-Woods Sebring came up from Philadelphia his week for a short visit. These chilly days nave probably given him respite from work, as he is a druggist, corner Tenth and Spruce streets. and nowadays the arduous and rushing duties of druggists are mostly in mixing sodas and con" octing other mysteries to please the epicure in ancy drinks.

Mrs. Austin, of Fresno, has been making her first visit East and while here was the guest of Mrs. Geo. Williams, of Spring street. So pleasantly have all eastern things seemed to her that she left them this week with regret.

-If there are unpleasant things connected with being a dentist, there are other things pleasant enough to overbalance, for who that has read of the brilliant opening hours of the beautiful Bellevue-Stratford, would not deem himself fortunate to have a share in them. Onejoin her husband and where they will make their fare rates from all points in Pennsylvania and New Jersey and within a radius of 150 miles in New York and Ohio. R., leaving Erie at 8 a. m., Tuesday and Saturday, October 4th and 8th, good returning for five days. The exhibit of fire apparatus and appliances will be the largest ever displayed. If Bellefonte or any Centre county fire men expect to attend the convention

they should write R. E. Ford, Erie, Pa., for circular of detailed information.

A PATHETIC FAREWELL.-Justice Roland, who has been secretly engaged for some time to Auna Brutwurst, of the Black Eagle Tavern, through a little error allow ed two rascally rogues to escape from prison, necessitating the calling out of the village guard and his taking the lead in the search for the missing culprits. The entire population was in sympathy with him as he was compelled to leave his

sweetheart and march gallantly at the call of duty over the hills and peaceful valleys of the neighboring country. He was given a rousing farewell with "Good Bye Little Girl Good Bye"a dandy march song which was especially written for Nixon & Zim-

merman's magnificent production of that charming comedy opera "The Strollers" which will receive its first local presentation at Garman's in a few weeks.

THE TWO JOHNS .- It is a pleasure to announce that J. C. Stewart's funny musical farce, "The Two Johns", will be the attraction at the Garman opera house next Thursday, September 29th. Musical comedies come and go but this farce has a wonderful hold on the theatre goes everywhere, which it will probably never lose. Ed. Begley and Albert Rice who play Philip and Peter Johns, weigh nearly 400 pounds each, and must certainly cause the moment they appear before the audience. This attraction will undoubtedly test the capacity of the theatre, and judging from the business they have done in other places we advise those coming to get their seats early.

Fifty are already on the list of entries and the sentiment among horsemen this year is said to be strong for the Bellefonte fair. The lighter amusements will be supplied by the eastern show of the Frank P. Spellwas under this management that last season's clever attractions were secured. J. H. Wetzel.

-Monday the Bellefonte High school athletic association was organized with the following officers : President, Earle Taylor; vice president, Paul Wetzel; secretary, Lloyd Markle; treasurer, William Kuhn. Paul Etters was elected manager and Earle Taylor captain of the foot ball team.

-Landlord H. S. Ray has traded his Oldsmobile run-about for Mr. John Porter Lyon's Cadalact car, the latter to have all new machinery installed and otherwise to be fixed up as good as new. Mr. Lyon has made a deal with the agent at Huntingdon whereby he trades the Ray Oldsmobile as part pay on a new Cadalact of a later model than his old one.

-It may have been a desire to elude a too mad rush of visitors when he needed quiet that Mr. Will Burnside took his satchel and walked to the train presumably starting on a trip to Atlantic City and New York when he did not go at all. We like to note the goings and comings of our friends, but do not want to put them out of town unless they want to go, hence the correction.

-Mr. J. Kyle McFarlane's fortune is made if the complexion beautifier, for which he is agent, works the charm it is claimed to, for what woman would not barter her soul to be pretty. A number of people in Bellefonte now have trial bottles and find that it works marvels in removing freckles, liver spots, tan and clears the complexion of any eruptions, tetter, eczema, etc. It is found excellent for bruises, hives and ivy poisoning and gentlemen find it delightful to use after shaving.

-What do you suppose bappened the sporting editor of the Daily News while he did the Granger's picnic on Tuesday? We will be put in operation next Monday. are too meek to imagine naughty things The Bellefonte furnace company is now but when a man issues a Tuesday's paper and dates it Wednesday, the twentieth, and talks about Miss Grace Smith's illuminated ware, he must certainly be razzle-dazzled, don't you think? All of these attractions, in addition to

seen outside of the great tent shows.

There is no humbuggery or exaggeration about it. That is not the way of the Centre county fair management. It acts in good faith with the public, always, and though it has been a losing venture almost from the start every premium and purse has been promptly paid and the public made to understand that the fair is honestly and honorably conducted. This year there will not be a gambling device of any sort on the ground. The nearest approach to anything of that sort will be the paddle wheels which you see at every picnic you go to and so many demand as a means of

amusement. Knowing the honest effort that is being put forth to make the fair a great success we do not hesitate to urge the people from all parts of the county to turn in and help; not only by your presence, but by the exhibit of any article you have that has merit in it.

### THE BELLEFONTE FURNACE. - Mr.

William Kelly, one of the best furnacemen in the country, arrived in Bellefonte from Sparrow's Point on Monday and with a large force of men at once began tearing out the old lining in the stack of the Bellefonte furnace. Just as soon as the old is torn out the furnace will be newly relined and other repairs necessary will be pushed as rapidly as possible for an early blowing in of the plant, which it is now expected will be sometime between the 15th and 20th of October. The repairs at the Scotia. Gatesburg and Red bank ore mines have about been completed and all three plants separate and apart in every way from the Nittany furnace and will be under the direct management of Mr. J. W. Gephart. Such arrangements have been made as assures for the company a long and, we hope, most successful run.

-Mr. and Mrs. John Porter Lyon quietly celebrated their fifth wedding anniversary at "Hearts Ease," Tuesday evening with a dinner given to the two families and a few friends. That it was a wooden wedding was judged only from the presents of clothes pins and wringer, for there was nothing stiff or spiritless about it. If every five years bring as many smiles of fortune as have the first five of Mr. and Mrs. Lyon's married life, theirs will indeed be good measure heaped up and running over, for not many young married couples are possessors of a beautiful old home, two lovely children and an automobile

-A menace to life are some of the sidewalks about town and before suit for amages is instituted, it would be well for the council to do away with the causes for complaint. The pavement in front of Dr. Seibert's residence has been raised to the equired grade but the adjoining ones are a full step lower, leaving a most excellent stumbling place for the unwary and several people have had severe falls there. The sufferers thus far have carried their bruises and jars without making public out-cry but one of these days some one will fall who will awaken the town officials to time. their ov er-sight in this matter.

-A marriage which came somewhat as a surprise to the general public was that of Miss Maude Spigelmyer, to Mr. Charles Kase, formerly of Bellefonte but now of Trout Run, for although an engagement has existed for sometime that it would so soon terminate in marriage was not generally known.
