She reports having heard firing north of Port Arthur from 7 o'clock Monday morning until 2 o'clock that afternoon, by which time she passed out of hearing distance. It would appear that the Japanes plaoned land and sea attack on Port Arthur yesterday. The Russians on seeing this, sent their fleet out to give battle. The result is not known. The above dispatch would seem to confirm the dispatch previously received today from the Associated Press correspondent at Teng-Chow, Shantung peninsula. The correspondent said there was firing at Port Arthur last night, beginning at 11:30 o'clock and continuing for several hours. HOPE TO CRIPPLE OKU'S ARMY.

According to accepted stories here Viceroy Alexieff insisted that Kuropatkin should not leave Port Arthur to its fate, and the advance of troops, the died. strength of which is not known here, may be due to his pressure. But two things are certain-the strength of the main army at Liao Yang has not been appreciably weak-ened by the force sent south and the movement was not ordered by Emperor Nicho las. The Emperor received a telegram skirmishes near Sin Yen and Saimatsza. Although neither movement has yet developed particular significance, they might eventually indicate an attempt of the enemy to push through the line at the head of the Liao Tung peninsula while feinting at the Russian left flank at Liao Yang. THIRD PACIFIC SQUADRON. The Grand Duke Alexis, commander-inchief of the navy, according to an apparently reliable report which, however, is not officially confirmed, has obtained the permission of the Emperor to create a third Pacific squadron from the ships of the Black sea fleet, and permission has already been obtained from Turkey to take the dition that they will not return. This squadron will be composed of the battleships Rostislav, Dvenadzat, Apostoloff and Tria Sviatitelia and will be accompanied by torpedo boats and torpedo boat destroyers, and will sail for the Far East simulta-

LONDON, June 7.- The foreign office has not received any request from Russia or Tarkey to agree to the passage of the Russian Black sea fleet, through the Dardanelles. It is pointed out that Turkey, doubtless, would be delighted to get rid of Russia's Black sea fleet, but the passage of warships through the Dardanelles would be a distinct contravention of the treaty, per-mission for which has neither been asked verse "Blessed are the dead which die in the searly life in that place. and while the nomination of Mr. Ellis L. Orvis was a certainty the veterans are aroused to encourage the younger men in the great effort that is to be made to purge the bench of Centre county of the charges of corruption that are recorded against it.

The convention was called to order by the county chairman at 12:20. After secretary J. K. Johnson had read the call the roll was called, showing every delegate but one present. This being done nominations for permanent chairman were declared in order. W. F. Smith, of Millheim, named Col. J. L. Spangler whose selection was made unanimously. Owing to the amount of business to be transacted Col. Spangler made no further speech than to thank the delegates for the honor accorded him.

Upon motion of Paul Fortney, seconded by John M. Keichline, Chas. R. Kurtz and George R. Meek, were made secretaries. For tellers W. H. Fry, of Ferguson, named H. F. McManaway, of Miles, and W. F. Kelley, of Bellefonte. Mr. Keichline seconded their nomination and they were chosen by acclamation. A. Weber, of Howard, placed W. F. Smith, of Millheim, in nomination for reading clerk. He was elected by acclamation. Then George L. Goodbart, of Potter, moved an order of business that was adopted.

With the routine of organization completed chairman Spangler appointed the following committees :

On Resolutions : Dr. F. K. White, Philipsburg; W. H. Fry, Ferguson; L. B. Frank, Miles ; A. Weber, Howard ; S. A. McQuistion, Bellefonte; John B. Long, Rush, and M. D. Kelley, Snow Shoe.

On Credentials : Hammon Sechler, Bellefonte; Geo. W. Rumberger, Unionville; J. W. Orr, Marion; D. J. Meyer, Centre Hall; W. A. Murray, Harris; Geo. L. Goodhart, Potter, and J. D. Miller, of Walker.

ORVIS NAMED AMID CHEERS. Scarcely had the chairman announced the convention ready to receive nominations for the office of president judge ere J. C. Meyer Esq., arose to name a man whose "legal mind is of the keenest, whose moral character is spotless and whose personal demeanor is that of dignity itself." Mr. Mever spoke of "the signs that portend an awakening of Democracy to great achievements this fall and with them must come the disintegration of the trusts that make millionaires of the few at the cost of the many." Speaking further, he said, "the people of Centre county demand that politics be divorced from the great and sacred trust, the courts, and looking to that end I have the honor to name a man who, like Caesar's wife, is above reproach : I name my friend and colleague Ellis L. Orvis, of Bellefonte." Mr. Meyer took his seat Mr. Meyer took his seat amid cheers and after an enthusiastic seconding speech by John M. Keichline Esq., the nomination of Mr. Orvis was made by acclamation.

THE RESOLUTIONS. The business of the convention being

over the resolutions were read as below and short speeches were made by Col. John A. Woodward, of Howard, and Col. J. L. Spangler before adjournment.

First. We affirm our adherence to, and faith First. We affirm our adherence to, and faith in, the principles of our party as taught by its founders; and we congratulate the Democracy of Centre county, as well as of the State and nation, that upon those cardinal principles of Democratic faith and their application to the vital, pressing questions of the day, we all stand united. Second. We commend that declaration of President McKinley in his last public address, when he said that 'A system which provides a when he said that "A system which provides mutual exchange of commodities is manifestly essential to the continual healthfulness and growth of our export trade. We must not rep in fancied security that we can forever sell every-thing and buy little or nothing. The period of exclusiveness is past. The expansion of our trade and commerce is the pressing problem: commercial wars are unprofitable; a policy of good will and friendly relations will prevent re-prisals."

good will and friendly relations will prevent re-prisals." While we recognize the right of capital in all legitimate lines of enterprise to combine for the increase of business, for the enhancement of profits by enlarging productive capacity and by decreasing the cost of production, thus lessening the price to the consumer, yet when such combi-nation, in its purpose or effect, creates or tends to create a monopoly of its production; to re-strain trade; to stifle competition; to increase cost to the consumer, or to control the market for the labor it employs, it violates the spirit of our laws, becomes inimical to public welfare and peace, and should be so regulated, controlled or prohibited by law as to protect the public inter-ests.

We believe that a majority of the unlawful trusts now in existence are the direct and natur-al result of the excessive Republican tariff du-tice, which destroy competition, and inevitably breed combinations for monopoly. To remedy this evil should be one of the first purposes of tariff revision. To such revision our party stands pledeed

THIRD. We deplore the continued existence of labor troubles and express the earnest hope tha through concession, arbitration, moderation, and fair dealing adjuctments may be reached. While we concede to capital and employers the utmost protection guaranteed by the constitution and the laws, we maintain that labor also has the

the laws, we maintain that labor also has the right to that protection which comes through proper organization and union. Fourn. We deplore the present prostration of business and the enforced idleness of toiling multitudes by the general closing of furnaces, mines and factories, and the wholesale dismissal of faithful employees by the great transportation companies of the country. Thus, deprived of a fair opportunity to earn a decent livelihood and compelled to pay for the necessaries of lile the exorbitant prices extorted by the trusts, our peo-ple are facing the double danger of idleness and want. For eight years the Republican party has

ple are facing the double danger of idleness and want. For eight years the Republican party has been entrenched in power in every department of the government, has constantly proclaimed it-self the author and creator of our prosperity, and now when our exports are diminishing, our in-dustries paralized, workmen idle, business de-moralized, capital discouraged, we place the re-sponsibility where it belongs and hold President Roosevelt and the Republican policies account-able for the present deplorable condition of busi-ness—all of which again forcefully illustrates to the American people that the tariff upon which such prosperity is built is a fraud and a snare used by the corporations, combines and trusts to oppress and plunder the people.

such prosperity is built is a fraud and a snare used by the corporations, combines and irusts to oppress and plunder the people. FIFTH. We demand that our courts be, in name as well as in fact, "Temples of Justice," where law and equity shall be so administered as to command the universal respect and confidence of the people, and to this end we earnestly pro-test against the prostitution of the judicial office by participation in factional palitics, resulting in such distribution of court favors and patronage as to reward parties and the prosteries against the prosting in such distribution of court favors and patronage by participation in accional paintics, resulting in such distribution of court favors and patronage as to reward partisan adherents and patronage and punish political opponents. The sacred ot-fice of an upright judge and the dubious occupa-tion of a practical politician are incompatible, and their conjunction is a menace to the "ina-lienable rights of life, liberty and property." Our people, ever jealous in maintaining the pur-ity and dignity of the judiciary, have invariably disregarded partisan feelings to rebuke a parti-san judge-we call attenticn to the result in neighboring judicial districts, where the people, irrespective of party differences, united for the purpose of banishing politics from the courts. Therefore, the Democracy of Centre county call upon all good citizens, of all creeds and parties, to unite in electing to the President judgeship of this the 49th judicial district, a man whose ante-

CRIPPLE CREEK, Col. June 6 .- Twelve men were killed and seven were severely wounded to day by the explosion of an in fernal machine at the railroad station in Independence. All the killed and injured with the exception of two men from the Deadwood mine, were non-union miners employed on the night shift of the Findley mine.

The infernal machine with which the nurder was committed, consisted of a quantity of dynamite, probably 300 pounds, a loaded revolver, and a long, fine, steel wire, attached to the trigger. The revolver was fastened so that the pulling of the trigger would not draw it away The wire ran from under the station platform to the cribbing of the Delmonico property, about 400 feet away, where its end was fastened to a rung of a chair. The dynamite was placed close to the muzzle of he revolver, which was discharged by

pulling the wire. The ball from the revolver and the resultant concussion exploded the dynamite. A man was seen running down the hill

from the Delmonico property after the explosion. The Victor troops, who were ordered out by Mayor French, were so stationed as to keep people from passing over the path taken by the man and bloodhounds were sent from Canyon City and Trinidad to trail the assassin.

The infernal machine used to-day was similar to the one exploded in the Vindicator mine on November 21, 1903, killing two mep.

The men quit work at 2 o'clock this morning and were waiting to hoard a train to return to their homes in Cripple Creek and Victor.

Just after the engineer of the approaching train blew the whistle as a signal to the miners, according to custom, a terrific explosion occurred underneath the station platform on and near which twenty-six men were gathered. The platform was blown into splinters, the station was wrecked and a hole twenty feet in circumfer-ence and twenty feet in depth, was torn in saying: the ground. Fragments of bodies were hurled several hundred feet.
