray and cloud gray. The latter is supposed to be the newer. Cloud gray adelightful freshness. They do not be-long to the blue-grays and indistinct colors, but tend toward stone-color, very clear, and intended to be relieved with touches of black velvet ribbon, white lace and silver passementerie. Cloud gray is very light and the dressmaker should be throred to use a waist lining light enough either to match or still paler, so not to deepen the order. If you are going to wear the skirt over a petiticoat of gray taffets there will be no difficulty in matching the lining. If not, you had best line the corsage with white silk or white cambric; then skirt and waist will show in uniformity of pale grayness. Cloud gray bengaline, cloud gray albatross or voile, and cloud gray tamine are excellent choices for a pretty new gown. The torrent of brown toilets is still with new gown.

Hints that will help yon to have a pretty skin. Don't bathe in hard water; soften it with a few drops of ammonia or a little borax. Don't bathe while it is very warm, and

Don't wash your face while traveling, unless it is with alcohol or a little vase-

line.

line. Don't attempt to remove dust with cold water; give your face a hot bath and give it a good rinsing with tepid water. Never rub your face with a coarse towel; just remember it is not made of cast iron, and treat it as you would the facest porce-lain-gently and delicately. Don't use a spone or linen rag for your face; instead, use a flannel one. Dou't believe you can get rid of wrinkles by filling in the crevices with powder. In-stead, give your face a Russian bath every night; that is, bathe it with water so hot
